ANOKA The Old Folks Apple!

**Here's
Bargain No. 1**

1 Anoka, 7/16".
1 Stanley Prune, 7/16".
Both \$1.15 Net
for
Not Prepaid

BEARS FIRST YEAR-- No Waiting for Fruit

BEARS FRUIT THE THIRD YEAR

ANOKA *The Old Folks' Apple* Often Bears in One Year—No Waiting for Fruit

The second year, big, full sized crop; earliest and heaviest bearing Apple. Hardy in all climates; never winter-kills. Can be grown anywhere in the United States. Ripens in August but can be used a month earlier. Apples are good sized, well-formed, beautifully colored. Has proven to be one of the very best early summer Apples for all purposes.

Every home should have Anoka. One or two trees in your yard will furnish you a bountiful supply of fruit without long years of waiting.

	PRICE	Each	3	10
2-yr., 7/16 in., 3 1/2- to 4 1/2-ft. trees.		\$0.80	\$2.10	\$6.50

STANLEY PRUNE - New!

Superior to all Prunes as it often comes into bearing in 3 years and ripens 10 days earlier than Italian or German Prune. Hardy, never winter-kills. A more thrifty and rapid grower than all other sorts. Very productive. Fruit large, deep bluish purple; firm and sweet, excellent quality. Will replace all other Prunes as soon as stock is available. The best for commercial planting or home use. Get started with this grand new variety this year. (See page 49 for further description).

	PRICE	Each	3	10
2-yr., 7/16 in., 3 1/2- to 4 1/2-ft. trees.		\$0.80	\$2.10	\$6.50

A COMPLETE LINE OF NURSERY STOCK DIRECT TO GROWER

WHITTEN-ACKERMAN
Nurseries
1937.
Bridgman, Michigan

35 years of experiments and efforts by Prof. N. E. Hansen, S. Dak. State College, originator of the Anoka Apple and many other fine new fruits, produced this new quick-bearing bush-Cherry, which is one of the finest. Our stock of the Cherries was secured direct from the originator, Prof. N. E. Hansen.

HANSEN'S

Bush Cherry

This new Bush Cherry combines two useful qualities—both in one plant. You can now have a beautiful ornamental hedge, single specimens or a group planting, which also produces delicious, wholesome fruit. Hansen's New Bush Cherry is beautiful and outstanding during the entire growing season, as to foliage, flowers and form. In the early spring this dwarf, symmetrical bush is a mass of beautiful snow-white flowers, covering the entire bush.

This shrub grows rapidly and fruits quickly in any soil. Withstands heat, drought or cold. Requires very little room, and often bears more fruit than a Plum tree. Can be planted as closely as 4x6 feet. Grows only 4 to 5 feet high—3 to 4-foot spread.

The foliage, which is beautifully silvery-green, turns to rich red and gold in the fall. This Bush Cherry is beautiful even without flowers.

Fruit as large as any sweet Cherry, but plum-shaped. Good flavor and is delicious to eat from the bush; fine in sauce, superb in jam; splendid for jelly.

PLANT THESE HANSEN IMPROVED BUSH CHERRIES BECAUSE:

1. Easy to grow and perfectly hardy.
2. Good to eat, and make delicious preserves.
3. Bear early, heavily, and annually.
4. Are dwarf-growing and bushy.
5. Excellent for hedges or ornamental shrubs.

PRICE Sturdy, 12 to 18-inch bushes, 30c each; 3 for 80c; 5 for \$1.25.

Big Gift Planting of Hansen Bush Cherry

Free with Early Cash Orders

To every customer who sends us an order before April 1st, 1937, accompanied by cash in full at regular catalog rates, and who in addition sends us the names and addresses of four fruit growers, or purchasers of nursery stock, we will send absolutely free the following number of Hansen's Bush Cherry:

- 1 Hansen's Bush Cherry free with cash orders between \$1.00 and \$2.00.
- 3 Hansen's Bush Cherry free with cash orders between \$2.00 and \$5.00.
- 5 Hansen's Bush Cherry free with cash orders between \$5.00 and \$10.00.
- 8 Hansen's Bush Cherry free with cash orders between \$10.00 and \$15.00.
- 12 Hansen's Bush Cherry free with cash orders amounting to \$20.00 or more.

Or, if you prefer, on any order amounting to \$5.00 or more after cash discount has been deducted, instead of the free Hansen Bush Cherry offer, you may have your choice of any one of the following bargains:

- 25 Grape Vines; Red, White and Blue: 10 Catawba, 5 Niagara, and 10 Concord.
- 25 Latham and 25 St. Regis Everbearing Red Raspberry plants, 1-year.
- 4 Elberta Peach trees, 1-year.

- 7 Flowering Shrubs—2-year, our selection.
- 75 Blackberry plants, 1-year.
- 4 Climbing Rose Bushes—our selection.
- 150 Strawberry plants—our selection.

Late in the season if we are sold out of any varieties, we reserve the right to substitute something of equal value.

Be sure to send the four names and addresses with your order. (Use space provided on back of order sheet). The gift positively will not be sent unless customer complies with this condition. This offer open until April 1st, 1937, only. On all cash orders received after April 1st, when accompanied by four names referred to, we will include the Hansen's Bush Cherry if still available; but if not, we will include additional nursery stock of our own selection as to variety and value.

No special bargain collections are included in this free plant offer. Nor cash orders where a special reduced price has been quoted.

CERTIFICATE OF NURSERY INSPECTION

Michigan State Department of Agriculture
Orchard and Nursery Inspection, No. 7433

This is to certify that the Nursery Stock of The Whitten-Ackerman Nurseries, Bridgman, Mich., has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant disease. Fee paid \$25.75.

Lansing, Michigan, September 22, 1936. James F. Thompson, Commissioner. Bureau of Agricultural Industry, A. C. Carton, Director. E. C. Mandenberg, in charge of Orchard and Nursery Inspection.

We Grow because we give you Big Values

100,000 Satisfied Customers—In Every State in the Union Plant Our Hardy Stock—the Reasons are Simple

So many customers cannot be wrong—they buy from us year after year, for they know our stock can be depended upon. Here are some of the reasons:

We sell only the best hardy, Northern grown stock at lowest possible prices.

We promise a fair and square deal to everyone—and make good our promise.

We ship stock subject to examination before payment.

WHY Can We Sell Fine Stock at Such Low Prices?

BECAUSE—

We sell direct from our catalog only—you have no agents' commission to pay.

We do not spend thousands of dollars on colored pictures in our catalog. We pass that saving on to you.

We purchase no large advertising space—we depend largely upon our friends and customers to advertise our stock; the bulk of our new business comes from unsolicited patrons recommended by our satisfied customers. This shows confidence in the Whitten-Ackerman Nurseries, on which we base our hope of future business.

The Whitten-Ackerman Nurseries have been growers for over fifty years. We have farms with the best of soil; tractors, trucks, packing houses and everything necessary to grow and pack the finest kind of nursery stock.

Many nurseries use at least five pages in their catalog to advertise these qualifications, and to show the size of their business. This additional cost is passed on to the consumer through higher prices.

In looking over our catalog, you will find many real money-saving bargains. We wish to make clear that all stock in these bargains is the same high quality stock offered at regular catalog rates. By placing your order with us, you will be sure of receiving plants, trees, etc., that are first class, and up to grade in every respect—you will find no spindly stock or culls offered in this catalog. For your protection, buy direct from our nursery and be assured of a nice lot of stock, and a square deal in every way.

On account of the long, severe drought, which we had here in the United States last summer, there is a very light supply of nursery stock in all sections. Therefore, there will be a small increase in price on some items. Times being better, and with a normal demand, there will not be half enough stock to go around. Be wise! Place your order early, take advantage of the special discounts, and have the satisfaction of knowing that your wants are reserved.

100,000 Satisfied Customers Can not be Wrong

R. C. Whitten

R. W. Ackerman

We Aim to Tell You the Truth—We Are Farmers. Too, and Don't Try to Sell You Any Varieties We Ourselves Would Not Plant

No Cash Payment Before Shipment

You Examine Stock Before You Pay.

This offer applies only on orders amounting to \$3.00 or more, for shipment on or before April 25th, 1937.

We were the first nursery in this section of the country to adopt this unique selling plan, whereby it is possible for customers to order without sending any money. Make out your order at full prices listed in catalog, and instruct us to ship C.O.D. Express or Parcel Post, subject to your examination by Express only, as the postal authorities do not permit examination of parcel post shipments.

Look over the shipment and see for yourself whether the stock is in good condition. If shipment is satisfactory, pay your express agent the amount due and the plants are yours—still covered by our guarantee. What could be more fair? We simply must furnish good nursery stock or we couldn't possibly afford to make this offer.

We would advise all small shipments sent by mail, and will send your order by Parcel Post C.O.D. for purchase price, plus postage, if you prefer. All such shipments are fully covered by our guarantee.

NOTICE: The above offer does not apply on orders amounting to less than \$3.00; on Special Bargain Collections; Special Quoted Prices; nor on any orders specifying shipment later than April 25th, 1937. Cash in full must accompany all orders under \$3.00, or those calling for shipment later than April 25th; but on such orders customers will be entitled to our cash discounts from regular catalog rates, as explained at the right. **WE GUARANTEE SAFE ARRIVAL OF ALL SHIPMENTS MADE ON OR BEFORE MAY 25TH, 1937.**

Order Early and Make a Big Saving

20% DISCOUNT on All Cash Orders received during January, 1937.

15% DISCOUNT on All Cash Orders received during February, 1937.

10% DISCOUNT on All Cash Orders received during the balance of 1937.

To those who wish to send all cash with order, we offer these special cash discounts from our regular printed prices (except on bargain offers and special quotations), applying on orders received for shipment any time during 1937. Order must be accompanied by cash in full to secure the benefit of these discounts. This is your opportunity to effect a material cash saving, especially on larger orders. Remember, we guarantee safe arrival of shipments made on or before May 25th, 1937. You take no chance whatever.

You may deduct the amount of the discount from your order, or include more stock for the amount.

We Believe in a Square Deal — and Practice What We Believe

Our Prices Save You 20% to 40%

Indianapolis, Ind.,

April 24, 1936.

I wish to thank you for the magnificent trees you sent me on April 6th. It is a pleasure to deal sight unseen and to receive better than a fair deal.

Yours,

F. A. LOY.

Olean, N. Y.,

April 23, 1936.

I have just received the shipment of 18 Cameo Roses. Having purchased them at your extremely low bargain prices, I rather expected the bushes and root systems to be comparatively small. I was, therefore, both surprised and pleased to find strong, sturdy plants, fully equal to those for which I have regularly paid 75c each.

Very truly yours,

EARNEST C. HAMBURG.

Netawaka, Kans.,

Feb. 17, 1936.

Last year I received Raspberry and Blackberry Plants, and they were fine plants, and grew in spite of the dry year. I was so well pleased with the order. Plants and trees I get from you are larger, healthier, and grow easier than what I get closer home and elsewhere. I shall always want to order from you and recommend you to my friends.

Sincerely yours,

MRS. T. A. LARIMORE.

Rifle, Colo.,

Feb. 25, 1936.

Am sending in another order. Also want to add a few words in appreciation of the quality of nursery stock you send out. One order convinced me of your truthful grading; also that pretty colored pictures often shown in other catalogs do not necessarily mean high quality. Last season my cousin and I ordered from your firm and another nursery. Your trees were much superior to the others—the well-developed branches, heavy root system and well-calibered trunks were especially noticeable.

Respectfully yours,

FLOYD MARTIN.

Low in Price but — away ahead of others in quality

We have thousands of testimonials such as these, and can furnish, upon request, names of satisfied customers in or near your locality.

Actual photograph of millions of Strawberry plants growing on one of our farms. They will be fresh dug for your order

Brownville, Nebr.,

April 5, 1936.

Received my trees yesterday, and believe me, they are sure fine. I showed them to several fellows, and they all want to know "where did you get such fine trees?" If I can help you in any way, I sure will. As ever,

RAY EARL.

Tazewell, Va.,

April 27, 1936.

Received shipment of plants and trees, and am delighted with them. The two Norway Spruce are beautiful, and several people have admired them and asked where I got them. The shrubs are nice, large ones and would have cost much more elsewhere. The Cherry Trees are good size and a fine value.

Thanking you for your very prompt service and your quality stock, I am,

Most sincerely yours,

MRS. G. M. ST. CLAIR.

Elgin, Ill.,

June 25, 1936.

I want to express my appreciation for the last Wayzata Strawberry Plants. They were far above the average for quality. Every one lived—well they were so good that they could not help but live.

S. W. PORTER.

Steubenville, Ohio.

May 23, 1936.

I received my Peach Trees in good shape. Must say they were packed well and should grow nicely.

Six years ago I bought 90 Apple Trees from you and lost only two. Last year had some apples and from each tree—about one-half bushel each. Found each and every one true to name.

Thank you, STANTON LONG.

Ortonville, Minn.,

May 6, 1936.

The Gem Strawberries came through the severe winter in fine shape. It was real dry last fall, too. They sure are hardy. Cumberland are looking fine, too.

Yours truly,

ERNEST W. JACKSON.

Nursery Stock Satisfies

OUR GUARANTEE

The Whitten-Ackerman Nurseries

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition.

Furthermore, we will, at our option, either replace free of charge, or refund purchase price, on any stock that arrives in bad condition; PROVIDING CLAIM IS MADE WITHIN FIVE DAYS FROM ARRIVAL OF SHIPMENT, ACCOMPANIED BY A SIGNED STATEMENT FROM THE EXPRESS AGENT OR POSTMASTER AT DESTINATION, SHOWING EXTENT OF LOSS OR DAMAGE.

If any stock proves untrue to name it will, at our option, either be replaced free of charge, or purchase price will be refunded, but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgment of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

Dun and Bradstreet's

REAL Aristocrats

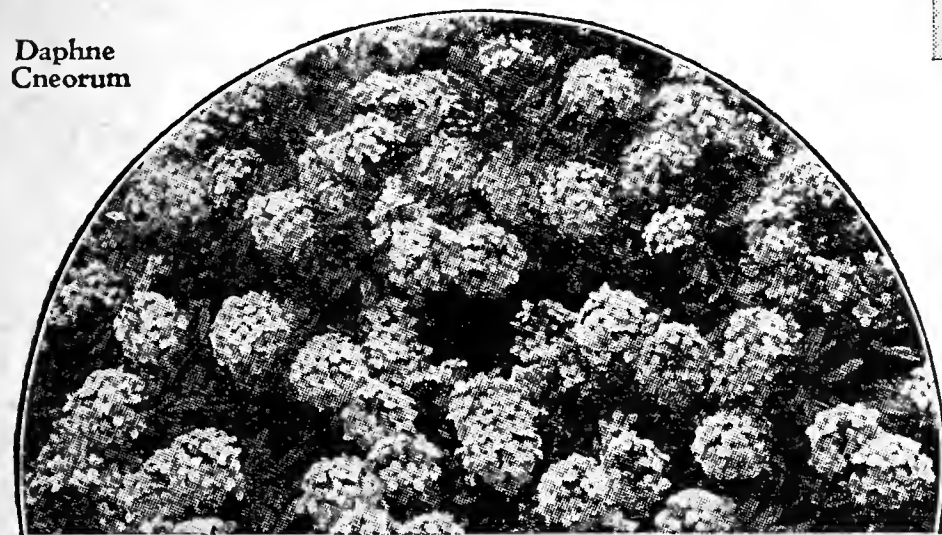

AMERICAN HOLLY—*Ilex Opaca*

An Evergreen tree which has been acclimated to northern states. A moderate grower with spreading, short branches tapering upwards to a narrow head. Broad, oak-like, shiny Evergreen leaves with spiny teeth. Tree is covered with red berries in the fall, which remain on the branches nearly all winter. Strong, 18-24 in. stock, only \$1.00 each; 3 for \$2.50.

American Holly

Daphne
Cneorum

DAPHNE CNEORUM—Garland Flower

Very dwarf shrub, with spreading branches covered with blue-green leaves. Almost evergreen. Each branch stem is tipped with dense cluster of rose-pink, deliciously fragrant flowers, in April and May, and at intervals during the summer. Hardy but should be given a sunny location in northern states. Strong, 8-10 in. bushes, balled and burlapped, at only 95c each; 3 for \$2.50.

BLUE HYDRANGEA

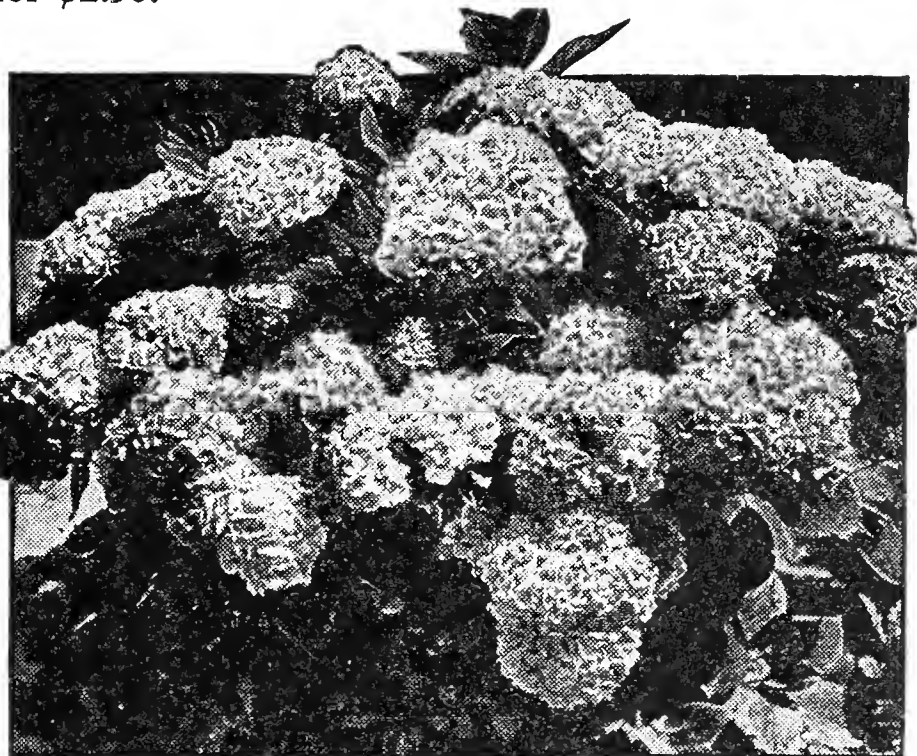

Loveliest Novelty Ever Introduced. Immense blooms of most charming blue color imaginable. Flowers in great profusion. Blooms pink flowers on the one-year stems, followed by blue on the two-year wood. In other words, it is necessary to have the two-year-old wood to have the Blue Hydrangea. Cover in winter to protect from frost. Fine, 8-12 in. bushes, 80c each; 3 for \$2.20.

AZALEA MOLLIS

Strikingly beautiful. A flaming mass of orange, yellow or red bloom during May. The large, 2½-inch flowers appear in bunches at the ends of the shoots. Hardy. Grows about 2 feet high, and does well in both sunny and partially shaded locations. Strong, 12-15 in. bushes, balled and burlapped, only \$1.35 each; 3 for \$3.55.

RHODODENDRONS, Catawbiense

The hardiest of all Rhododendrons, can be successfully grown in northern climates. Is an ornamental shrub that will solve your problem for shady locations as it will grow and do well without much sunlight. In June, every branch has large clusters of rose-purple blooms 4 to 6 inches across. The foliage is the most beautiful of the Rhododendrons, is evergreen all year through. Dug carefully with a ball of tufty soil, it may be successfully transplanted. Guaranteed field-grown. Well-rooted, twice transplanted stock, 8 to 12 inches, 3 canes, only \$1.00 each; 3 for \$2.50.

Page 10

Tree Form Hydrangea P. G.

Beautiful, well developed trees of the true P. G. type that are ready to jump right in and grow. Good roots and plenty of branches. We don't need to tell you where to plant them—they're beautiful anywhere. Very large clusters of white flowers, changing to pink. A bargain at the price we ask. Heavy, 4-5 ft. trees, 80c each; 3 for \$2.20; or \$4.20 for 6.

Hydrangea P. G.
Tree Form

Smoke Tree (Purple Fringe; Rhus Cotinus). UNIQUE,

spreading, treelike shrub with large leaves. Overhung in midsummer by cloudlike masses of mistlike flowers having the appearance of smoke. Foliage changes to a brilliant red and yellow in fall. Good as a single specimen on the lawn, or to mass with tall shrubs. Fine,

2-year, 18-24 in. specimens 50c each; 6 for \$2.65; or \$4.60 per doz.

Bargain No. 3

- 1 Korean Spirea
- 1 Beauty Bush
- 1 Phila. Virginal
- 1 Smoke Tree

\$1.25

Net,
Not Prepaid.

Korean Spirea (Trichocarpa). A handsome new shrub acclaimed the best of all Spireas. Grows 4 to 6 feet tall, and forms a big dome-shaped bush covered in spring with large, rounded clusters of snowy flowers marked with darker eyes. Very hardy. More robust and blooms two weeks later than Spirea Van Houttei, and is far more desirable. Strong, 2-year, 18-24 in. shrubs, 40c each; 3 for \$1.10; or \$3.85 per doz.

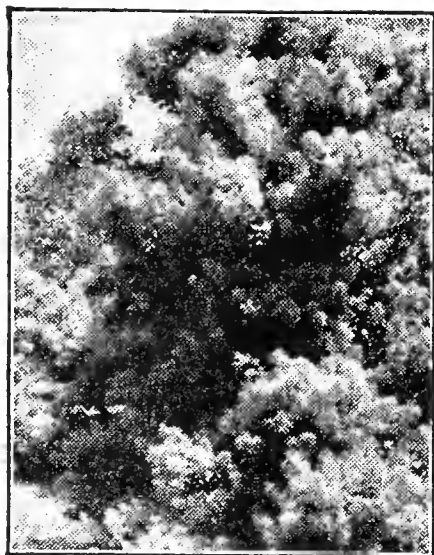

Pink Snowball - New! Perfumed!

(Viburnum Carlesi). Produces delicate, spice-scented flowers in May and June. The buds are an attractive pink, opening into clusters of pure white. The large flowers preserve their form and purity of color an unusually long time. Bush is low growing and of rounded form. Strong, 2-year, 18-24 in. bushes, balled and burlapped, 80c each; or 3 for \$2.20.

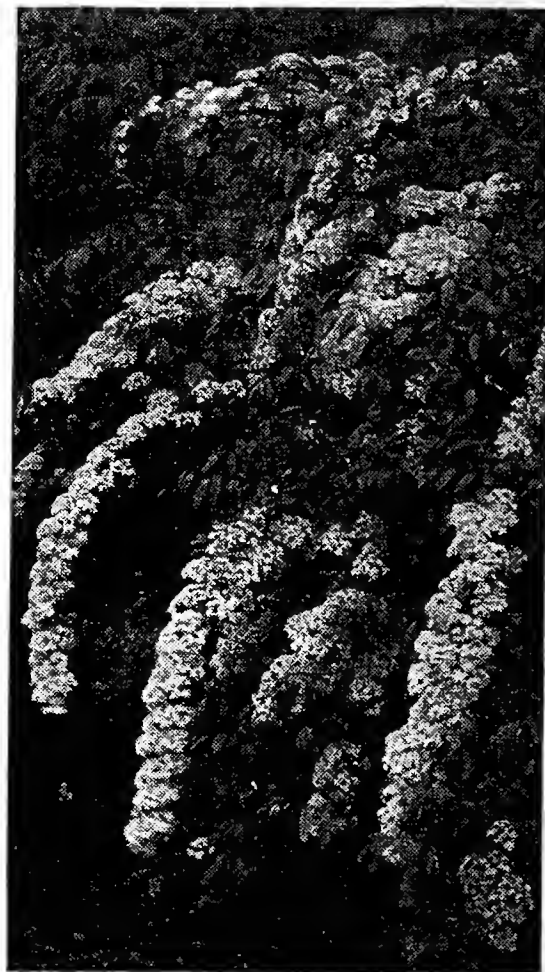

Philadelphus Virginalis Wonderful new Mock orange. The most beautiful white-flowering shrub that has been introduced for many years. Has very large, semi-double blooms, pure white, sweetly scented, appearing in clusters of six or seven. Closely resembles a bride's bouquet of orange blossoms; ranks among the best for cutting. Vigorous, tall grower, used with striking effect as a hedge; also makes fine individual specimens. Heavy, 2-year, 2-3 ft. bushes, 45c each; 3 for \$1.20; or \$4.10 per doz.

Beauty Bush (Kolkwitzia amabilis). Exquisite! New shrub from China. Covered early in May with the utmost profusion of small, bell-shaped, clear pink flowers with brownish spots and veins. The tiny rose-colored buds are fascinatingly hooded with fuzzy jackets which remain to decorate the seed pods. Graceful the year 'round, and perfectly hardy.

Strong, 2-yr., 15-18 in. bushes, 45c each; 3 for \$1.20; or \$4.10 per doz.

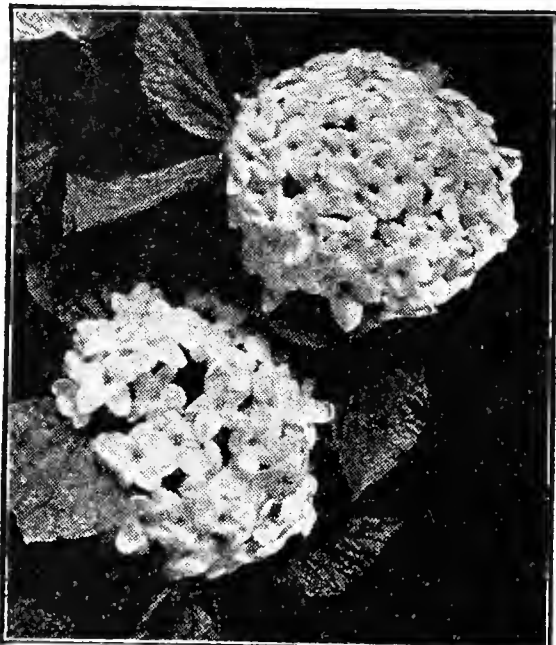

Smoke Tree

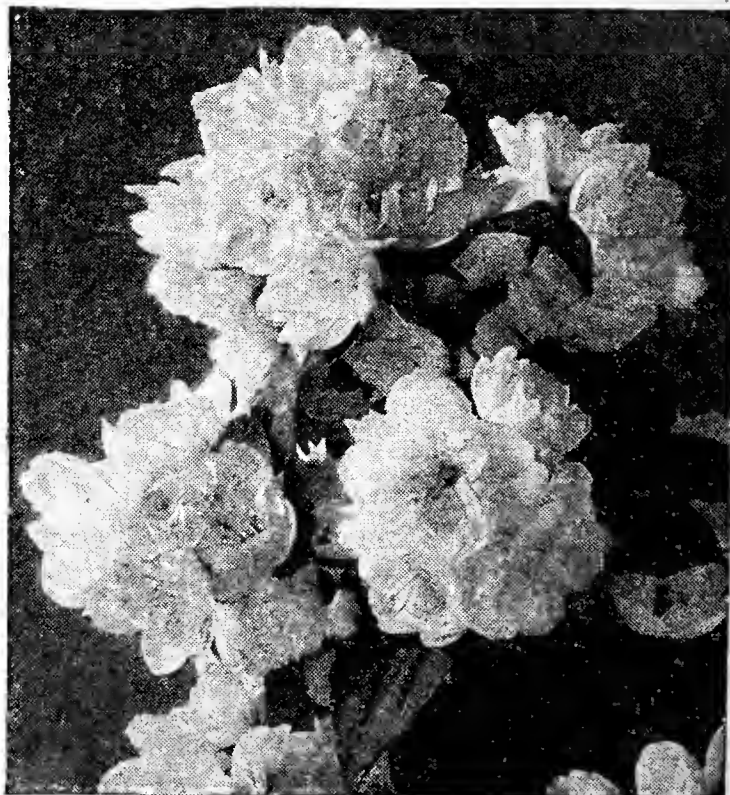

Korean Spirea

Beauty Bush

Pink Snowball.

Philadelphus Virginalis.

COLORFUL Flowering Shrubs Each a Beauty

Yellow Ninebark Golden Spirea

This is a very vigorous Spirea. Striking white blooms. The leaves of this variety are a golden yellow. After the flowering season is over, the flowers are followed with orange-colored pea pods. Strong, 2-yr., 18-24 in. shrubs, 30c each; 3 for 75c; or \$2.50 per doz.

Blue Spirea (*Caryopteris mastacanthus*). The perennial shrub with aromatic leaves. Its habits are similar to the Butterfly Bush; that is, the tops die down to the ground every year but the roots are perennial. It grows upright and has a globose, very compact habit of growth. It rarely grows more than 2 feet in height. Beginning in September, it is completely covered with clear blue flowers until frost—a very rare color in flowers at that time of the year. It is extremely showy. Splendid as a fall cut flower. Strong plants, 40c each; 3 for \$1.00.

Chaste Tree (*Vitex macrophylla*)

Lovely lavender-blue flowers—A color rather rare in hardy shrubs. Blooms from July till frost. Succeeds anywhere; grows 6 feet tall. Heavy, 2-yr. old specimens, 2-3 ft. high, 95c each; 3 for \$2.50.

Ile de France New! Purple Buddleia.

Rich purple color. Tall flower spikes, often a foot tall. This variety greatly surpasses all other Buddleias for brilliance of color, grace of flower-spikes, and uniform habit of growth. Blooms from August to late fall. 2-yr., strong bushes, 40c each; 3 for \$1.00.

French Lilacs Until you have seen these new Lilacs you cannot realize how beautiful they are. They are perfectly hardy. They commence blooming very young, generally the next year after planting. We offer them in the four best varieties, as follows:

Michel Buchner. (Double). Exquisite pink-lilac buds, merge into blue when open.

Charles X. (Single). Fine cluster of lilac flowers, slightly violet.

Jan Van Tol. (Double). Pure white. Very large trusses and a very good grower.

Pres. Grevy. (Double). Large trusses of blue flowers. A great favorite. Strong, 2-yr. bushes, 40c each; 3 for \$1.00.

Oak - Leaf Hydrangea

(*Hydrangea quercifolia*). Handsome 3-lobed leaves measuring 4 inches across, color to bright purplish red in autumn and remain until winter. Pyramidal white flower panicles measure 8 to 12 inches long. Blooms July. Grows 4 to 5 feet. Strong, 18-24 inch bushes, 40c each; 3 for \$1.00.

Purple Lilac

Weigela Rosea

White Snowberry

Field Grown Shrubs

ALL STRONG 2 TO 3 YEAR OLD WELL ROOTED

Althea (Rose of Sharon). Beautiful treelike shrub, blooming late in August and September with a profusion of large and brightly colored flowers. Grows 10 to 12 feet high. Attractive as a specimen or for hedges. Your choice of white purple, red or pink. All double flowering.

SPECIAL. Mixed colors Althea, 2-year, strong bushes. 15c each; 6 for 85c; 12 for \$1.65; or \$12.00 for 100.

Buddleia, Bridal Bouquet Very hardy. Has both hardy tops and roots. It is a three point beauty, having beautiful foliage, flowers and form. Beautiful lavender flowers appear in profuse clusters, with leaves appearing alternately, all along the slender, graceful drooping stems. REMEMBER—it does not die down during the winter like other Buddleias.

Deutzia, Pride of Rochester Large, white flowers tinged with rose. Profuse bloomer. Very hardy. Grows 6 to 8 feet tall, useful for specimens or background.

Purple Lilac It is hard to outclass this old-fashioned purple Lilac. Early prolific bloomer, very fragrant. Very fast grower.

Forsythia Intermedia Earliest blooming. Lights up the garden with masses of yellow flowers, often before the snow is gone. Tall grower.

Mock Orange (Philadelphus Coronarius). Tall, hardy and vigorous. Blooms in May, in graceful sprays of large, white, fragrant flowers. Grows 8 to 10 ft. tall.

Weigela Rosea Beautiful pink, trumpet-shaped flowers May to July. Grows 5 to 6 feet tall. A good shrub; good flowers, good foliage, easy to grow.

Red Snowberry (Symphoricarpos vulgaris). Often called Coralberry or Indian Currant. Similar to White Snowberry but with red berries.

White Snowberry (Symphoricarpos racemosus). A desirable shrub with small, pink flowers, followed by large, white, waxlike berries, which hang on the plant through most of the winter. Is very showy and succeeds everywhere. Does well in shade. Grows 3 to 4 feet tall.

Honeysuckle Tartarian Pink

Bright pink flowers, followed by red berries in the fall. Bushy, upright. Grows 8 to 10 feet high.

Hartwegi

High Bush Cranberry (*Viburnum Opulus*). Magnificent shrub, of upright, spreading form, with smooth, light gray branches and broad, oval, 3-lobed, bright green leaves. Produces small, white flowers which are borne in broad, flat clusters surrounded by a ring of large, sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter. Grows 8 to 10 feet tall.

Dogwood (*Redtwig*). One of the best native shrubs; free flowering; very handsome when in bloom, and with its white berries on red stems in the fall. Grows compactly, 6 to 10 feet in height.

Tamarix Africana Tall shrub, 8 to 10 feet high, with fine feathery foliage and small, bright pink flowers, in slender racemes in April and May. Splendid for planting in damp or other places.

Golden Elder (*Sambucus nigra aurea*). A variety with golden yellow foliage and large, flat clusters of white flowers. Contrasts beautifully when planted with green-leaved shrubs. Grows 6 to 8 feet high, but should be pruned back severely each spring to secure denser and bright foliage.

Hypericum Aureum (*Golden St. Johnswort*). A showy shrub of stiff, dense habit; foliage bluish; flowers, golden yellow, from August to October. Prefers moist soil.

Japan Quince (*Burning Bush*). Very early in the spring this fine, attractive shrub is completely covered with dazzling scarlet flowers, followed by small, fragrant, quince-shaped fruits. Foliage is dark, glossy green. Very desirable for single specimens, also hedges.

Snowball Well known favorite. Lovely white flowers, which appear in numerous, compact balls. Valuable for specimen plants and also for grouping and massing.

Rose-Acacia (*Moss Locust*). Elegant shrub, with light green pinnate leaves, and long, graceful clusters of pea-shaped, rose-colored flowers in June and often later. An attractive addition to any planting.

Spirea Van Houttei The flowers are pure white, and borne in dense clusters along the whole length of the branches. Excellent as a hedge plant or for grouping. Well branched, 2-year, 18-24 in. bushes, 14c each; 6 for 65c; 12 for \$1.15; or 50 for \$4.25. Heavy, 2-3 ft. bushes, at 20c each; 6 for \$1.00; 12 for \$1.85; or 50 for \$5.50. Extra large, 3-year, 3-4 ft. bushes, 25c each; 6 for \$1.25; 12 for \$2.15; or 50 for \$8.00.

Buddleia Hartwegi New! The finest of all the summer flowering Buddleias. As a summer cut flower plant and as an ornamental lawn shrub, it is unsurpassed in beauty and usefulness. The flowers do not sunburn as do other Davidi varieties, and the tip flowers before the basal flowers have faded. Deep lavender coloring, extra long spikes. The foliage is very heavy and rich dark green. Does not winter-kill. Similar to New Fortune. Strong bushes, 75c each; 3 for \$2.00.

Flowering Almond, Pink Early spring-flowering shrub, usually in full bloom before leaves appear. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping or for lawn. Flowers are very showy, and produced in great abundance.

Spirea Anthony Waterer

A dwarf variety, growing 15 to 20 inches high, covered with large heads of crimson flowers. Foliage is very handsome, being variegated with creamy white or yellow. If flowers are removed as they fade, it will cause the plant to keep up a continuous bloom until freezing weather occurs.

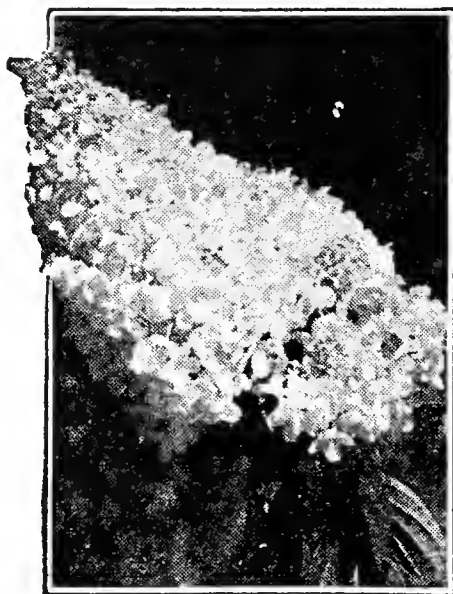

Hydrangea A. G.

Hydrangea P. G.

Use this variety for showy bloom and elegant effect. This lovely, showy shrub produces in abundance during August and September, clusters of white flowers which gradually change to pink. Valuable for winter decorations if flowers are allowed to dry on bush. Useful for foundation planting or for massing in borders. Hardy, easy to grow and blooms the first season planted.

Hydrangea A. G. (Hills of Snow). Large, flat clusters of white blooms from June to September. The most hardy of the Hydrangeas, and especially useful for shady places. Excellent for solid low borders or in foundation planting. Very popular shrub.

Hydrangea P. G.

No planting is complete without Hydrangeas. They are unsurpassed for showy bloom and elegant effect.

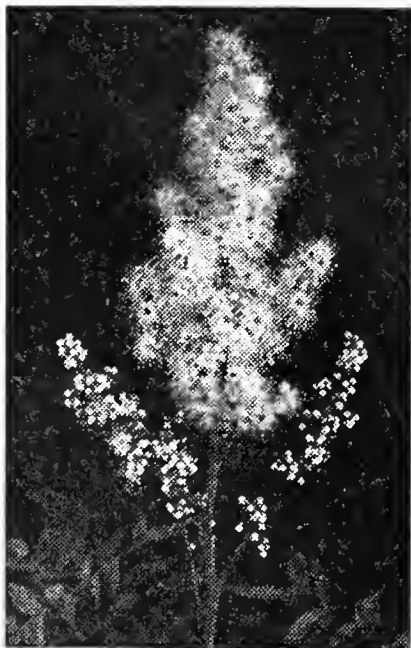

Spirea Anthony Waterer

Spirea Richmensis

Handsome, new, pink Spirea that you will want to include in your plantings. Broad, spreading bush with graceful foliage, covered with the large, bright pink, fluffy panicle flowers, over a long period of time. 4 to 5 feet at maturity.

Spirea Sorbifolia (Ash-Leaf Spirea). Leaves like the largest ferns; grayish colored bark; long feathery panicles of beautiful glistening white flowers, coming in June or July. Grows 4 to 5 feet tall, and is exceptionally hardy.

—Any Shrub on this Page

Weigela Floribunda

A beautiful, comparatively new shrub, with large, showy red flowers appearing in profuse clusters and almost hiding the glossy green leaves. Commences blooming early in spring, and continues all summer. This attractive shrub should be in every border planting.

Weigela Floribunda

Weigela, Variegated

Sprays of rosy pink flowers like Floribunda except they are deep pink. Leaves are beautifully variegated green and white.

Grows only 2 to 3 feet high. Very beautiful.

Variegated Weigela

Russian Olive

Rugged, tree-like shrub, growing 10 to 12 feet high. Foliage is a beautiful, silvery gray, contrasting sharply with other shrubs. Flowers are deep golden and very fragrant, followed by ornamental yellowish brown fruits with silver scales.

Russian Olive

Siberian Pea Shrub

Tall shrub, 10 to 12 feet high, with bright green, compound leaves and many small clusters of yellow flowers in May and June. Useful for group or background planting. Hardest and best hedge shrub for the Northwest.

Deutzia Crenata

Siberian Pea Shrub

Lilac, Persian Purple

A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so much from the roots. We consider the Persian much preferable. Extra fine, heavy bushes.

Deutzia Crenata

Here is a Deutzia that is different, and one which should be included in every planting. Beautiful, double pink flowers thickly stud the graceful, upright branches in May. 3 to 5 feet.

WHITTEN-ACKERMAN

All 2- and 3-year-old, strong and vigorous, well-branched and well-rooted. We offer no small, spindly whips.

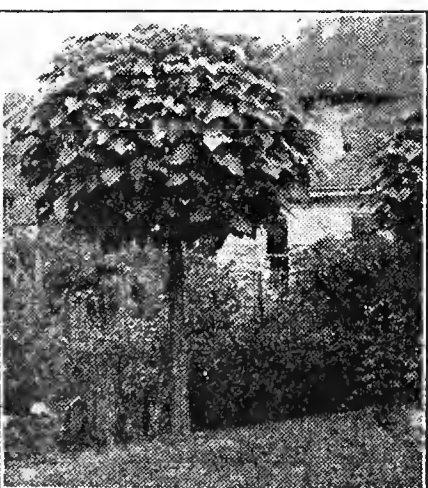

Ama-No-Gawa Jap. Flowering Cherry

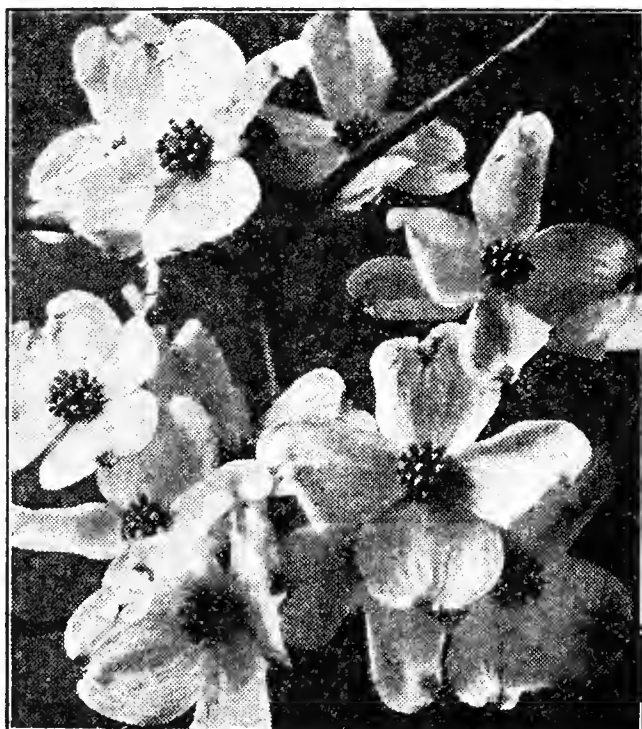

Cut-Leaf Sumac

Prunus Triloba

Catalpa Bungei

Cornus Florida Rubra

Kwanzan Japanese Flowering Cherry

Cornus Florida (White Flowering Dogwood). White flowers, before leaves appear. Grayish green foliage, turning red in fall. Tall grower. Strong, 2-year, 2-3 ft. trees, only 55c each; 3 for \$1.50; or 10 for \$4.40.

Cut-Leaf Sumac (Rhus typhina laciniata). Small growing tree, with deeply cleft leaves, which turn dazzling red in fall. Late June flowering, followed by red fruit until fall. Strong, 2-year, 18-24 in. stock, 35c each; 3 for 90c; or 10 for \$2.45.

Prunus Triloba (Double - Flowered Plum). The Rose Tree of China. This small growing tree is covered with double pink blossoms, early in the spring, before the leaves appear. Seldom attains a height of more than 8 feet. Strong, 2-year, 2-3 ft. trees, 50c each; 3 for \$1.35; or 10 for \$4.00.

Prunus Pissardi (Purple - Leaved Plum). Has almost black bark, with striking pinkish purple leaves in spring that deepen in color as season advances. Has single white flowers. Strong, 2-year, 2-3 ft. trees, 45c each; 3 for \$1.15; or 10 for \$3.25.

Catalpa Bungei (Umbrella Catalpa). Small tree with shapely, round head. Large heart-shaped leaves. Strong, 5-ft. trees, with 2-year heads, only \$1.00 each; 3 for \$2.75; or 10 for \$8.75.

Cornus Florida Rubra (Red Flowering Dogwood). Covered in early spring with masses of large, rose-red blossoms. Red berries in fall. Slow growing. Strong, 2-year, 2-3 ft. trees, \$1.35 each; 3 for \$3.85; or 10 for \$11.55.

Kwanzan Japanese Flowering Cherry (Sacred Gate). Flowers are very full and double, deep pink or old rose, varying in tone according to weather conditions. Vigorous, 2-year, 3-4 ft. trees, only \$1.00 each; 3 for \$2.75; or \$8.75 for 10.

Yoshino Japanese Flowering Cherry The loveliest of all kinds, is found blooming along the Tidal Basin at Washington. Buds are red, flowers single, blush pink fading to white with reddish center. Fine 2-year, 3-4 ft. trees, \$1.00 each; 3 for \$2.75; or \$8.75 for 10.

Japanese Weeping Cherry Large, rose-pink double blooms in large clusters. Grows 10 to 15 ft. in height. Very sweet scented. Drooping branches. Strong, 2-year, 4-5 ft. trees, \$2.20 each; 3 for \$6.00.

Ama-No-Gawa Flowering Cherry Here is the new flowering Cherry that is different in form. Instead of being spreading in shape like other flowering cherries, it has an upright, compact form similar to that of Lombardy Poplar. The flowers are just a faint, beautiful pink, and are borne in gorgeous and beautiful clusters, giving masses of wonderful color. Fine, 2-year, 3-4 ft. trees, \$1.00 each; 3 for \$2.50.

FREE! 1 May Day Tree

Moss Locust (Tree Form Rose-Acacia). The same as shrub Rose-Acacia (see page 9), with exception that this variety is grafted on stems 2 to 3 feet tall. Very hardy. Strong trees, with 2-yr. heads, \$1.10 each; 3 for \$2.85.

Richards' Golden Poplar

Here is the variety that is just the thing you have been looking for in order to make a splash of color in the landscape, for its picturesque habit of growth makes it very striking in appearance. This is a shrublike tree with foliage that is shaped like Hard Maple, but is soft in texture and yellow in color. Vigorous, 4-5 ft. trees, 75c each; 2 for \$1.25.

May Day This beautiful lawn tree which comes from Siberia, is one of the first to show green in the spring. The flowers are large, pure white and very fragrant, and appear in April or early May. Their mass-like clusters are well adapted to cutting. The flowers are followed by fruit, which is small and though edible and make good jelly, are soon claimed by the birds. May Day may be trimmed up for a lawn shade tree or left in bush form. Very hardy. Fine, 9-12 in. stock, 30c each; 3 for 75c; or 6 for \$1.25.

Cut-Leaf Weeping Birch A tall, slender tree of vigorous growth, with graceful drooping branches, silvery white bark and delicately cut foliage. Strong, 2-year, 4-5 ft. trees, \$1.20 each; 3 for \$3.30; or \$10.00 for 10.

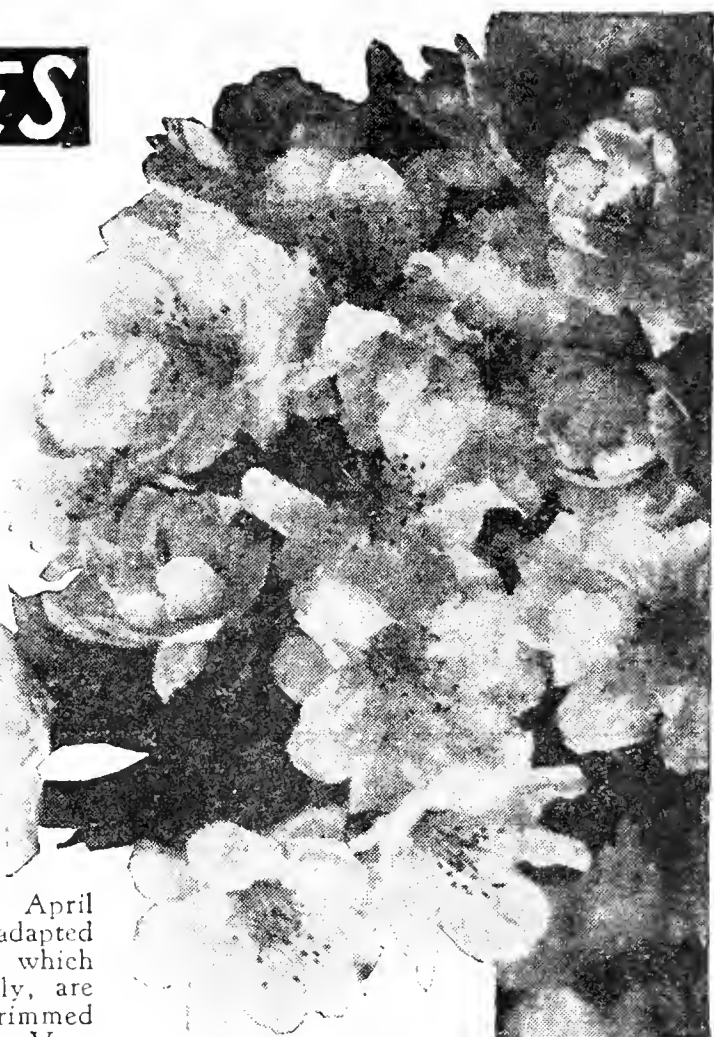

Paul's Double Scarlet Thorn Very hardy tree with attractive deep cut leaves; in May-June it is covered with double, scarlet-red flowers, followed by showy red berries. Low growing. Strong, 2-yr., 4-5 ft. trees, \$1.20 each; 3 for \$3.30; or \$10.00 for 10.

Japanese Red-Leaved Maple Hardy, dwarf growing tree, seldom maturing over 10 feet. Their indented leaves are vivid blood-red in summer, which dulls to bronzy purple-red or bronze-green toward fall. Fine trees, 2-yr., grafted, 15 to 18 in., balled and burlapped for best results, at only \$2.15 each; 3 for \$6.00.

Judas Tree (Redbud). Beautiful bright pink blossoms in early spring before leaves appear. Medium size tree with large, irregular head and heart-shaped leaves. Strong, 2-year, 3-4 ft. trees, 45c each; 3 for \$1.15; or 10 for \$3.25.

Bechtel's Double Flowering Crab

A Rose in Disguise! A wonderful, low, bushy tree which blooms when quite young. Words fail to describe its surpassing beauty when in bloom. At a distance the tree seems covered with dainty roses of delicate pink color. Very fragrant. Especially desirable for lawns and for use in the small yard. Strong, 2-year, 2-3 ft. trees, 55c each; 3 for \$1.50; \$4.40 for 10.

Ornamental Trees

Cont'd

Silver Maple

Silver Maple (*Acer dasycarpum*). Very hardy, rapid growing native tree, valuable for producing quick shade. Good sized, rather deeply and irregularly indented leaves, which turn yellow and bronze in the fall. Trees well rooted, well branched, straight trunks; all fine, sturdy specimens. Prices: 2-yr., 5-6 ft., 35c each; 3 for 90c; 10 for \$2.75. 2-yr., 6-8 ft., 55c each; 3 for \$1.50; 10 for \$4.40. 3-yr., 8-10 ft., 80c each; 3 for \$2.30; 10 for \$7.15.

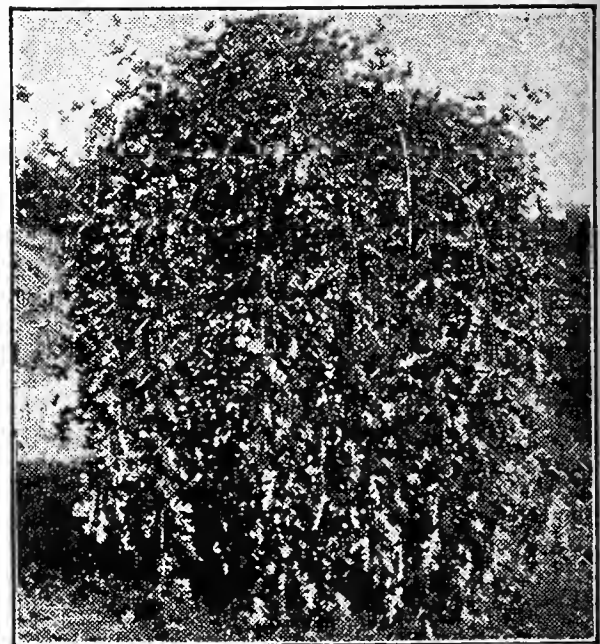

Magnolia Tripetala

Poplar, Lombardy A tall tapering tree, rapid grower, attaining a height of 60 feet in a short time. Leaves dark green, with silvery surface below. Prices: 2-year, 4-5 ft. trees, 35c each; 3 for 90c; 10 for \$2.50. 2-yr., 6-8 ft. trees, 50c each; 3 for \$1.35; 10 for \$4.10. 3-year, 8-10 ft. trees, 80c each; 3 for \$2.20; 10 for \$7.15.

Magnolia Tripetala Attains a height of 30 to 40 feet; has immense leaves, usually 12 to 24 inches long, and from 7 to 10 inches wide. Leaves grow in clusters about the large white flowers and rose colored fruit cones. Fine, 3-4 ft. trees, \$1.10 each; 3 for \$2.75; 10 for \$8.25.

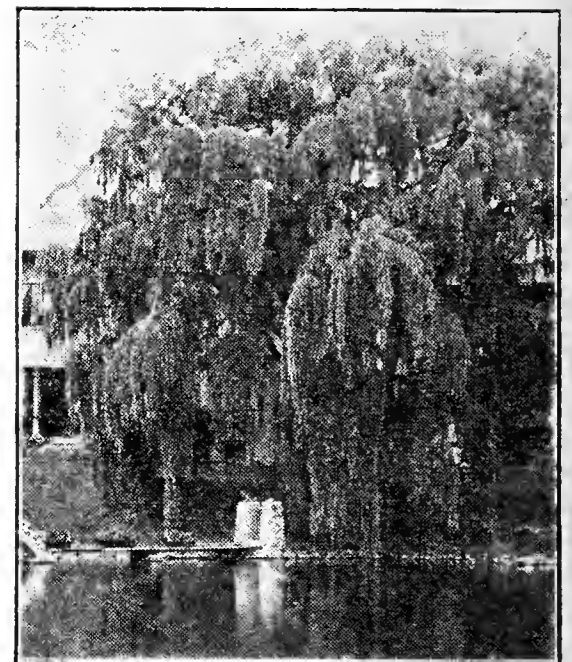

Teas' Weeping Mulberry Tree is hardy, weeping and graceful. Forms a perfect shaped head, with long, slender branches which droop to the ground. Useful in cemetery plantings, and well adapted for small grounds or specimens. We offer well developed trees, with straight stems, at an unusually attractive price. 2-year, 5-6 ft. trees, \$1.20 each; 3 for \$3.30; or 10 for \$10.00.

Teas' Weeping Mulberry

Wisconsin Weeping Willow A graceful tree of large size. Its fresh, bright green tint, and long, wavy branches make it very attractive. This is the most generally planted variety, and makes immense broad-topped specimens. Long, fine leaves on slender branches. Grows rapidly. Strong, 2-year, 4-5 ft. trees, 75c each; 3 for \$2.15; 10 for \$6.50.

European Mountain Ash (*Sorbus aucuparia*). A hardy, medium size, smooth barked tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Reaches a height of 25 to 30 feet when matured. A most beautiful and attractive tree. Strong, 2-yr., 5-6 ft. trees, \$1.00 each; 3 for \$2.75; 10 for \$8.75.

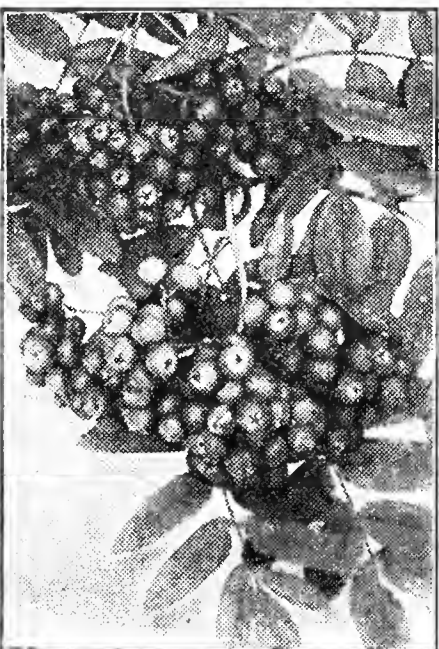

Wisconsin Weeping Willow

Chinese Elm (*Ulmus pumila*). Very rapid grower. Will give ample shade in only 5 or 6 years from planting. Has dense, dark green foliage; is the first shade tree to leaf out in the spring, and the last to shed its leaves in the fall. Resists drought and cold, and succeeds in all parts of the United States. Does well in all soils, except on low, wet ground. Prices: 2-yr., 3-4 ft. trees, 35c each; 3 for 90c; 10 for \$2.55. 2-yr., 6-8 ft. trees, 65c each; 3 for \$1.75; 10 for \$5.50. 3-yr., 8-10 ft., \$1.10 each; 3 for \$2.75; or 10 for \$8.25.

HEDGE PLANTS

Red-Leaved Japanese Barberry

The greatest really worth while, and most outstanding novelty of a lifetime. Excepting color of foliage, it is similar in all respects to the green-leaved Japanese Barberry, so popular for hedgings, shrubbery borders, group plantings, or as single specimens on the lawn. Its foliage, however, as it develops in early spring, assumes a deep, bronzy red color, similar to the richest red-leaved Japanese Maple, which it retains until fall, when it changes to vivid orange, scarlet and red shades, far more brilliant than the ordinary Japanese Barberry. This unrivaled coloring is followed by the same scarlet berries common to the type, which remain on the plant throughout the entire winter.

Red-Leaved Barberry

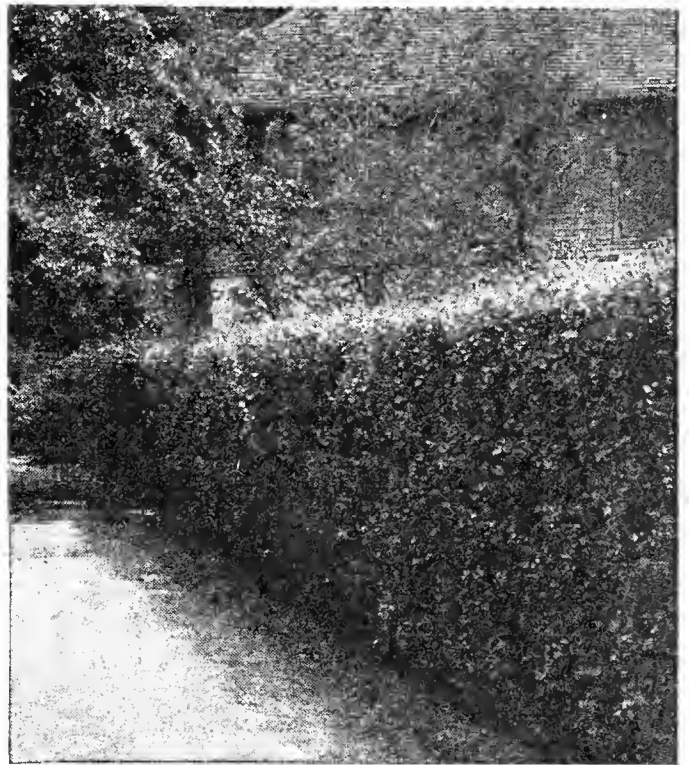

Russian Mulberry Hardy in all states—never winter-kills. Superior to other kinds, as it makes a dense hedge from the ground up. Unlike most other hedging varieties as to growth and shape of leaves; very attractive foliage, making an outstanding and beautiful hedge, altogether different than old common varieties. Cannot be surpassed for tall hedges to hide unsightly views, or can be pruned to any height desired. Be the first in your locality to get started with this outstanding hedge. NOTE ACTUAL PHOTO.

Amoor River North Privet One of the best hedge plants because of its extreme hardiness. It is of similar form and habit to the well known California type, but much hardier. Of fine, upright growth with lustrous dark green foliage, nearly evergreen. Grows quickly, making a hedge the first year, and succeeds in practically all soils. Especially valuable for hedges and borders in cold exposed locations. When planting, cut back to 4 inches above ground to make hedge bushy at bottom.

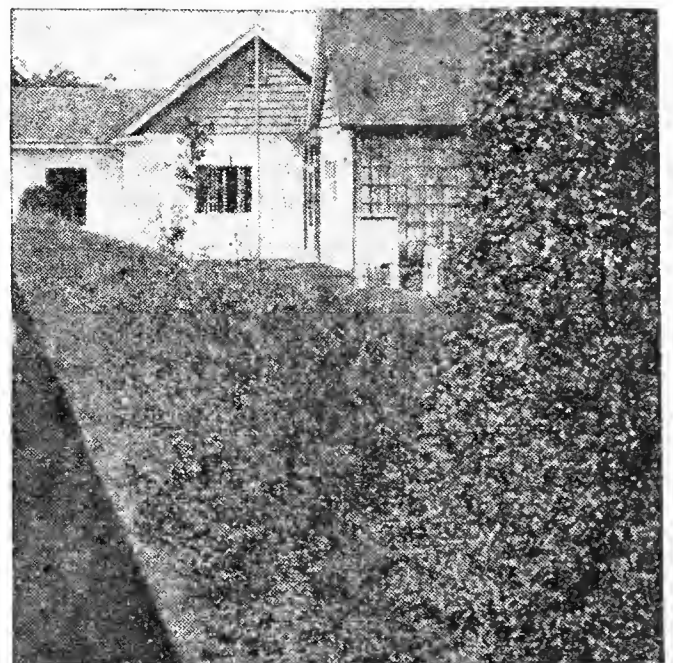

Chinese Elm Hedge Chinese Elm makes one of the finest of hedges. Especially desirable for states of light rainfall and where extreme hardiness is required. The hedge, limbs clear to the ground, is a bright rich green from very early in the spring, as it is much earlier than other hedges and carries its foliage, which colors with frost, way into the fall. Trim same as Privet or other similar hedges.

California Privet One of the finest all-purpose hedges. A pretty shrub with smooth, shining leaves of unusual beauty. Thrives in almost any soil. Equally pretty for shrubs and in group plantings. Shears splendidly to any shape or form. Sometimes subject to winter injury in the coldest climates.

Japanese Barberry (*Berberis Thunbergi*). Immune from rust. Dwarf growing, uniformly bushy and rounded in form, numerous leaves covering thorny twigs. As a filler, edging for shrubbery, as foundation screen in front of porches, as a hardy, low hedge, it is unsurpassed. Foliage bright, rich green, turning to a blaze of gold and crimson in autumn. Small, creamy white flowers, followed by oval, red berries, which gleam along every branch in late fall, and far into winter.

Mugho Pine

Evergreens

Big Size and Baby Size

Our Big Size Evergreens are large enough for immediate effect. Their roots are carefully balled in damp moss or peat, to cut down on weight, and then wrapped in burlap. This insures safe transplanting. Each will weigh from 10 to 15 pounds, and can be shipped by parcel post or express.

Mugho Pine Genuine true dwarf type. Growth is dense and plants are thickly covered with heavy, dark green needles. Never grows over 4 to 5 feet tall, but spreads out 6 or more feet in diameter when full grown. **Balled in moss and burlapped, 15 x 18 inch trees, XXX, \$1.90 each; 3 for \$4.95. Baby size, 9 to 12 in., 40c each; 2 for 65c.**

Irish Juniper Erect and slender, formal and columnar in form. Very compact, deep green foliage. When matured, this tree reaches a height of 6 to 7 feet, but it is never over 1½ feet in diameter. Popular for cemetery plantings as well as for landscaping home grounds. **Balled in moss and burlapped, 18-24 inch trees, XX, \$1.25 each; 3 for \$3.30. Baby size, 8 to 12 in., 35c each; 2 for 60c.**

Colorado Blue Spruce Most popular and showy of all Spruces. Glistening silver foliage. Very hardy, good grower, withstands severe winters and excessive moisture, and is very easily transplanted. When dormant the tree acquires a somewhat greenish cast, but as soon as the new growth makes its appearance, clothing it in a deeper cast of blue, the full beauty of this glorious tree can be appreciated to the utmost. **Balled in moss and burlapped, 18 to 24 in., XXX, selected specimens, only \$2.75 each; 3 for \$7.15. 2 to 3 ft. XXX, \$3.85 each; 3 for \$10.00. Baby size, 8 to 12 in., 35c each; 2 for 60c.**

Norway Spruce Fine for windbreaks and hedges; equally good for groups or specimens. Tall, rapid grower. Most popular for Christmas trees. **Selected specimens, 4 to 5 ft. tall, balled in moss, only \$1.15 each; 3 for \$2.75. Baby size, 10 to 12 in., 25c each; 2 for 45c.**

Pyramidal Arbor-Vitae Densely columnar type, compact and erect. Foliage is deep green. Height matured, 12 to 15 feet. Most popular pyramidal tree on the market. **Balled in moss and burlapped, 24- to 30-in. trees, XX, \$1.55 each; 3 for \$3.85. Baby size, 8 to 10 in., 35c each; 2 for 60c.**

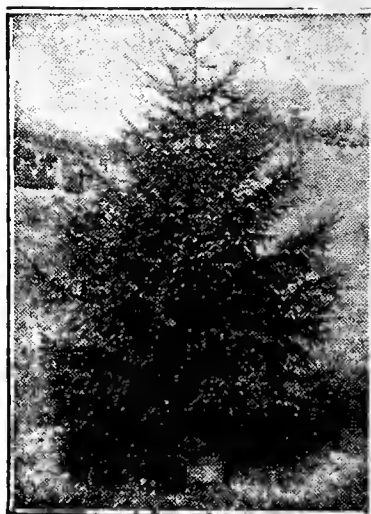

Woodward Arbor-Vitae This splendid globe Arbor-Vitae is rapidly becoming one of the most popular varieties. This is due to the fact that it maintains itself well under all conditions, and keeps the globe habit without trimming. Seldom attains a height of more than 3 feet. Foliage is dense, and of deep sea green shade. **Balled in moss and burlapped, 12x15 in. specimens, XX, \$1.25 each; 3 for \$3.00. Baby size, 6 inch diameter, 35c each; 2 for 60c.**

Pfitzer's Juniper Extremely popular. Thrives anywhere. One of the few Evergreens that will withstand considerable shade. Color is deep green, with a grayish cast. Should be in every Evergreen planting. **Balled in moss and burlapped, 15 to 18 in., XX, only \$1.75 each; 3 for \$4.50. Baby size, 6 to 10 in., 40c each; 2 for 65c.**

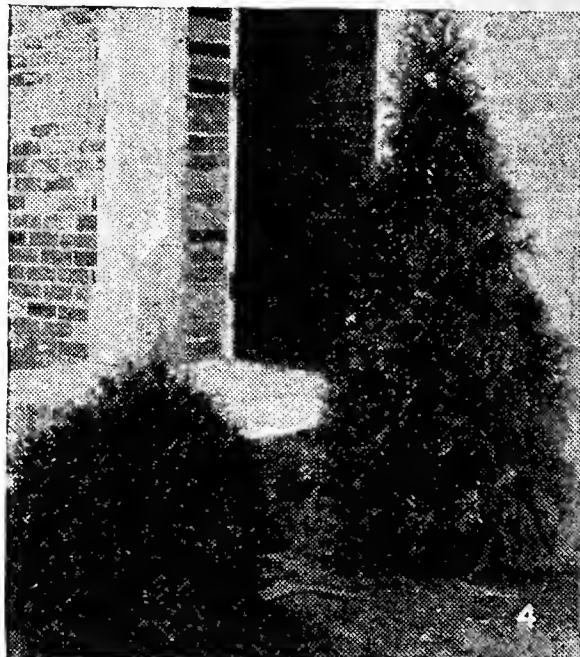

Concolor Fir Blue tinged, showiest of all Firs. One of the most attractive evergreens in winter. Retains its lower branches, has no insect enemies, and is the best Fir tree to withstand heat and drought. Its large, flat leaves, thickly disposed on the branches, are very noticeable, giving it a dignified appearance. No evergreen planting is complete without Concolor Fir. **Balled in moss and burlapped, 18-24 in. trees, XXX, only \$3.00 each; 3 for \$8.00. Baby size, 6-8 in., 40c each; 2 for 75c.**

Your Choice of Varieties Listed

The NEWER Evergreens

Moerheim's Blue Spruce The Finest Blue Spruce. Much bluer than either Koster's or Colorado Blue Spruce. Grows straight and shapely. Originated in Holland, and so much superior to other kinds that the U. S. Government allowed the stock to come into the country for propagating purposes. You'll surely want this excellent Spruce in your evergreen planting, so order early, for our stock is limited. Price, balled in moss and burlapped, 15-18 in., XXX, selected specimens, only \$3.55 each; 3 for \$9.75. No baby size in this variety.

Silver Cedar (*Juniperus Virginiana Glauca*). The glaucous blue color, especially attractive during the spring growing season, but of striking blue color at all seasons, offers a very desirable color contrast in landscape work. The growth is rapid, the long, slender branchlets producing a graceful effect. A little pruning induces a compact, formal shape, while some planters prefer the open growth and more irregular outline of the untrimmed tree. 15 to 20 feet at maturity. Balled in moss and burlapped, 18-24 in., XXX trees, only \$1.65 each; 3 for \$4.50. No baby size in this variety.

Meyer Juniper (*Juniperus Squamata Meyer*). Here is a new evergreen that draws your attention immediately—some of them fan-like, others more upright. The thick, handsome foliage, pointed and prickly, has a rich, shining blue color, with often a tinge of purple in the sunlight or rays of green and silver—a beautiful study in color harmony. In borders or foundation groups it gives superb contrast. 2 to 4 feet at maturity. Balled in moss and burlapped, 12-15 inch, XXX, specimens, \$1.65 each; 3 for \$4.50. No baby size in this variety.

Gold-Tipped Arbor-Vitae (*Thuja orientalis elegantissima*). This is the tree that will add variety to the planting. A broad pyramidal golden tree, formal in shape, reaching a height of 8 to 10 feet. Hardy. Balled in moss and burlapped, 18-24 inch, XX, \$1.65 each, 3 for \$4.50. No baby size in this variety.

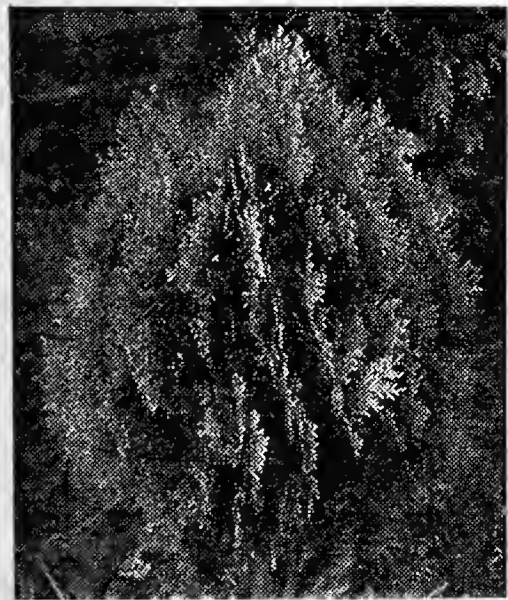

Silver Cedar

Meyer Juniper

Biota Aurea Nana A very compact slow-growing dwarf type valuable for foreground and edging. The flattened leaf-clusters face outward edgewise, presenting a beautiful surface of vertical fluted lines. Color is a fresh yellow-green, striking in appearance. Balled in moss and burlapped, 12 x 15 inch specimens, only \$1.40; 3 for \$3.50. No baby size in this variety.

Is Your Garden Going to the Dogs—Your Neighbors' Dogs?

Get Along, Little Doggie,
Get Along!

"DOGZOFF"

USE "DOGZOFF." Do you know that dogs mean death to evergreens? So we suggest you use this spray around the base of your trees. Also protects your shrubs and young trees. It's not poisonous (even to dogs) and not offensive to humans. One spraying will last from 3 to 4 weeks. Also keeps away rabbits, cats, mice, and moles from any place where they're not wanted.

"Dogzoff" is applied with any small insect sprayer, and one application usually does the work.

PRICE FOR SEASON'S SUPPLY **60c** Post-paid

LARGE EVERGREENS CAN NOW BE SHIPPED BY PARCEL POST.

The *NEWER* and All Hybrid Teas

Will bloom continuously this summer and every year following. Everyone loves Roses. At our low prices you can plant all you want. Remember, our Roses are strong, two-year, field-grown bushes, ready to bloom.

GROUP "A"

Prices

Schwabenland New pink Rose unlike any other in color or in the splendid formation of its buds. Flowers are over 5 inches in diameter, with a high, spiral center, and peculiarly curled petals. Luminous rose-pink in color, carried on long, stiff stems.

Talisman The most sensational rose of all times. Its brilliant orange-red buds open to large, fragrant, high-pointed bloom of glowing golden yellow stained with copper-red and orange-rose on inside of petals. As the petals unfold, they become bright apricot-gold, deep rose-pink or old rose, and unlike most Roses, the color becomes brighter as the flowers develop. Plants are vigorous, healthy and hardy growers.

Ami Quinard A variety which is here to stay, beats all others; best near-black Rose in our estimation. Deep velvety crimson, fragrant and very lasting. A vigorous shrubby plant, with almost single flowers of deep blackish scarlet. We know a trial order of Ami Quinard is sure to please.

Shot Silk Brilliantly colored, orange-cerise suffused with gold, very fragrant medium-sized flowers.

Etoile de Feu Flame color. The globular buds of glowing flame open to blooms of coral-pink and glowing reddish salmon, which are full and very large; especially fine in hot sunshine. Its foliage is rich, glossy, dark green and more resistant to disease than most others in its class. An abundant bloomer throughout the season.

GROUP "B"

Prices

Pres. Herbert Hoover

Multi-colored. One of the best garden Roses. The tall, healthy plants produce large flowers of scarlet, yellow, cerise, pink and flame. A perfect Rose for cutting.

Mme. Jules Bouche A splendid white, at times slightly tinted with just a touch of tender blush-pink. Long, pointed, shapely buds and full double, fragrant, well-formed flowers. Vigorous grower, and a free bloomer.

Margaret McGredy Brilliant brick-red or orange-scarlet. Large pointed buds open to fine, full blooms that fade but little. Healthy foliage. Lovely new variety much in demand.

Mrs. E. P. Thom Best yellow Rose. Fine long buds open into perfectly shaped, open flowers of rich lemon-yellow which do not fade; sweetly scented. Very vigorous grower and continuously in bloom.

E. G. Hill Beautiful long bud of perfect form and full, double, high-centered flower of dazzling scarlet shading to a deeper red as it develops. Strong, vigorous, free-flowering habit.

Mrs. Henry Bowles A splendid, large, well-formed, high-centered, very fragrant flower of an intensely brilliant shade of pink with salmon shadings. A model Rose, perfect in every stage of development.

\$2.75 for 6

Olympiad A handsome new red Rose. Long, pointed bud of flame-scarlet, opening into a high-centered, fragrant blossom of good size, with recurving petals, borne singly on long, strong stem. Its unusual shade of red has a strong undertone of orange-yellow, flashing yellow at base of petals.

Chas. P. Kilham Long, pointed buds, open to double, finely formed blooms of coral-red with orange base. Sweetly scented. Free flowering. Vigorous grower.

Cuba New. Very large, cerise-red and crimson bloom on a heavy pedestal of gold. Semi-double. Vigorous, upright grower and with few thorns.

Golden Dawn An ideal yellow garden Rose. The ovoid, lemon-yellow bud is heavily splashed with crimson before opening and develops into a well formed, sweetly scented, large, double, sunflower-yellow flower that reminds one of the old favorite Marechal Niel.

GROUP "D"

Prices

Autumn Multi-colored. The short buds are deep burnt-orange, opening to medium sized, very double, fragrant flowers of the same burnt-orange, stained with red and orange at the edges and base of inner petals. Glossy, leathery foliage; disease-resistant. Free and continuous bloomer.

Padre Flower shapely, of good substance, medium size, semi-double, fragrant, bright coppery scarlet, flushed with yellow, borne on long, strong stem. Foliage large, rich green, leathery, glossy and has not mildewed with us. Good grower and abundant bloomer.

Ville de Paris Buttercup-yellow. This medal-winning Rose boasts the honor of being named for the City of Paris. Retains its beautiful color under all weather conditions; the pointed bud has a broad base and opens to a fairly large bloom.

Editor McFarland This beautiful Rose is one of the most reliable garden sorts in existence. A winner of many awards. The perfectly formed flowers are clear, brilliant, unfading pink, and as a cut flower it retains its form and lasts longer than any other Rose we know. The growth is vigorous, the foliage healthy, and it blooms all the time from early summer to frost.

Dainty Bess An appropriate name for a daintily colored single Rose of perfect form. A delicate shade of shell-pink with a conspicuous bunch of crimson stamens. A greatly admired, long-lasting, single flower. Flowers are borne in clusters.

Miss Rowena Thom

Betty Uprichard

Favorite Roses

DAME EDITH HELEN. (Hybrid Tea). Largest, most perfectly shaped and most perfumed pink Rose. Clear, glowing pink, from the time the bud opens until the petals fall. Blooms abundantly, with long, strong stems. Growth of bush is vigorous and thoroughly hardy. Wins praise and admiration everywhere.

ETOILE DE HOLLANDE. (Hybrid Tea). Large, velvety crimson flowers produced in great profusion throughout the summer. Deliciously perfumed. Vigorous, upright grower. Unquestionably a popular and excellent red Rose.

MISS ROWENA THOM. (Hybrid Tea). Large buds open to full blooms of perfect form, often measuring over 5 inches in diameter. The color is deep rose-pink with a yellow base to the petals which lights up the whole flower. Vigorous grower, splendid foliage, and blooms freely. Delicious fragrance.

MRS. PIERRE S. DUPONT. (Hybrid Tea). This Gold Medal winner has a medium-sized long-pointed bud of a reddish gold, opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is strong and vigorous.

JOANNA HILL. (Hybrid Tea). Extremely large, very long-pointed; flowers large, semi-double, full, unusually lasting, moderately fragrant, darker yellow than Sunburst, borne singly on long, strong stem. Beautiful foliage; few thorns. Vigorous grower; profuse bloomer.

CALEDONIA. (Hybrid Tea.) Exquisite long buds of ivory white, changing to purest white as the flowers open into large double blooms of soft velvety texture. The best white. Continuous free bloomer.

BETTY UPRICHARD. (Hybrid Tea). Deep toned carmine with coppery orange blend; interior mostly delicate salmon-pink. Very choice.

RED RADIANCE. (Hybrid Tea). Large, globular flowers of an even, clear red. Constantly in bloom. Very popular.

PINK RADIANCE. (Hybrid Tea). Extra hardy, vigorous and prolific. Beautiful blending of carmine-rose with shades of opal and copper.

GRUSS AN TEPLITZ. (Hybrid Tea). Bright scarlet, shading to velvety crimson; fragrant; free flowering.

PAUL NEYRON. (Hybrid Perpetual). Largest Rose in cultivation. Color bright cerise-red, very fragrant. June until late October. Flowers full and double.

SOUV. de CLAUDIUS PERNET. (Pernetiana). Most satisfactory yellow Rose. Strong, sunflower-yellow, even deeper toned at center. Large flowers; buds long and pointed. Vigorous growing bush, with brilliant foliage.

F. J. GROOTENDORST. (Baby Rambler Rugosa Rose). Typical Rugosa foliage and habit; compact, bushy growth. Bloom is in clusters of oversized, double red flowers, produced from early summer until fall. Valuable for either specimen or group planting.

FREE. With This Bargain,
1 **Rosa Rouletti**

Rosa Rouletti

(Swiss Rock Garden Rose).

This altogether charming little rose was once popular in the Alpine gardens of Switzerland; but like other favored flowers, disappeared. It has recently regained cultivation, and comes now to us as a welcome addition to our rockery and edging plants. Grows 6 to 7 inches high; dense, small foliage; 3/4-inch double, rose-pink flowers continuous from early summer until frost. **Strong, 2-yr., field-grown bushes, only 40c each; 3 for \$1.05; 6 for \$1.80.**

Rosa Rouletti

Paul's Scarlet The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters, on much branched canes. Blooms very long, holding flowers after many June bloomers have dropped their petals. **Strong 2-year, field-grown bushes, 35c each; 3 for 90c; 6 for \$1.50.**

American Beauty This climbing variety has delightful well-formed blooms of rosy carmine. Splendid foliage. Very fragrant. **Strong, 2-year field-grown plants, 30c each; 3 for 80c; 6 for \$1.40.**

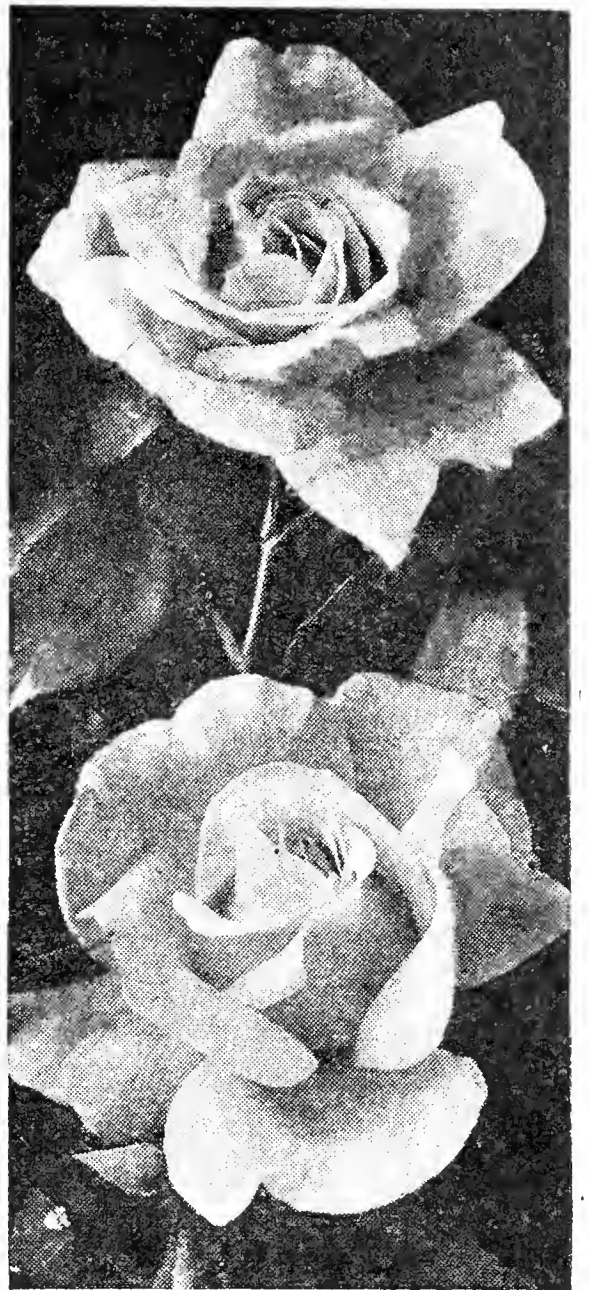

Mme. Gregoire Staechelin

(Spanish Beauty). Charming new climber. Long, pointed buds flashing carmine opening into flowers of delicate pink. Long stems for cutting. Foliage very resistant to disease. **Strong, 2-year field-grown bushes, only 40c each; 3 for \$1.05; 6 for \$1.80.**

Scorcher Grand new climber. Flowers scorching, fiery red, large, semi-double. A great profusion of bloom in June with occasional recurrence during the summer. Very hardy and fast growing. **Strong, 2-year field-grown bushes, only 45c each; 3 for \$1.20; 6 for \$2.10.**

Jacotte Unusually attractive, fragrant flowers of orange-copper-apricot. Large flowers, clustered up to 10. Healthy foliage. **Strong, 2-year, field-grown bushes, only 45c each; 3 for \$1.20; 6 for \$2.10.**

Talisman No doubt the bush Talisman has attained the greatest popularity of any Hybrid Tea, and now this amazingly beautiful Rose comes as a climber. Beautiful two-toned shades of yellow and red. **Strong, 2-year, field-grown bushes, only 50c each; 3 for \$1.35; 6 for \$2.40.**

Above: Mme. Gregoire Staechelin
Below: Scorcher.

Everblooming Baby Polyanthas

These are especially fine for solid beds and for borders. Also ideal for cemetery planting because they are so easy to grow and bloom so freely. Are constantly in bloom from early summer until freezing. They grow only 18 inches tall. Very hardy, growing everywhere and requiring very little care.

CAMEO. Shell-pink with a touch of salmon and gold.

GLORIA MUNDI. Huge clusters of brilliant orange-scarlet.

SPARKLER. Considered the best low-growing red Baby; a sparkling brilliant red.

Strong, 2-year, field-grown bushes, only 40c each; 3 for \$1.00; 6 for \$1.75.

Baby Polyanthas

Patented Roses

Guaranteed to live throughout the summer or we will replace all that die at 25c each, provided claim is made by October first, and is accompanied by Plant Patent Label. This is your protection.

COUNTESS VANDAL

U. S. Plant
Patent No. 38.

The most popular Rose in America as well as in Europe. A Hybrid Tea Rose, with long, pointed buds and large, double blooms, richly fragrant. Lovely shadings in color—coppery bronze suffused with rich gold. Strong grower. **Strong, 2-year, field-grown bushes, \$1.00 each; 6 for \$5.00.**

Blaze

BLAZE

U. S. Plant
Patent No. 10.

This hardy scarlet climber is a cross between Paul's Scarlet and Gruss an Tep-litz. Blaze is seldom out of bloom. In the middle of August the bushes are covered with vivid scarlet flowers. **Strong, 2-year, field-grown bushes, \$1.00 each; 6 for \$5.00.**

Countess Vandal

WHITTEN - Perennials

Crimson King Carnation

New! Hardy! Everblooming! Loads of gorgeous rich red, double blooms, on long stems, from June till frost, wonderful, spicy scent. Perfectly hardy. Blooms first year. Similar to Dazzler. Strong plants, 30c each; 3 for 75c; 6 for \$1.35.

Bleeding Heart

(*Dicentra spectabilis*). Hardy old favorite with heart-shaped, rose-colored flowers in drooping spikes. Strong, field-grown plants, with 3 to 5 eyes, 2-year, No. 1, 40c each; 3 for \$1.00; 6 for \$1.85; \$3.50 per doz.

Delphinium

(English Hybrids). Very choice. More delightful color tones and patterns. Among them occur the much prized shades of pink and white, besides the full range of blues; but no particular colors are guaranteed. Strong, field-grown plants, 20c each; 3 for 50c; 6 for 90c.

NEW WHITE HYBRIDS. Here at last we have a White Delphinium. The flowers are semi-double and single white, on 6-foot stems. Splendid sight when combined with the blue or pink colors. Strong, field-grown plants, 30c each; 3 for 75c; 6 for \$1.35.

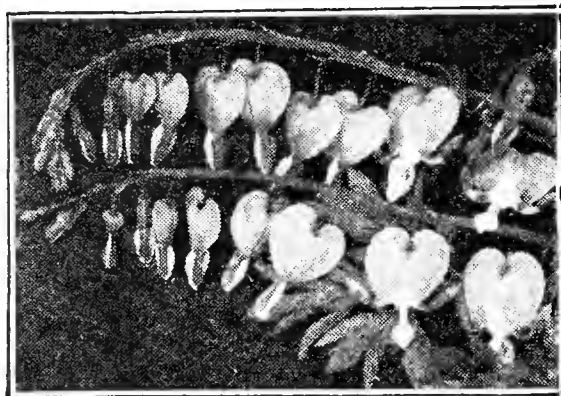

Tritoma (Red Hot Poker). Flaming scarlet flowers, the opened lower petals rimmed with orange. Mulch for winter protection. Strong, field-grown plants, 20c each; 3 for 50c; 6 for 90c.

Mallow
Scarlet Rose

Scarlet Rose Mallow

(A New Hibiscus). Flowers are large, very brilliant red with tones of salmon or orange. Its glossy, deeply cut, green foliage turns beautiful color, with red predominating in the early fall. The stems are red and very attractive in the fall. Very prolific bloomer, producing many more flowers than an ordinary Hibiscus. Strong, field-grown plants, 40c each; 3 for \$1.00; 6 for \$1.85.

Oriental Poppies

BEAUTY OF LIVERMORE. Finest dark crimson with black blotch.

MRS. PERRY. Orange-apricot; very beautiful.

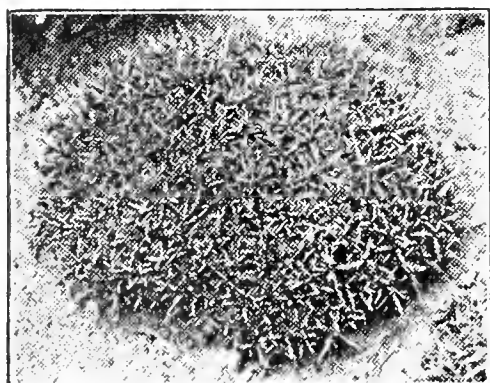

PERRY'S WHITE. Lovely satiny white with crimson-maroon blotch. Strong plants, 25c each; 3 for 50c.

Pink Dawn Dianthus

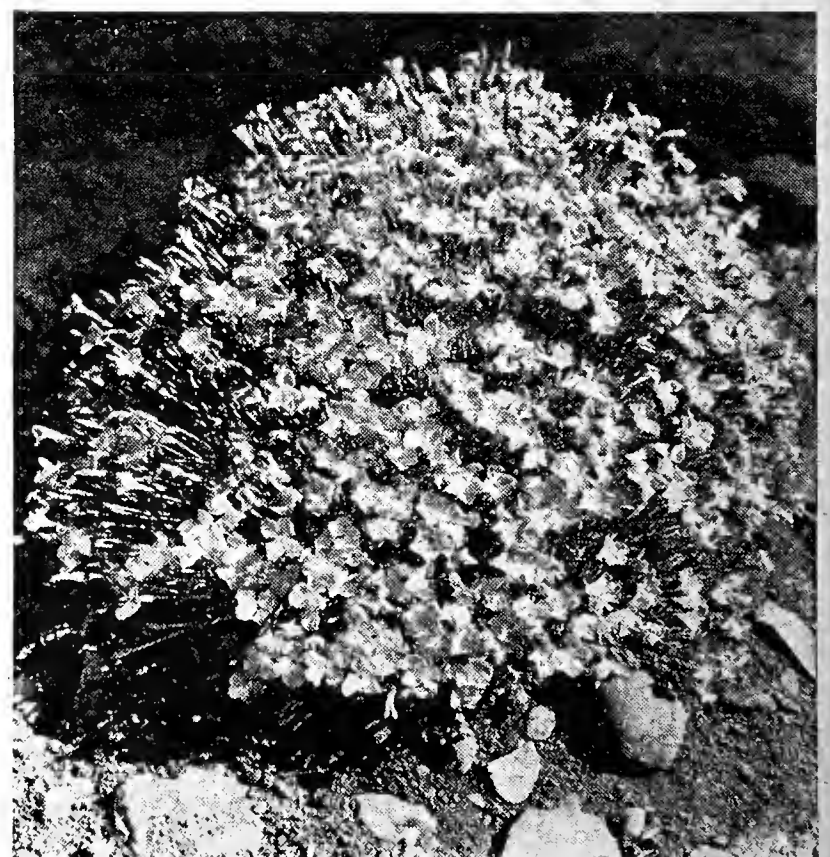

(*Dianthus neglectus compacta glauca*)

New! Something very unique in the line of Dianthus. It first appears all soft and fuzzy like a kitten; then in May hundreds of buds appear on short, straight stems that bristle out like the quills of a porcupine, and then, just before Decoration Day, blooms appear, completely covering the cushion-shaped plant with dainty

1½-inch rosy pink flowers with crinkled edges. The foliage is blue-green, which remains evergreen all winter. Very hardy. The picture at the left shows this variety in the "fuzzy kitten" stage; and on the right, illustrates same in bloom. Strong plants, 30c each; 3 for 75c.

"Fuzzy Kitten" Stage

Pink Dawn in Bloom

ACKERMAN Chrysanthemums

New Korean Hybrids

These hybrids have been welcomed not alone for their dainty flowers and graceful plants, but particularly for their increased hardiness. The following varieties are especially fine for cold climates where ordinary Chrysanthemums winter-kill. Very attractive in color, early blooming, easier to grow.

APOLLO. Bronze-red and gold blended.

CERES. Old gold and chamois-yellow.

DAPHNE. Lilac-rose with gold stamens.

DIANA. Rose, salmon and pink blended.

MARS. Deep amaranth-red, changing to wine-red.

MERCURY. Bronze-red and coppery bronze.

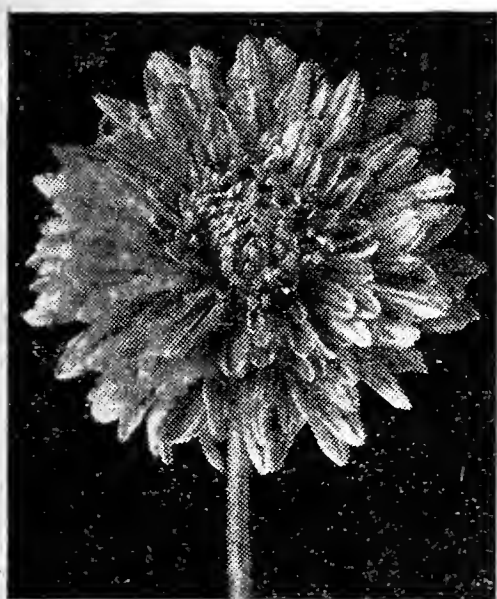

Strong plants, 30c each; 3 for 75c; or 6 for \$1.25.

Aladdin New! Everblooming! July to frost. Exquisite coppery bronze, with an overlay of orange-apricot.

New Korean Hybrids

Pink Cushion A marvel of Beauty. Entire clump covered with bloom all fall. Beautiful shade of pink. Similar to Azaleamum. Strong plants, 30c each; 3 for 75c.

Aladdin

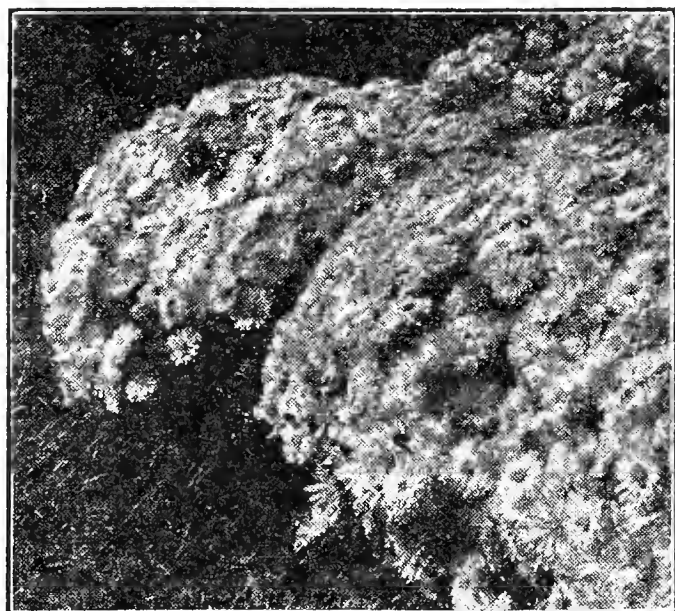

Red & White We can also furnish Chrysanthemums in two other colors—red and white. Your choice as to color. Strong plants, 30c each; 3 for 75c.

Pink Cushion

New Dwarf Hybrid Border Asters

We highly recommend these new Dwarf Hybrid Border Asters, as they fill a distinct need for a dwarf, compact, free flowering plant that will make a showy display during the weeks just preceding the blooming of the earliest Chrysanthemums. They represent an entirely new type of Asters which probably is the most important new type of perennial plants which has been introduced for many years. Hardy. Set plants 12-18 inches apart for mass effect, in clumps or borders.

VARIETIES:

COUNTLESS OF DUDLEY. A clear pink with a contrasting yellow eye.

SNOWSPRITE. Semi-double, white flowers.

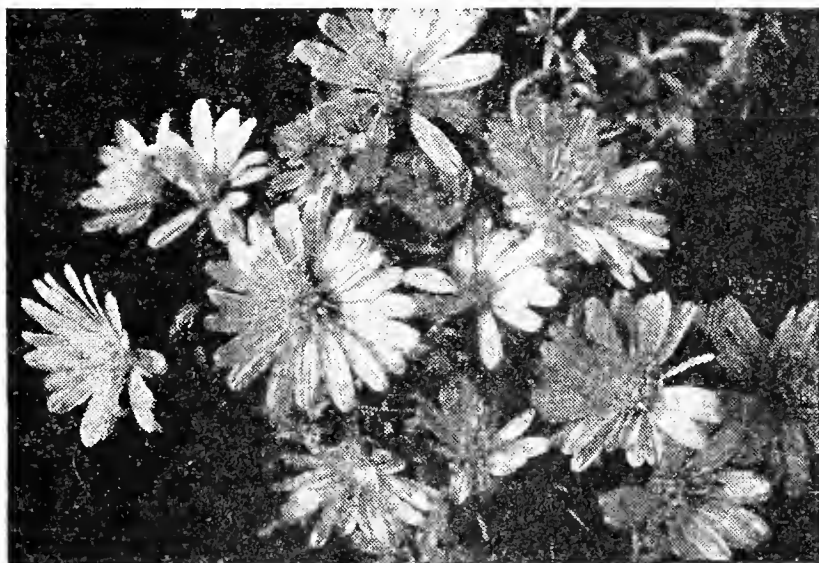

NANCY. Pale flesh-pink.

LADY HENRY MADDOCKS. Clear pale pink.

VICTOR. Clear lavender-blue.

RONALD. Bright lilac-pink, rose-pink buds.

Prices, strong plants:
30c each; 3 for 75c; 6 for \$1.35.

Border Aster Blooms

Daily Sketch

New Phlox

DAILY SKETCH. Unquestionably one of the showiest Phlox originated in years. Very large trusses with large flowers of soft salmon-pink with glowing carmine-eye. Strong grower.

CAROLINE VANDENBURG. Striking parma-violet-blue, large individual flowers with enormous trusses. Nearest to blue in Phloxes. Very free-flowering.

HAUPTMAN KOEHL. Dark blood-red. Large clusters on strong, tall stems. Individual flowers large. Keeps color in heat and rain.

Prices, strong plants, 30c each; 3 for 75c.

Four Wonderful Bargains

GLADIOLUS

OFFER NO. 25

Finest assortment of colors and varieties—wide range of color—many popular kinds. Not small bulbs or bulblets—but flowering size that will produce elegant spikes of bloom this summer.

Net, postpaid in U. S.

DAHLIAS

OFFER NO. 26

A grand collection of the better varieties. Many shades and colors.

Here is an unheard of value.

Supply limited. Act quickly.

Price net, postpaid in U. S.

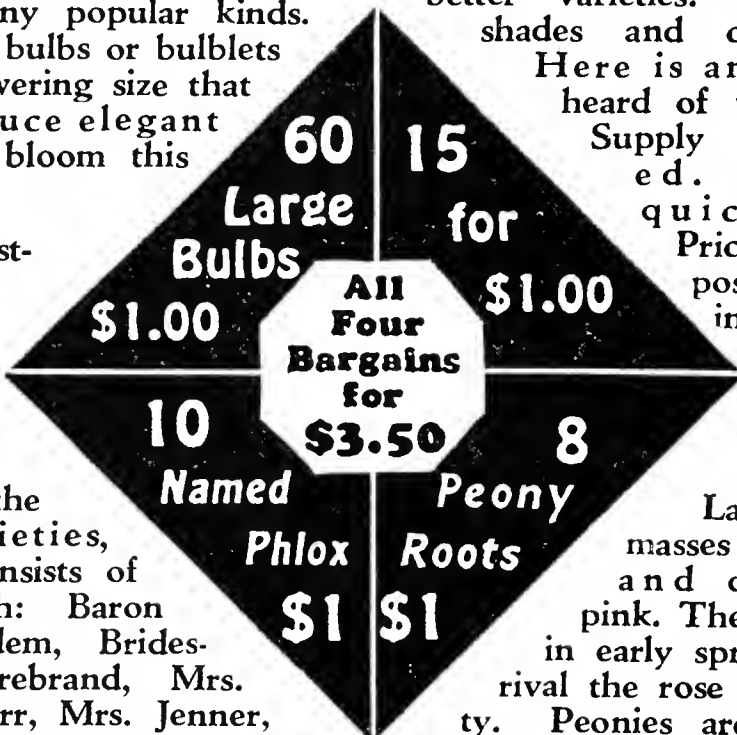

PHLOX

OFFER NO. 27

A grand assortment of many of the new varieties,

which consists of one each: Baron von Dedem, Bridesmaid, Firebrand, Mrs. Chas. Dorr, Mrs. Jenner, Pantheon, Rosenberg, Milly von Hoboken, Marshal French and Widar. All colors. All labeled. This is the assortment you have been looking for to complete your perennial bed. We guarantee them to arrive in good growing condition. Plants sturdy and field-grown. Price net, postpaid in U. S.

OFFER NO. 28 PEONIES

Large, double-flowering. Gorgeous masses of color—rich red, snowy white, and delicate pink. They bloom in early spring, and rival the rose in beauty. Peonies are unsurpassed for cemetery planting, or you can grow them in your own garden and have mammoth cut flowers for Decoration Day.

Our selection of colors. Not labeled.

Price net, postpaid in U. S.

HARDY LILIES

Gold Banded Lily

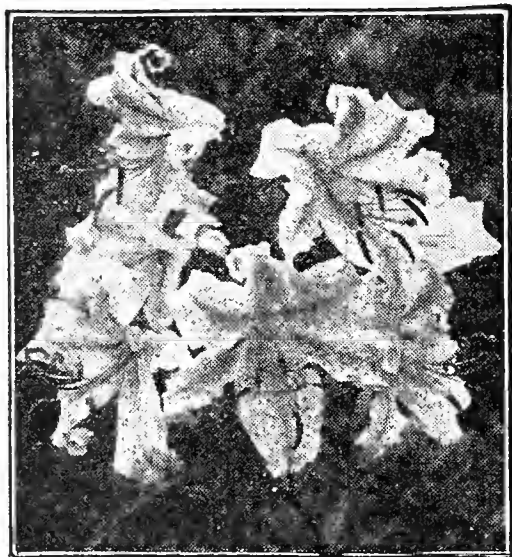

(Auratum). Large, fragrant flowers. Delicate ivory color, with chocolate-crimson spots and golden band through center. July to September. Large size bulbs, 35c each; 3 for 95c; 6 for \$1.75.

Philippine Lily (Philippinense formosanum). NEW! Long, trumpet-shaped flowers, white with reddish brown shading on exterior. Interior white with lovely green throat. Very fragrant. Blooms August to frost. Strong bulbs, 25c each; 3 for 60c; 6 for \$1.10.

Regal Lily Tall spikes of white flowers, slightly suffused with pink, with a beautiful glow of canary-yellow at the center. Exquisite perfume. Starts blooming end of June. Large size bulbs that will bloom this summer, only 15c each; 3 for 40c; 6 for 70c; 12 for \$1.25.

Tenuifolium Lily (Coral Lily). A beautiful little scarlet midget. Plant out front in your Lily bed or use in your rock garden. One of the prettiest little Lilies in cultivation. 18 inches high, coral-red flowers. Strong bulbs, 25c each; 3 for 60c; 6 for \$1.00.

Tigridia (Aztec) Lily A great garden novelty. Direct from Mexico. Grows well all over the United States, and as far North as Canada. Blooms continuously from July until frost. Flowers, which are brightest yellow to deepest scarlet, are 6 to 8 inches across. Tigridia should be planted and grown the same as Gladioli. The flowers are oddly marked at the cup-shaped center, and the outer petals are in various colors. Large size bulbs, 25c each; 3 for 60c; 6 for \$1.00.

CLIMBING VINES

Honeysuckle Heckrotti

New! The Wonder plant of the Century. Ever-blooming. A Lonicera that will fill that long-felt need of a variety that will produce continuous bloom. Blooms all summer with beautiful red flowers. Very highly scented. Wonderful foliage. We feel sure that you will not regret placing several of these in your order, for this wonderful vine will give you everlasting joy. 2-year No. 1 Vines, 40c each; 3 for \$1.00.

Honeysuckle, Hall's Japan

Strong, vigorous vine, with pure white flowers changing to yellow. Extremely fragrant, and blooms all summer. 2-year, No. 1 Vines, 25c each; 3 for 55c.

Honeysuckle, Scarlet Trumpet

Similar to Hall's Japan, but with trumpet-shaped flowers of bright scarlet. 2-year, No. 1 Vines, 30c each; 3 for 65c.

Honeysuckle, Yellow Trumpet

The extra-large flowers are arranged in large clusters on a vigorous and attractive vine. They are tubular, widely expanding at the mouth, and their brilliant golden yellow color is enriched by a vivid shade of bronzy red on the outside of the tube. Yellow Trumpet is a stronger grower; large, pale green leaves. Blooms in June. Strong, 2-year Vines, 40c each; 3 for \$1.00.

American Bittersweet

Handsome, glossy foliage, and large clusters of beautiful, orange-crimson berries, remaining all winter. Charming for winter house decorations. 2-year, No. 1 Vines, 35c each; 3 for 85c.

Clematis Jackmani

Immense flowers of an intense violet-purple color continuously throughout the summer. Strong, 2-year Vines, only 85c each; 3 for \$2.40.

Clematis Montana Undulata

New! Exceedingly hardy! A very prolific bloomer, sometimes so many blossoms that they pile one on another and almost hide the rich waxy green foliage. Flowers are a delicate shell-pink, and very similar to beautiful anemone blossoms; have pretty little, silky, yellow centers. This variety has been known to stand temperatures of 30 degrees below zero, unprotected. Strong, 2-year Vines, only 85c each; 3 for \$2.40.

Kudzu Vine

Hardy. Large foliage and dense shade. Runs 30 to 40 feet in one season. Blooms in August. Rosy purple, pea-shaped, in small racemes. 2-year, No. 1 Vines, 25c each; 3 for 60c.

Boston Ivy

One of the finest hardy climbers for covering walls and trunks of trees, as it clings firmly to any surface. Deep green in summer, bright red in autumn. 2-year, No. 1 Vines, 40c each; 3 for \$1.10.

Silver Lace Vine

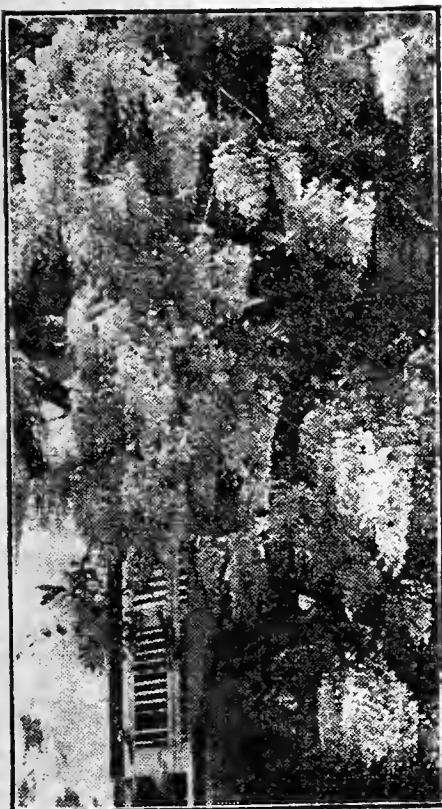

Unusually charming. Climbs gracefully anywhere. Grows very rapidly, averaging 25 feet in a season. A well-grown specimen is a cloud of lacy, misty white shot with tints of cream and pale rose of exquisite effect. Blooms late summer and fall. Strong, 2-year Vines, 50c each; 3 for \$1.25.

Chinese Purple Wisteria

Elegant and very rapid growing. Has long, pendulous clusters of pale blue flowers in May and June, and in Autumn. 2-year, No. 1 choice specimens, from blooming wood, 45c each; 3 for \$1.20.

SOME POPULAR FAVORITES

Actual Photograph Taken October
10th of Gem Berries Grown
On Our Own Farms

GEM

EVERBEARING STRAWBERRY

Our Faith in GEM

It is our belief that there never has been and probably never will be another Everbearing Strawberry that even approaches Gem in the qualities that make for perfection. In our opinion Gem is soon destined to become the most widely grown Everbearing Strawberry in America.

New!
**BEATS
ALL
OTHERS**

Cash in the First Year

With WHITTEN-ACKERMAN GEM secured direct from the originator, Mr. Frank Keplinger. Discovered by him on his farm in North Central Michigan. Here's the berry you've been looking for! It's the biggest sensation in years.

Big Profits 2 Crops a Year

Plant this spring—pick all summer—you'll get back the price paid for the plants—and MOST IMPORTANT—A BIG PROFIT. BE-SIDES. You'll harvest another fine crop the following June—two crops in one year. It's a wonderful plant maker. Makes a good row on any soil.

Finest Quality and Flavor

Berries are extra large, no small ones to bother with. Very firm, bright red all the way through. Ripen evenly, no green tips, and the flavor is the best you've ever tasted. Since the introduction of Mastodon, Gem is the only variety which surpasses it in all respects.

NOTICE!

At the present time there are so many kinds of Strawberry plants that are superior to older varieties, that we have discontinued propagating these inferior kinds, and are now offering only those that have proven superior in every way, consisting of twelve varieties—early, medium, and late. We have continued to grow the outstanding and the best older varieties along with the new. Why plant kinds that are inferior when you can secure the best?

Due to the severe drought of the past summer, the supply of Strawberry plants has been curtailed to such an extent that there will not be near enough plants to go around—about 20% of a crop. If you wish to get covered on your requirements, place your order at the earliest possible time and be assured of securing the varieties you want.

Wayzata

WAYZATA

A New Everbearer that is different. We might call it a real "Hill Berry" for the reason that it does not produce more than three or four runners to a plant. A decided advantage to the grower, as he does not have to remove first blossoms or runners. Each rooted crown set out this spring starts multiplying new crowns at once, until it has up to 20 to 25 crowns to a plant. It has ripe berries fully a month ahead of other Everbearers. These plants are not affected by wet weather which usually ruins Everbearers by hindering pollenization.

Berries are extremely large, very dark red, delicious sugary flavor. Heavy producers, continuing to bear long after other Everbearers have been stopped by frosts. Try some this year, and we know you will be back next year with a large order for Wayzata.

MASTODON *The Original Strain*

**Ripe Strawberries Ninety Days
After Planting**

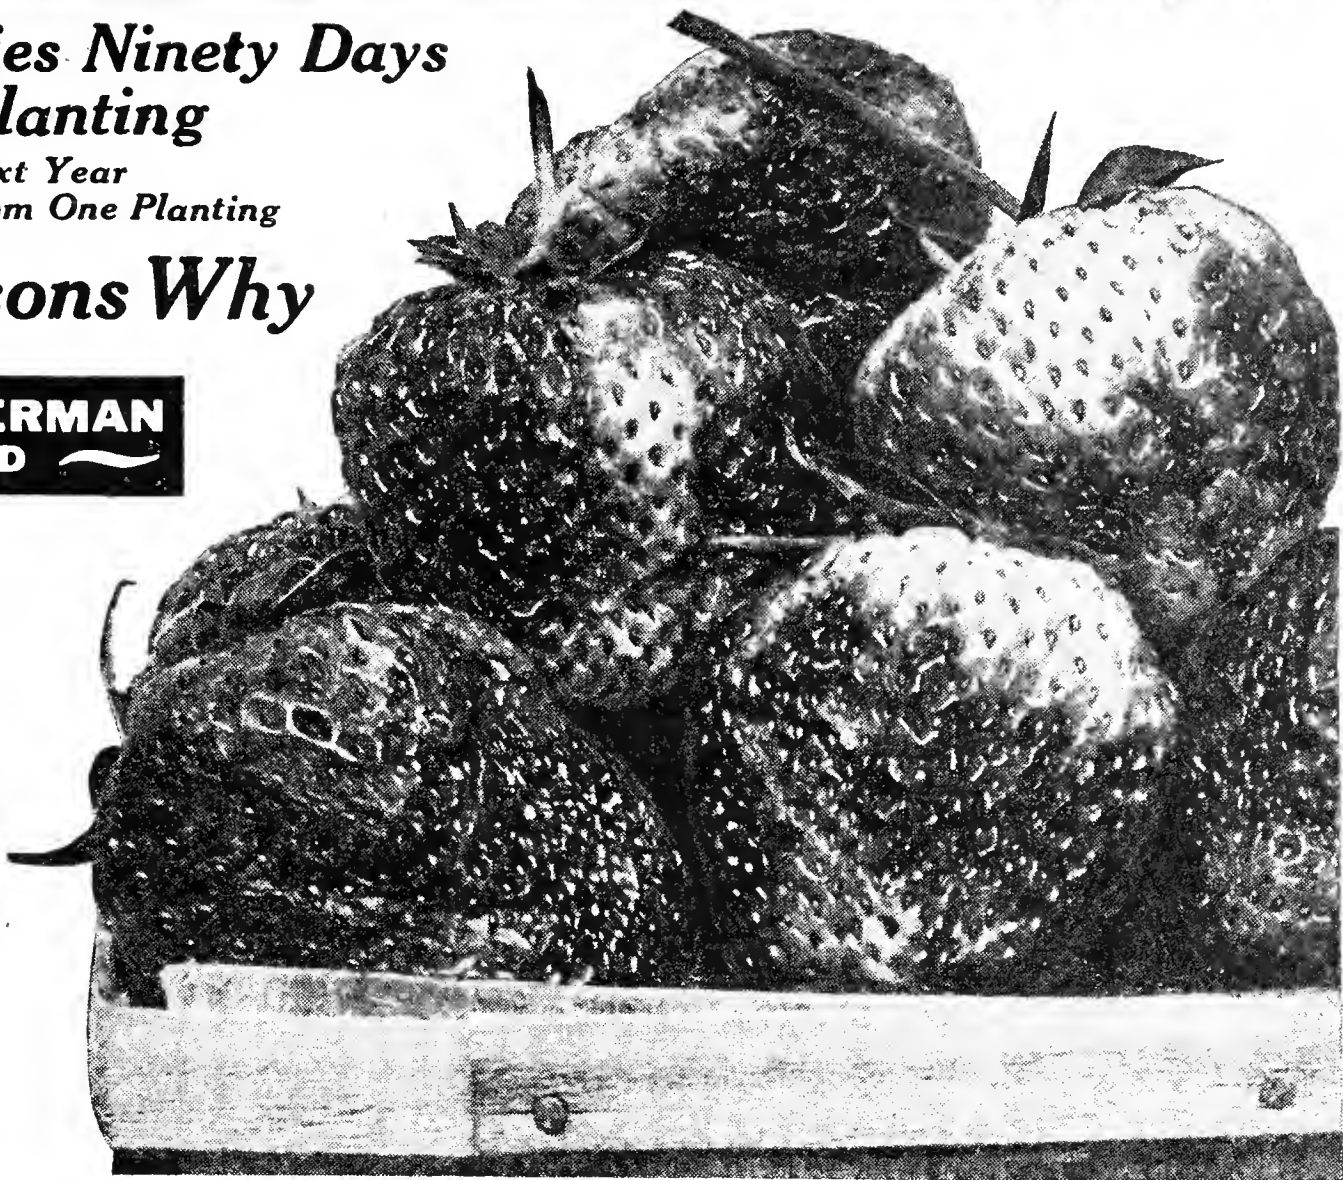

—All Summer All Next Year
All Fall All From One Planting

Ten Good Reasons Why

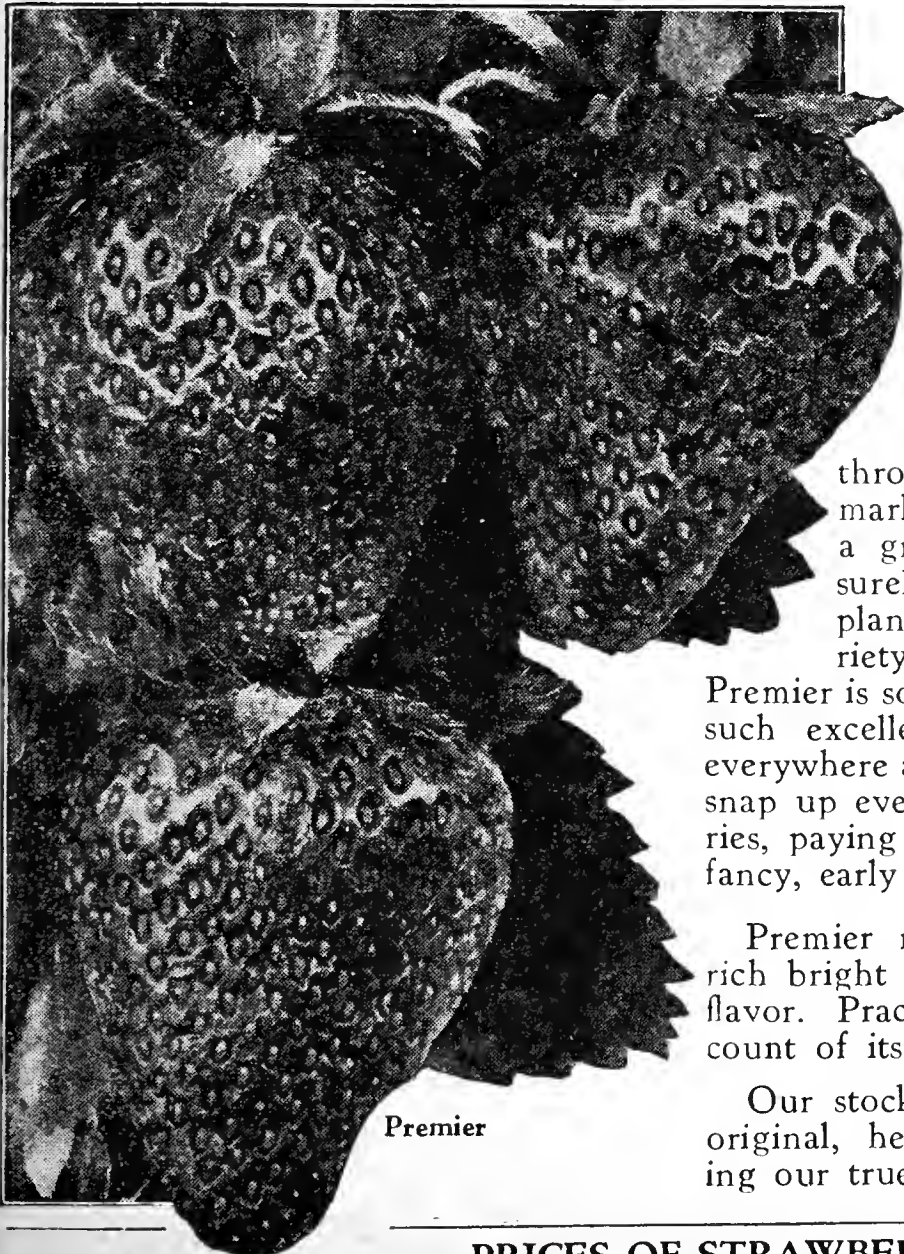

WHITTEN — ACKERMAN
AY — HEAD

MASTODON Plants Are Better

1. There is only one true Mastodon—the Introducer's original strain—we have it.
2. One of the largest everbearers grown.
3. Bears three crops from one planting.
4. Produces full crop in late autumn, when other kinds are out of season.
5. Grown easily with no special soil or culture.
6. Berries of large, uniform size from beginning to end of season.
7. Fruits continuously until freezing weather.
8. Withstands dry weather.
9. Bears full crop next spring after planting.
10. First ripe berries ninety days after planting.

EVERY MASTODON PLANT SOLD BY US bears our guarantee of genuineness and satisfaction. Do not be misled into paying fancy prices for this variety, but let us reserve yours now at one of the lowest prices available for true-to-name stock.

Premier

Premier

The most outstanding variety at the present time. Has been tried and tested for the past 15 years and has never failed to produce a wonderful crop of fruit regardless of climatic conditions. With the twelve weeks of drought we had last summer, Premier was the only variety that came through with a good fair crop, bringing a fancy price on all markets—\$2.50 to \$3.50 a crate for the first pickings, averaging a gross net of five to seven hundred dollars per acre. You surely cannot go wrong in planting this grand old variety—it is one of the best.

Premier is so well known, firm and of such excellent quality, that buyers everywhere are willing and anxious to snap up every available quart of berries, paying a premium price for this fancy, early fruit.

Premier ripens extra early, bears rich bright red berries of very best flavor. Practically frost-proof on account of its heavy foliage.

Our stock of Premier is from the original, heavy-fruited strain, bearing our true-to-name guarantee.

Proven New

Two Leading New Varieties **TRIED and TESTED—** **Premier's Rivals**

Developed by U. S. Department of Agriculture. Both Dorsett and Fairfax far surpass in quality any varieties known to growers in this country. Flavor of the finest, coupled with the vigorous, healthy and productive growing habits, and the large, beautiful berries will undoubtedly make them the leading early Strawberries, even displacing Premier in many places. We have fruited both of these varieties, and find, without any exceptions, they are the best ever introduced. Will produce 500 crates to the acre under normal conditions.

**Large,
Bright Red**

Dorsett

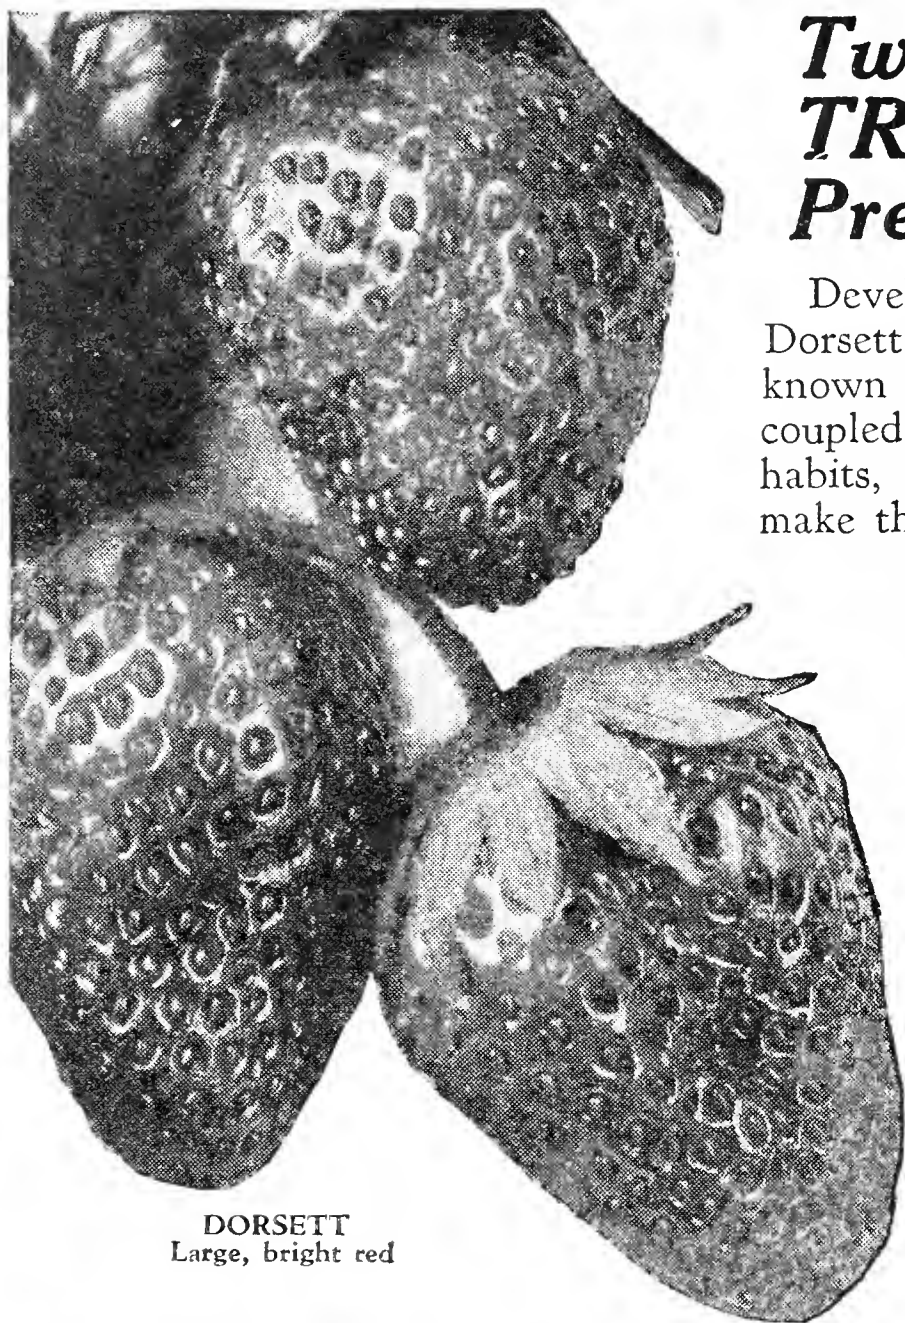

Berries are very firm—firmer than Premier, and are a beautiful light red in color. They hold this color well, and for this reason, together with their attractive shape and extra fine quality, will undoubtedly become the leading commercial variety. Commercial growers who have tested all kinds say that if they were limited to one variety, Dorsett would be their choice.

Plant Dorsett and Fairfax Now!

*You'll Find Them Real
Money-Makers*

EARLY AS PREMIER

Heavy producers. Vigorous, healthy plants, frost resistant. Extra good plant makers. Our planting stock was secured direct from the introducers, and you can be certain of obtaining guaranteed true-to-name plants from us.

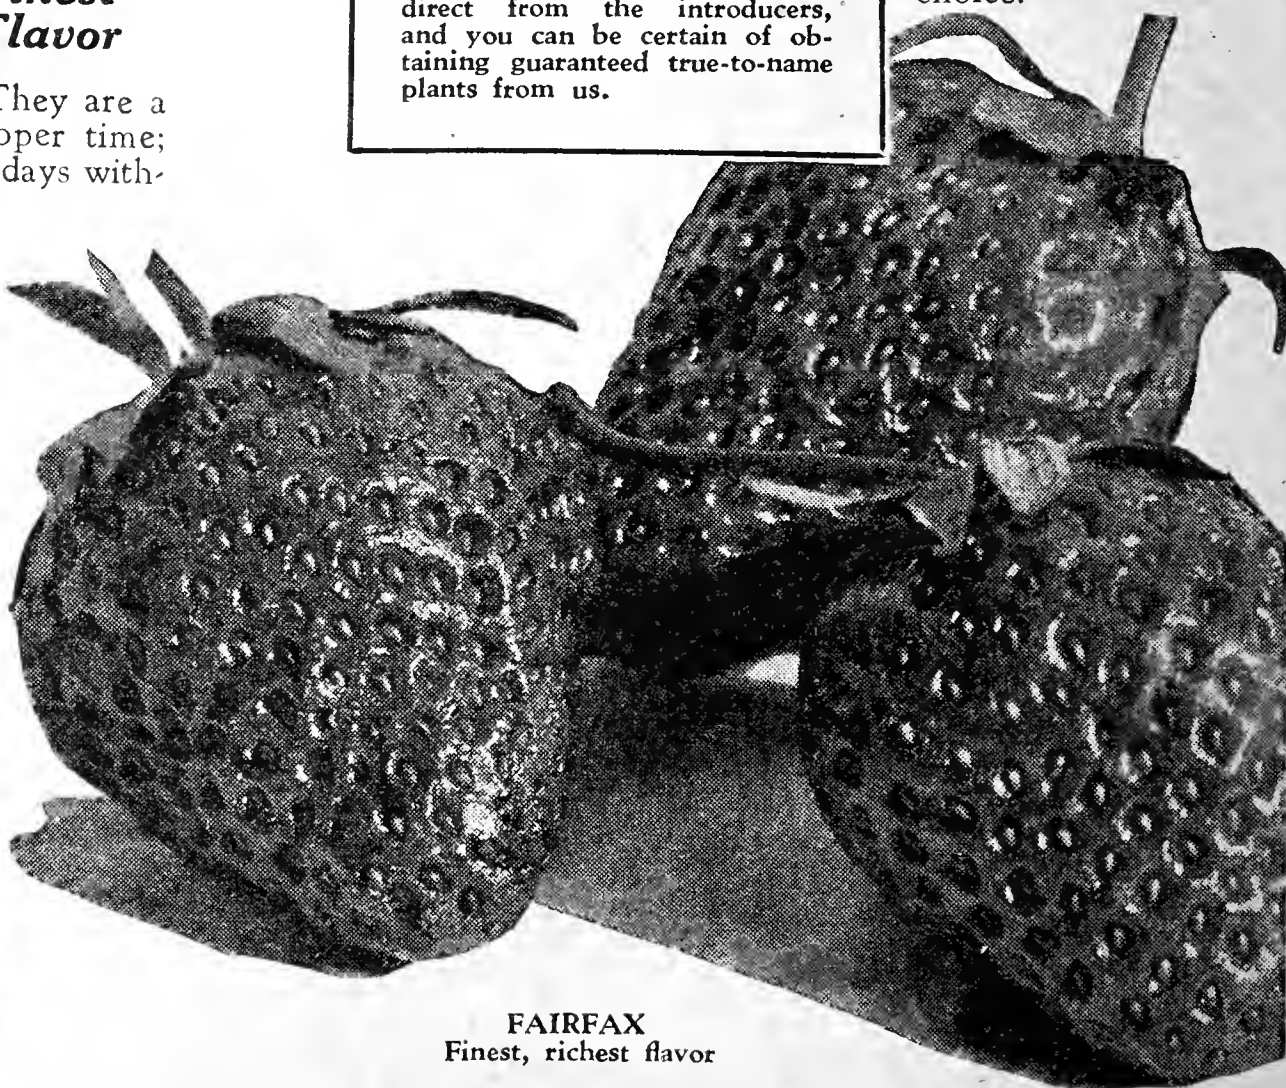

DORSETT
Large, bright red

Fairfax

**Finest
Flavor**

Berries are exceptionally firm. They are a bright red when picked at the proper time; can be left on the vines for several days without picking and still be of good quality, solid and firm. If this is done, berries will be somewhat darker in color, which may be a disadvantage on the market, making Fairfax more of a home market and garden variety. However, some markets prefer a darker berry, especially when of such fine quality as Fairfax.

Varieties~ McGowan's Seedling

WHITTEN - ACKERMAN
AY — HEAD —

Best New Late. In many sections of the United States a real late berry brings more money than an early variety. A fine berry to plant with Dorsett or Fairfax; begins to ripen after Dorsett are gone. Originated in Maine. We have thoroughly tested and fruited this new variety, and find it to be the best and largest late Strawberry. Firm, bright red fruit, fine, sweet flavor. Heavy cropper, good plant maker. Be sure to try this new variety.

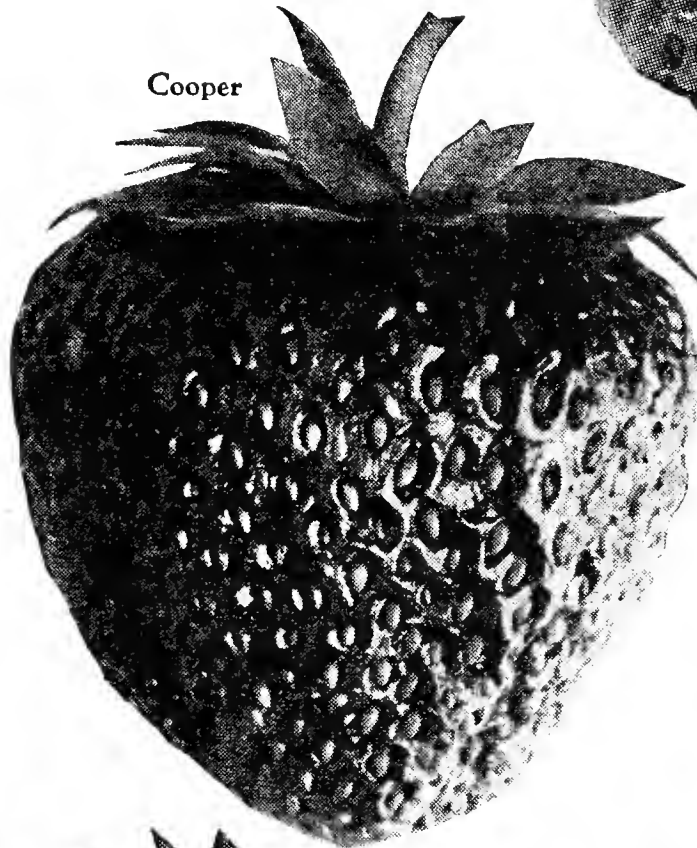

McGowan's
Seedling

Catskill

This new variety has been known to outyield the famous Dorsett and Fairfax. Makes a fine, vigorous plant growth. Fruit stems are thick and grow upright. Leaves are exceptionally large. Midseason ripening. Good quality berries average about the size of Fairfax, and hold their size well to the end of the picking season. An origination of the New York Experiment Station.

Catskill

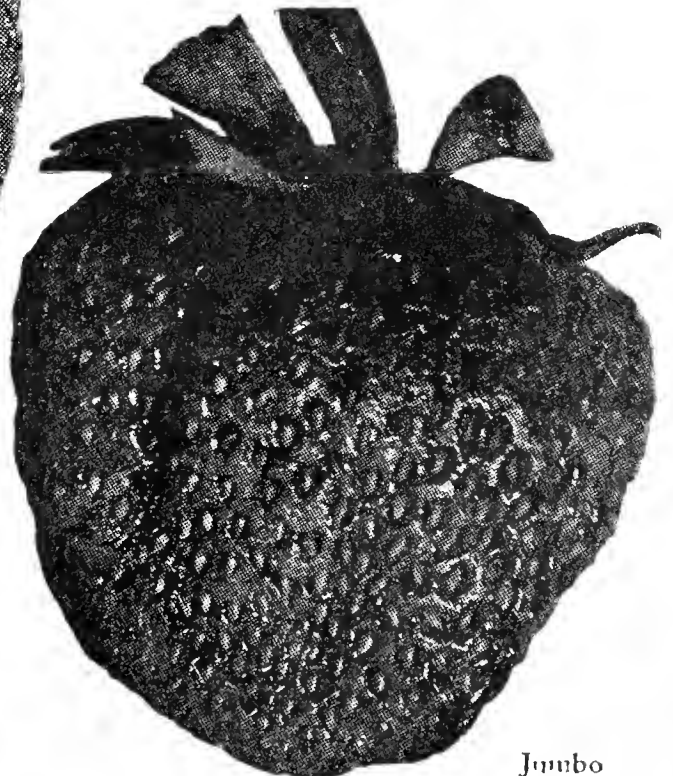

Cooper

Cooper

Beyond question this variety yields the biggest Strawberries ever produced. The flavor of its fruit is delicious; often being compared to that of the wild Strawberry. Cooper produces its crop early in the season, and is especially adapted to fancy, local market trade, where its large size and attractive appearance result in quick sales at big prices.

Jumbo

A Real Elephant in Size. Very large, deliciously sweet, fine flavor. Bright red. Firm, ships well. Good plant maker. So drought resistant it came through the driest summer without losing a plant. Heavy foliage—not subject to leaf spot. Plant Jumbo now, and you'll want more when you see the fine, extra large fruit. Ripens midseason.

Jumbo

Clermont

This new variety is a seedling from a cross of the Premier and the Marshall. Is a recent introduction by the New York Experiment Station. Has been highly praised in most all northern sections. It bears heavy crops of extra large, smooth, bright red berries of very fine quality. Makes a strong vigorous fruiting row, and is a very good early variety. We know a small trial order this year means larger profits for you next year.

Senator Dunlap

SENATOR DUNLAP

Strawberries come, and strawberries go; each year bringing forth the newer introductions that find their way into the market, often backed by brilliantly colored illustrations picturing tremendous size, claims of almost unbelievable qualities, and promises of superiority, which, for a time at least, have some of the old time favorites backed clear off the map.

This, however, has not been the case with Senator Dunlap. It is one of the oldest varieties commonly planted today, and never for a single season since its first appearance years ago, has

it lost even the smallest part of its well earned popularity that has made it famous the world over.

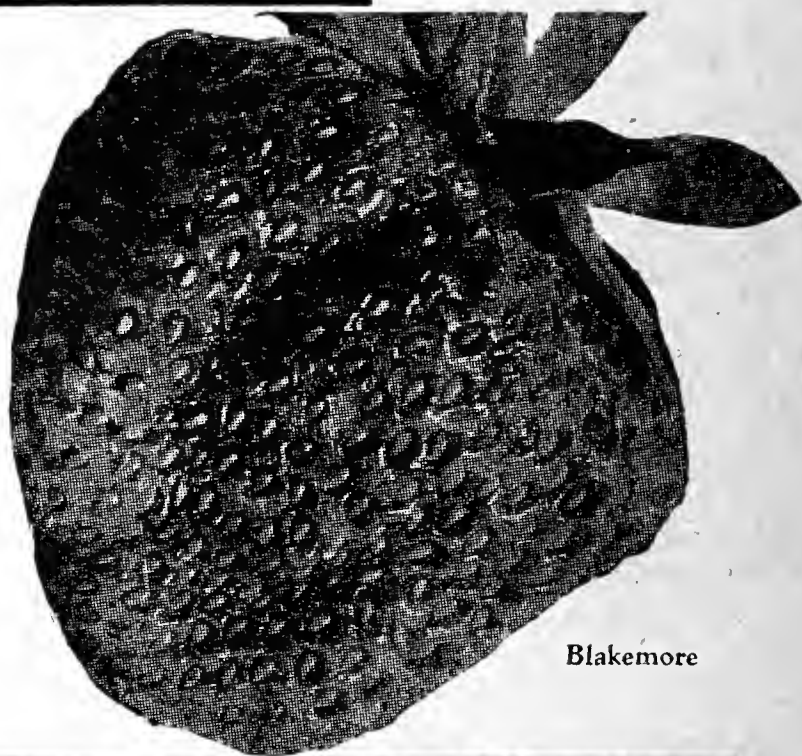

Senator Dunlap is sometimes sold under the name of Dr. Burrill; we can see no difference between these two varieties except the cost of the plants. Dunlap is the hardiest and toughest variety grown; will do well on any soil, making a fine picking row on the poorest kind of land. Berries are very dark red. Midseason ripening. A wonderful berry for canning.

At the present time there are probably more Senator Dunlap being planted than ever before, proving conclusively that it is one of the surest, the best and most popular midseason, all-purpose Strawberries ever offered.

BLAKEMORE

Extra early, ripening several days ahead of Premier. Introduced by U. S. Department of Agriculture. A cross between Premier and Missionary. Strong, vigorous grower and extra good plant maker. Berries are bright red, and resemble Premier, although they are somewhat larger and of better color. Blakemore is the best canner of all time. It was selected by the National Preservers Association as the most satisfactory for preserving and superior to all known commercial kinds. Also chosen as the most promising general market variety. Will undoubtedly take the place of Missionary and Klondike in the South, and will do well in the North anywhere Premier has grown.

Our supply of plants of this variety is of the original strain. We suggest that you place your order for Blakemore early, as there are not half enough plants to supply the demand.

Blakemore

SURPLUS STRAWBERRY PLANTS

During our spring packing season there are always a small quantity of strawberry plants in several varieties left in the packing house at the end of the day. As all our plants are guaranteed fresh-dug, naturally we cannot carry these over from day to day. Therefore we offer them to you who are not particular about varieties, at a rock-bottom price. These plants will consist of all good standard varieties of our own selection, labeled true to name, fresh dug, and guaranteed to reach you in good growing condition. Please do not ask for named varieties in this offer, for if specified kinds are ordered, they must be purchased at regular catalog rates. No less than 200 plants can be furnished at this special rate. Price: 200 for \$1.00; 500 for \$2.25; 1000 for \$3.95. Net—not subject to special cash discounts.

Mary Washington

Pedigreed ASPARAGUS

The new variety developed and introduced by the United States Department of Agriculture, and claimed to be an improvement over Martha Washington, in that Mary Washington is larger, and even more rust-resistant. Growers everywhere are discarding other varieties for the famous Mary Washington, because it is earlier, the stalks larger, more tender, more productive and best of all, it is claimed to be immune to rust.

Nothing that comes out of the home garden is so much appreciated as the tender tips and fresh stalks of Asparagus. A small bed of them kept weed-free, or a border along the garden edge, will supply the average table for six weeks or more in late spring.

In planting, make the soil rich; dig trench; set 12 to 18 inches apart, roots spread out, crown two inches below surface; and tamp in returned soil firmly.

RHUBARB

Myatt's Linnaeus

It is an early, tender variety, without being in the least tough or stringy, with a mild, sub-acid flavor. We consider this one of the most profitable market garden crops. We offer good strong roots, at unheard-of low prices.

Victoria

This new variety has giant-size stalks, twice the size of ordinary Rhubarb; very tender. Fine flavor. A trifle later than Myatt's Linnaeus.

HORSERADISH

This popular condiment is very easily produced in the home garden, and anyone who has compared the freshly dug article with that sold over the counters can appreciate the value of the good, home-grown products so easily prepared. A half dozen roots are sufficient for a moderate supply, while a dozen will generously cover the requirements for the average family. As it spreads quite rapidly, the source of supply is easily maintained.

First Choice of Commercial Growers

LATHAM

Latham

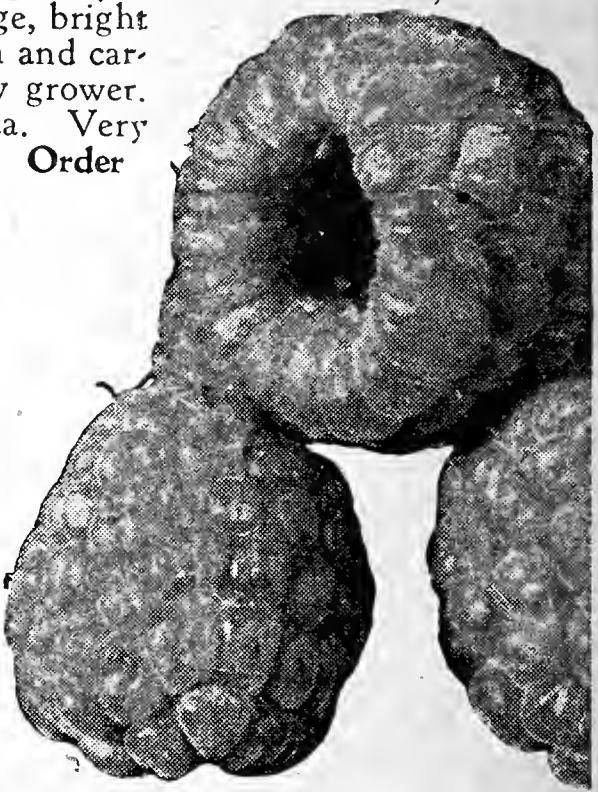

A popular favorite in all large fruit growing sections. Extra large, rich red berries, some measuring an inch in diameter. Bears a tremendous crop of best quality fruit. Finest berry for canning. Brings highest prices on any market. Has proven a profitable berry in all sections. Perfectly hardy. Originated in Minnesota at the State Fruit Breeding Farm. We have no hesitation in giving Latham our unqualified recommendation as the best all around Red Raspberry.

Latham plants are State Inspected, disease-free, of finest quality, heavy and well rooted. BUY THE BEST AND INSURE SUCCESS.

Newburgh

Newburgh

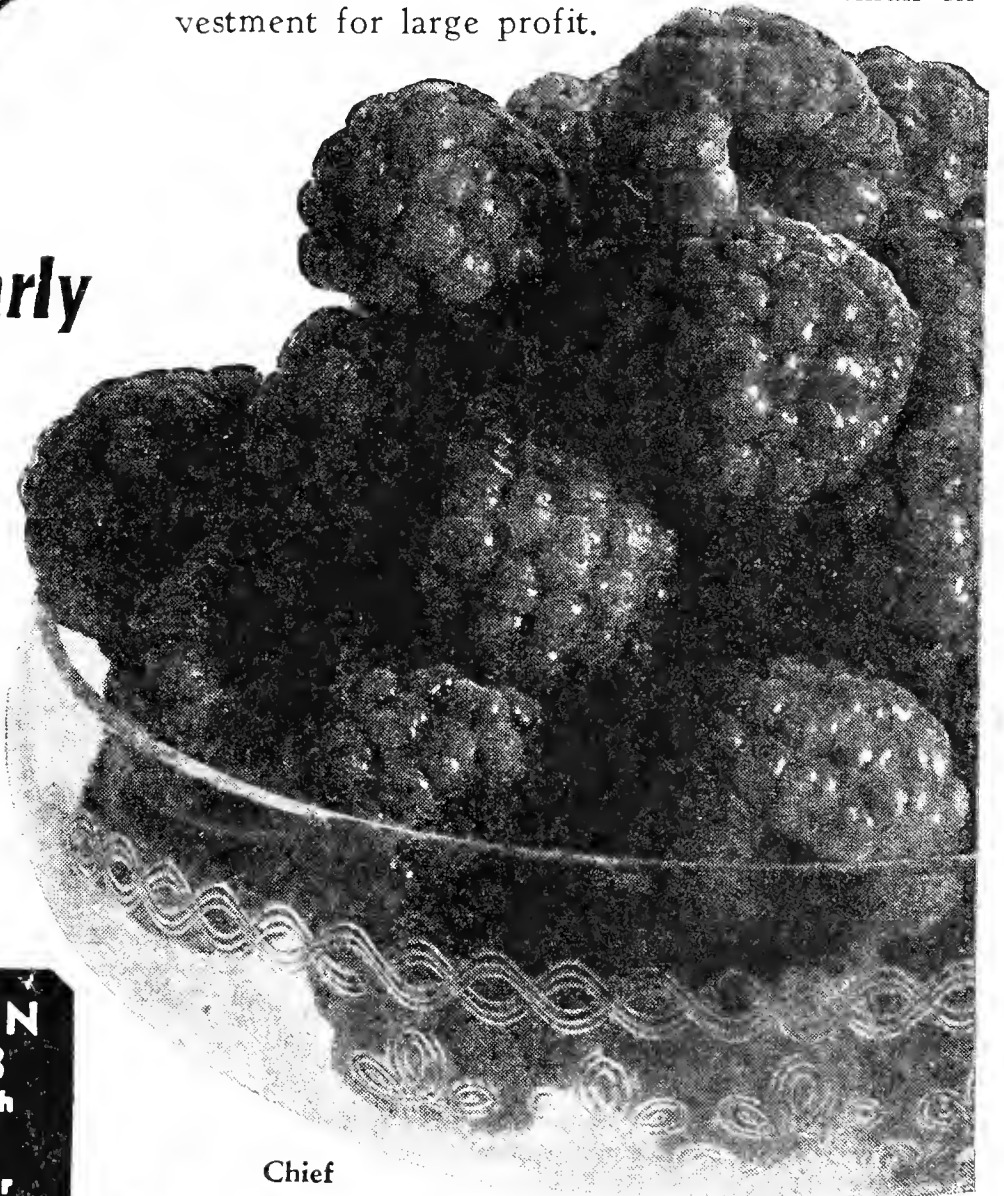

The New Favorite

A new variety which promises to become a leader. Introduced by the New York Fruit Testing Association, who declare that it is the best Red Raspberry in New York. Has been thoroughly tested throughout the country and produces wonderful results everywhere. Plants are tall, well-branched, and vigorous, healthy and very resistant to mosaic and other diseases. Berries are unusually large, bright red, extra fancy flavor. Extra heavy bearer. Do not crumble, and hold their large size over a long fruiting period. Ripens a few days earlier than Latham.

PLANT NEWBURGH NOW! A small investment for large profit.

CHIEF Best Extra Early

Has taken the place of all other early kinds. Bears immense crops of finest berries. Offspring of the famous Latham. All that the name implies—outstanding—ahead of others—a leader. Has proven hardy, disease resistant, a heavy cropper, of excellent quality and a good shipper. Berries large, rich bright red. Ripens ten days earlier than Latham, bridging the gap between Strawberries and ordinary Raspberries. A proven profit-bringer.

Rooted **BLACK RASPBERRIES**

Cumberland

Grown for plants only on ideal soil, and given the best of care and plenty of fertilizer, making them vigorous and full of pep. Awarded a clean bill of health by Michigan State Inspectors. Packed to reach you in first class condition.

Michigan has the most rigid plant inspection of any state in the Union. Buy from us and be assured of disease-free stock.

CUMBERLAND

The Largest of all Blackcaps and the Very Best Mid-season Kind. We advise planting Cumberland as a main crop variety. No Blackcap has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country. A heavy yielder, berries large, rich black in color, fruit firm and of delicious flavor. Bush is absolutely hardy, vigorous growing, producing plenty of fruiting wood; especially free from anthracnose, the common disease of all Raspberries. The greatest money-making blackcap of all time.

QUILLEN

The Latest Blackcap. Comes into bearing after all other varieties are practically through. Fruit very large and of fully as good quality and texture as Cumberland. Practically immune to mosaic, anthracnose and other serious diseases. This variety shows great merit in all sections of the country, and we urge you to give it a trial.

PLUM FARMER

One of the best early Blackcaps. Fine grower, free from disease, very productive. The berry is large, and of excellent quality. Plum Farmer ripens very early, producing the most delicious fruit in one week. Practically the entire crop can be harvested in three large pickings, enabling the grower to reach an early market, and harvest the crop with a minimum amount of labor.

NEW LOGAN

Most Dependable Early Black Raspberry. This variety, through sheer merit, has replaced very nearly all of the standard kinds. The berry ripens one week earlier than Cumberland, giving the grower a chance to make some real money before Cumberland comes into bearing. It is an extra heavy yielder, with berries as large or larger than Cumberland.

HEAD

Blackberries

Increase your profits. One acre of Blackberries will average 2000 to 2300 quarts per acre, and prices on this fruit are always high. The best money-making berry for the past three years.

ELDORADO

The Best Commercial Blackberry

Eldorado bears young, providing nearly a full crop of fruit the year after planting. Vigorous grower, producing strong, well branched canes, perfectly capable of carrying the big crop of fruit produced. Always free from disease, immune to orange rust. Large berries, fine flavor, color and quality. Very hardy, never winter-kills. A wonderful shipper. Fruits over a long season and insures a big profit to the grower.

There are more Eldorado under cultivation than all other Blackberries combined. Highly recommended for both home and commercial plantings.

ALFRED

The Blackberry Without a Core

It is perfectly hardy, and can be grown anywhere without winter protection. Alfred ripens early, beginning a week in advance of other varieties, and continues over a long season. The berries are of immense size, some measuring 3 inches around and 2 in length. Color is a glossy, jet black; the flavor sweet and delicious.

"Acme" Thornless YOUNGBERRY

Protected by U. S. Patent No. 4

This wonderful new variety retains all the delicious flavor of the common Youngberry, but is thornless. This variety attains a size of 1½ by 1¼ inches. Ripens earlier than Dewberries. Fruit is very highly flavored, sweet and delicious, dark wine in color, with few seeds. An excellent canner and valuable for table use, jellies and pies. Vines are thrifty growers, very productive, and immune from disease.

CURRANTS The 2 BEST

Currants are among the easiest of all fruits to grow, bearing good crops even when neglected.

Wilder Bunch and berries very large; moderate acidity. An immense yielder, always dependable.

Perfection Generally considered the best currant. Large bright red berries with rich mild flavor, with plenty of pulp and few seeds. Good bearer.

PURPLE CAP RASPBERRY

Royal Purple

Berries are of purple color, large in size, firm and of excellent flavor; do not crumble when picked. In quality Royal Purple is more nearly like the Red Raspberry than any other Purplecap. The plants are model growers, vigorous and healthy. A wonderful berry for home use.

Potomac

A good new variety originating with the U. S. Dept. of Agriculture from a cross of Plum Farmer and Newman. Comparable to Latham in size, very productive, excellent quality, and highly recommended for jelly and jams. Vigorous grower, exceptionally resistant to disease.

A Real Money Maker—Big Yields—Large, Sweet, Juicy

Lucretia Dewberries

THE FIRST TO RIPEN. TEN DAYS EARLIER THAN BLACKBERRIES. A REAL MONEY-MAKER.

Brings a big price on any market and makes real profit for the grower. For quick money, plant two-year stock.

Of the Blackberry type, but produced on a trailing vine instead of an upright bush. Very hardy and disease-resistant. Berries are extra large, lustrous black, sweet and juicy. **UNEXCELLED FOR CANNING.**

New BOYSENBERRY

Boysenberry 2 Inches in Length

The New Boysenberry is truly a Glorified Youngberry. We offer it this year for the first time because of the tremendous large size of the berries, because of its very prolific fruiting and lastly because we think that it has the highest qualities of all bramble fruits.

They are just as easy to grow as blackberries. They produce a larger crop, not because there are more berries, but because each berry is so much larger. Has a rich, tangy flavor all its own. The few seeds are scarcely noticeable. Plant 6 feet apart in rows 6 feet across. You will be surprised at the berries you can get from a dozen plants. We know after giving this variety a trial, you will agree with us that they are the finest berries you have ever tasted, either fresh, canned, in jams, jellies or pies.

Selected Varieties

THE BEST OF MANY

GRAPE

Concord

Delaware This variety cannot be surpassed for home use and to eat out-of-hand: every small home owner should plant at least a few vines. Berries are compactly set, light red, sugary and delicious. Is one of the very best red varieties, brings highest prices on any market.

Now is the time to plant grapes for a commercial proposition as the price received this year for the crop was a 100% increase over the past four years. At this writing, the 20th of October, grapes are bringing 60c a jumbo; with a normal crop, this price will show you a gross sale of about \$275.00 per acre. All farmers in fruit growing sections should devote at least a part of their land for grape growing purposes, realizing easy money from this crop at a time when other farm incomes have stopped.

On account of the extreme drought, grape vines failed to make as much top growth as usual. Therefore, the tops will be somewhat shorter than in normal years. This does not affect the quality of the plants, as all tops should be cut back to 2 buds at planting. Root growth is most important. Our vines are extra heavy rooted, and sure to satisfy.

Agawam A large, dark red grape. Bunches large, compact. Berries large; pulp soft and sweet; vine vigorous. Ripens early.

Caco A new red Grape originating in Delaware. Its quality is excellent, ripening in September. The fruit is very large and handsome. A rich wine-red color. Flavor of the finest, very rich and sweet.

Salem A strong, vigorous vine; berries large, dark copper color; thin skin, free from hard pulp; sweet, and of pleasing taste. Ripens first of September.

CONCORD

Most popular Grape. A large, purplish black Grape. Bunch is large, shouldered and compact. Berries are large; flesh is juicy, sweet and tender; excellent flavor. Vine a strong grower; very healthy, hardy and productive. The most reliable and profitable market variety.

Brighton New red Grape. Earlier than Delaware. Handsome dark red color. Flesh is rich, sweet and of excellent quality. Large bunches and berries. Vine vigorous, hardy, very productive.

A VINEYARD is a LIFETIME Investment

**GOOD
Plants
Have Strong
Healthy Roots
Grown from Heavy
Selected Cuttings**

Every Whitten-Ackerman Grape Vine is guaranteed to be true-to-name, free from disease and propagated from productive strains. The cuttings for our plants are all taken from heavy producing vines, each vine being selected for productiveness and size of fruit.

When buying from us you are absolutely assured of getting the best, vines that will produce heavy, uniform yields year after year, a result that cannot be secured from cuttings made in a haphazard way, regardless of quality, a practice all too common in recent years.

Our Grape Vines cost no more than others. You don't pay for the added quality. You can't afford

to experiment with vines of unknown origin. We can't afford to sell them.

We don't know of a single farm crop that can be relied on with the same assurance as the Grape harvest. Many a grower has been able to keep the wheels turning through a lean year, only because of his Grape crop. It's a good insurance for anyone.

VINES

CHOSEN FOR
Flavor Size and Yield

FREDONIA

Black. A new, very early Grape, originated and thoroughly tested by the New York Experiment Station. The berry and bunch are large, with excellent flavor. A real money-maker, coming on the market at a time when good table Grapes are at a premium. Ripens fully 15 days before Concord and is an excellent shipper, as it does not crack. Is a juicy, delicious black Grape. Its quality compares with that of Concord. Vine vigorous and productive. Will be planted extensively as a commercial proposition as soon as plants are available. One of the best new varieties.

Moore's Early

An early black variety, similar to Concord in looks and quality, but ripening about one week earlier. Has a peculiarly sweet flavor of its own. Vines are hardy and good bearers.

NIAGARA

A magnificent white Grape. Berries large, skin thin but tough; quality very good; beautiful bunches of the largest size. Ripens about with Concord. Quality of the best, very little pulp. Hardy and very productive. Of exceptional value for eating, grape juice or market and unsurpassed for wine.

Pocklington

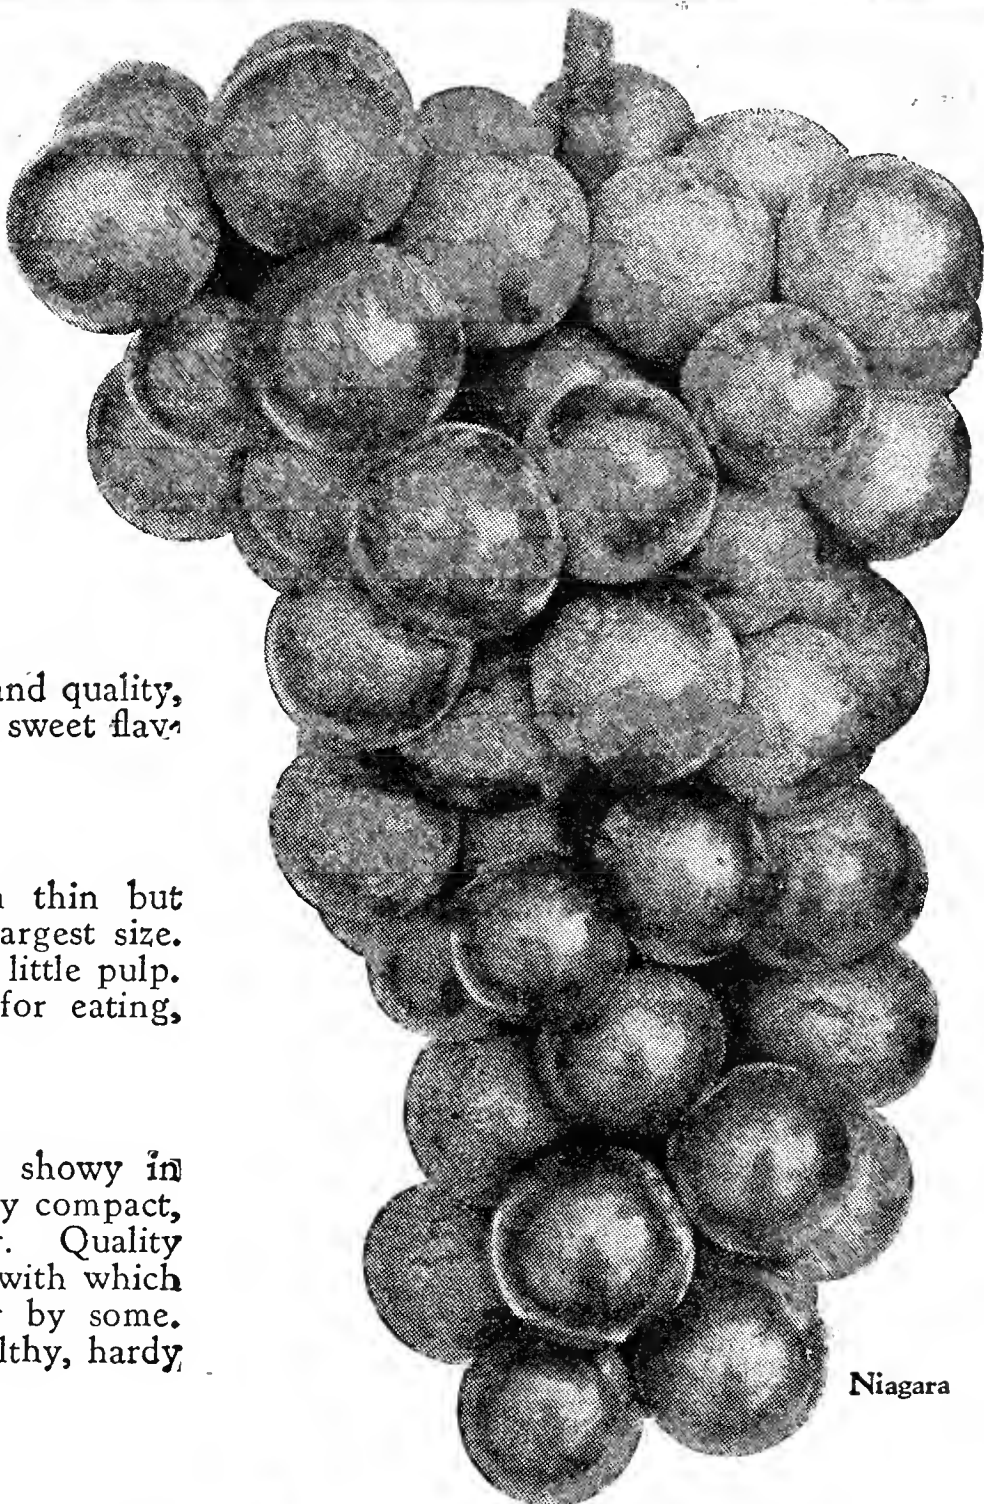

White. Very large and showy in both bunch and berry. Very compact, of beautiful golden color. Quality about as good as Concord, with which it ripens; liked even better by some. Vine vigorous and very healthy, hardy and productive.

Catawba

The best red Grape of them all. Grown extensively as a commercial proposition. Brings highest prices on any market. Berries large, round; when fully ripe of a dark copper color, with sweet, rich flavor. Undoubtedly the best wine and table Grape.

Worden

An early black variety; very hardy, healthy and productive. In vigor and health Worden is surpassed by no other variety. It is practically immune to fungous diseases and a sure, heavy cropper.

WHITTEN-ACKERMAN "WAY-AHEAD"

High Quality Fruit Trees

The selection of fruit trees for planting is a matter deserving great care and consideration.

Be sure to determine the caliper, grade and height before ordering from any nursery.

Unless one is experienced in orchard planting, the matter of price is often the greatest factor considered in determining the source of supply. Before buying, learn definitely just what sort of trees are being offered. Don't be influenced by height alone. While this is a desirable feature, a vigorous root system, well developed branches and a well calipered trunk are equally essential.

TRUTHFUL Grading

We offer 3½ to 4 and 4½ to 5½ ft. heights. Some nurseries offer a 4 to 6 ft. grade, or "specially selected," using small calipered 4 to 5 ft. trees, which are about the same as our smallest and cheapest trees. Don't be fooled into paying a big price for a small tree.

All of our stock is plainly graded and we furnish trees of larger caliper and greater height than those offered elsewhere at or near our prices. When we tell you that only our smallest grade can be sent by mail, the greater size and added value of our stock can be better appreciated. The height of our bigger grades is too large to meet parcel post requirements, necessitating express delivery only.

Quality is Appreciated

Our reputation for supplying quality stock at economical prices is established, and our policy of a square deal for every purchaser has been proven to the satisfaction of thousands of Whitten-Ackerman customers. Your next order entrusted to us will prove it to you as well.

If You want Heavy Bearing Trees plant Whitten-Ackerman Selected Stock

Whitten-Ackerman fruit trees are budded from bearing trees and grown where the snow flies, to make them more hardy and superior in quality.

At the left we show you a bundle of our apple trees. Note the heavy root system, straight and smooth trunk and well branched top. Plant trees such as these and at the end of five years you will have a bearing orchard of fine trees like the one illustrated above. This is a five-year-old Whitten-Ackerman Cortland Apple tree, planted on ordinary good soil. Note the bumper crop.

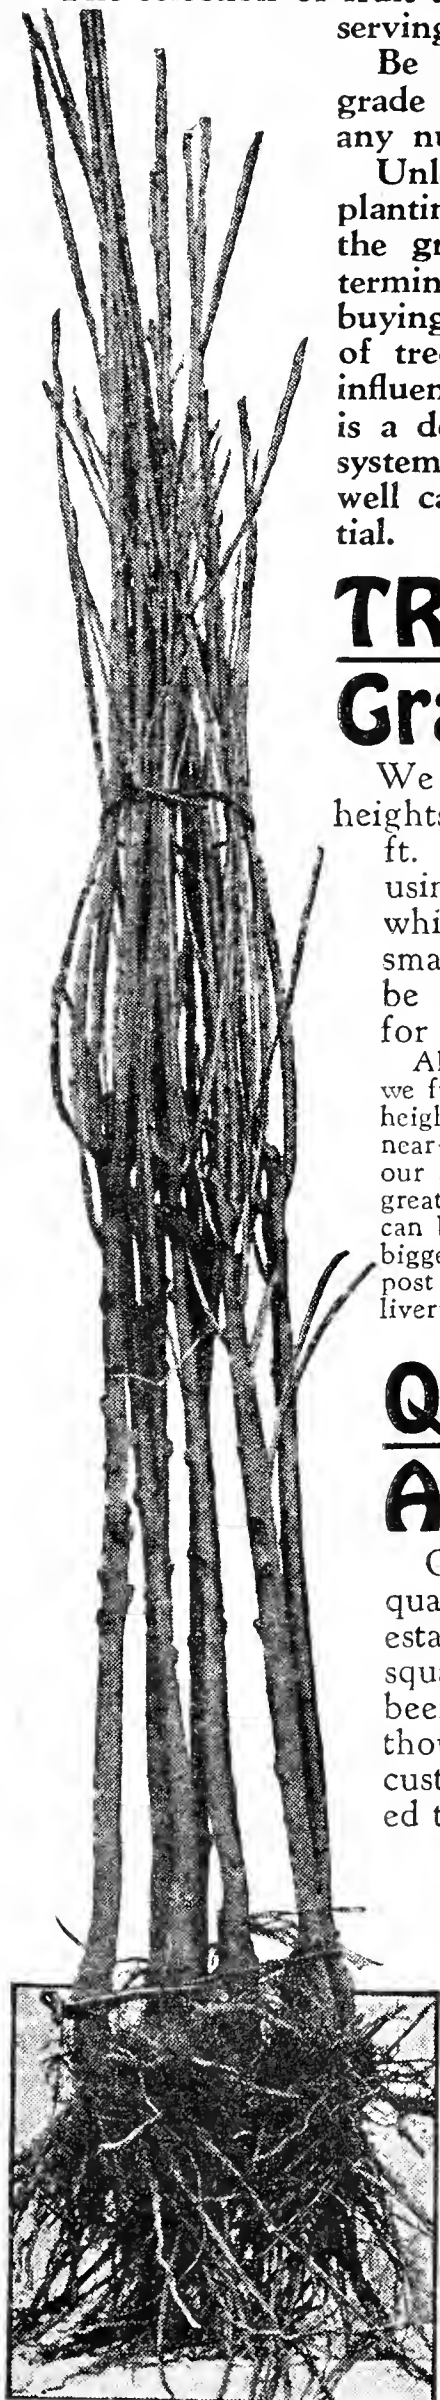

In the past, there has been an oversupply of fruit trees. Now, because of curtailed plantings throughout the United States and the drought, there is a great shortage of these trees. Supplies will be exhausted long before the end of the season. ORDER EARLY!

Selected Super-Size Fruit Trees

THE BEST OBTAINABLE. YOU CAN'T BUY BETTER TREES ELSEWHERE AT ANY PRICE. Other nurseries charge anywhere from \$1.00 to \$2.00 each for trees no older, larger or better. Whitten-Ackerman Super-Size Fruit Trees are the pick of the crop. They caliper no less than 1 1/16 inch, and many considerably over an inch. They run 5 feet and up in height, depending entirely on the kind and variety, as some kinds are much larger growers than others.

Two years old, the same as our smaller grades, but these trees were the strongest growers in the nursery rows, with the most pep and vitality. They'll forge right ahead and continue the same sturdy growth when planted in your own garden or orchard.

PLANT SUPER-SIZE TREES NOW AND SAVE AT LEAST A YEAR OR TWO.

Sweet Cherries

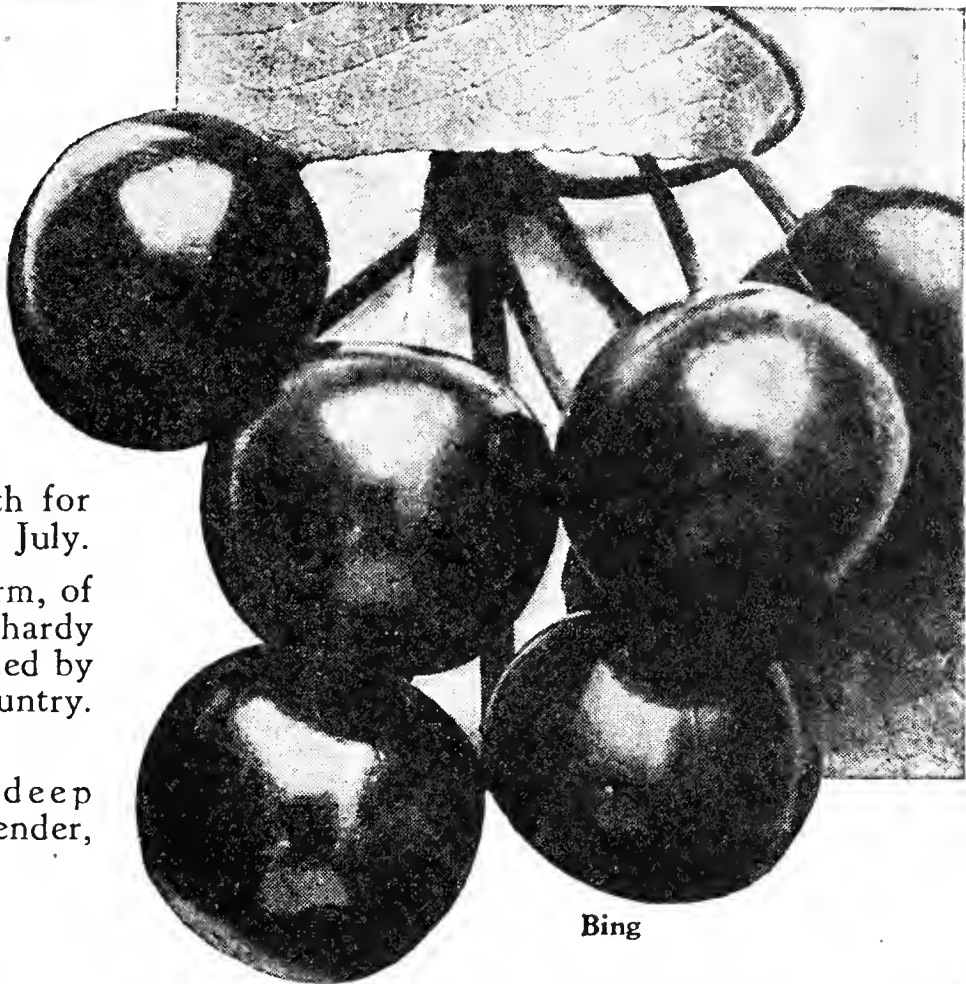

Black Tartarian Very large, purplish black, heart-shaped; flesh mild and sweet, and quality considered, one of the best for market and dessert. Tree is vigorous, upright grower and immense bearer. Ripens in July. We recommend this as one of the best Sweets for home use.

Napoleon (Royal Ann). Of fine appearance and very largest size. Color yellow and amber, with bright red blush; flesh firm, juicy and delicious. Profitable for market, finding a ready sale both for canning and dessert. Bears enormous crops, ripening in July.

Windsor Fruit large, dull red; flesh remarkably firm, of fine quality, and a good bearer. Tree hardy and prolific. Ripens middle of July. Highly recommended by some of the most prominent fruit growers of the country. A valuable addition to any garden or orchard.

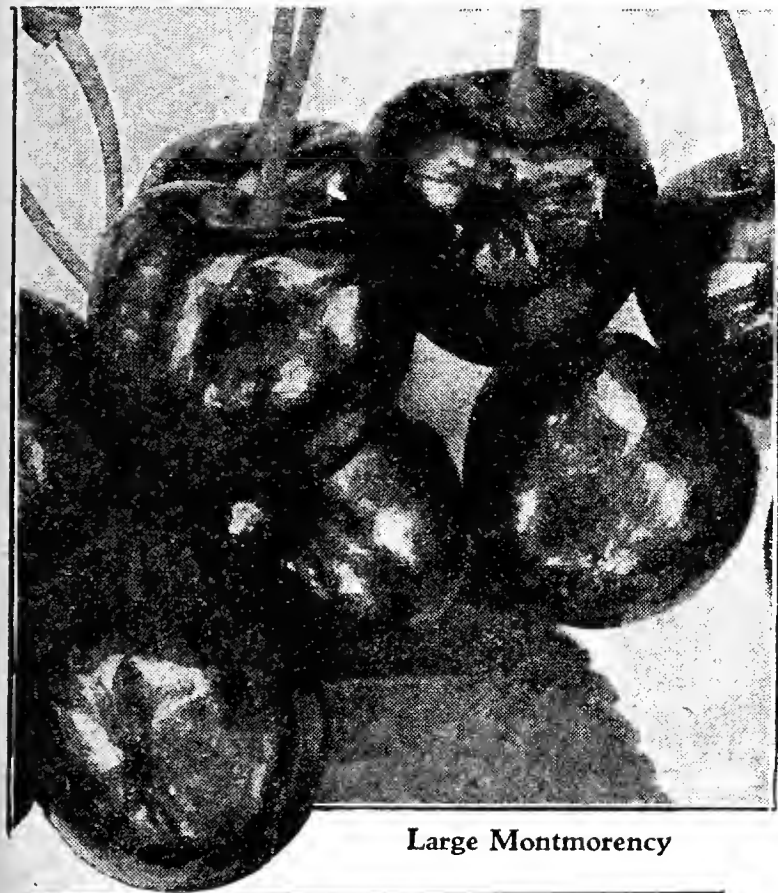

Schmidt's Bigarreau Immense size, deep black, flesh dark, tender, very juicy, fine flavor; productive. Ripens in July.

Prices of Sweet Cherries	All varieties listed:		
	Each	10	100
2-yr., 9/16 in., 3½- to 4½-ft. trees	\$0.65	\$6.00	\$55.00
2-yr., SPECIAL SUPER-SIZE	.75	7.00	65.00

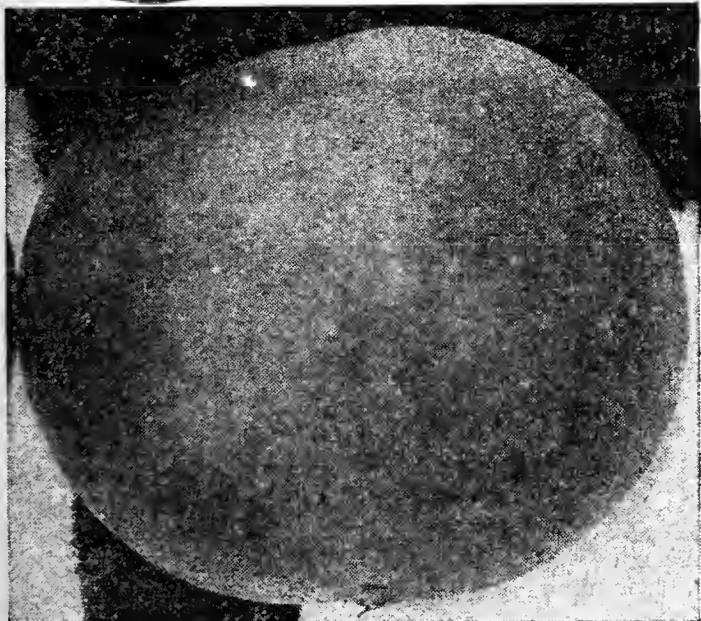

Bing

Bing One of the best known and most popular dark sweet Cherries. Fruit large, dark colored, nearly black. Considered one of the most profitable. Tree hardy and vigorous. Seems to succeed in the East better than most Sweets. Ripens late June. Should be included in every planting.

Large Montmorency

Red Roman Nectarine

The 2nd WORTHWHILE Sour CHERRIES

We have discontinued propagating all sour Cherries except the two varieties listed as they have proven so far superior to other kinds that we have decided to offer our customers only the best. 90% of all Sour Cherries grown in the United States consist of these two varieties.

Large Montmorency

The leader of all Sour Cherries. Ripens midsummer. One of the finest flavored Sour Cherries. Bears enormous crops regularly. Best all-around Cherry grown. Tree bears two to three years from planting. A real money-maker, as the price of the fruit designated this year.

2-yr., 9/16 in., 3½- to 4½-ft. trees, each, 55c; 10, \$5.00; 100, \$45.00. 2-yr., special super-size, each, 65c; 10, \$6.00; 100, \$55.00.

Richmorency New! Large! Extra Early (Early Ripening Montmorency)

Ten days earlier than Montmorency. Largest Sour Cherry grown—red, very juicy, fine flavor.

These facts are of decided advantage, as the size, quality, and earliness of this Cherry bring a much larger profit.

Should replace all other Sour Cherries. Similar to Charlevoix, but better.

Prices: 2-yr., 9/16 in., and up, 3½- to 4½- ft. trees, 80c each; 3 for \$2.25; 10 for \$7.00.

Beauty

Cortland

Baldwin Winter Apple. Large, roundish, dark red; of rich flavor. Excellent keeper well into winter, and a splendid shipper. Tree hardy, quick, strong grower. Heavy cropper.

Cortland An offspring of the McIntosh, but fruit larger, more uniform in size, more highly colored, richer in flavor, firmer but fully as juicy. Clings to tree more tenaciously, and ripens 3 to 4 weeks later. Fine for cooking. A good shipper. Bears 2 or 3 years after planting.

Delicious Winter Apple. Has established its claim to first rank, both for commercial and home orchards. Fruit large, flesh fine grained, crisp, juicy and really delicious. Tree hardy, vigorous grower, producing enormous annual yields.

Grimes Golden Winter Apple. Medium to large size; skin golden yellow; delicious sparkling flavor. Tree very hardy and productive. Bears young.

Jonathan Grand, good winter Apple. Bright, solid red. Flesh white, sometimes tinted with red; firm, fine, crisp and tender. A splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Will keep well without especial care, and also stand much handling.

McIntosh Red Medium size, nearly covered with dark red. Flesh white, tender, juicy and crisp. Similar to common McIntosh but colors earlier. Tree hardy, vigorous and healthy.

Red Northern Spy Red Spy is a typical Spy except in color. The color is solid bright red without either stripes or splashes. Flesh white, tender, mild, sub-acid. Reliable bearer.

Red Rome Beauty An improved variety, which has a solid, deep-red color. Larger winter Apple of good quality. Thick skinned, stands handling well and a good keeper. Bears young.

Red Astrachan Ripens in July. Best midsummer cooking and eating Apple for home and market. Tree is hardy and regular bearer, grows vigorously, and bears fourth year. Fruit large, roundish, nearly covered with deep crimson. Juicy, rich, sub-acid flavor. Keeps well until September.

Wealthy Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good. A profitable market sort.

Yellow Transparent Ripens in July. One of the best early varieties. Skin is clear white, changing to pale yellow when ripe. Flesh white, tender, sub-acid.

Baldwin.

Jonathan.

The Best Newer Apples

BLACK JUNG This is a new strain of Jonathan, identical in shape, size, productiveness, etc., but colors earlier than common Jonathan, which allows same to be picked when in firm, prime condition. As it reaches the market earlier, it commands much higher prices.

RED HARALSON The prize origination of the Minnesota Experiment Station. No finer red winter apple has ever been introduced. The outstanding feature of the Haralson is its keeping quality—keeping in perfect condition until late spring. The Haralson is free from blight and best of all, has the tendency to bear early. Produces a good size, deep red apple of excellent flavor.

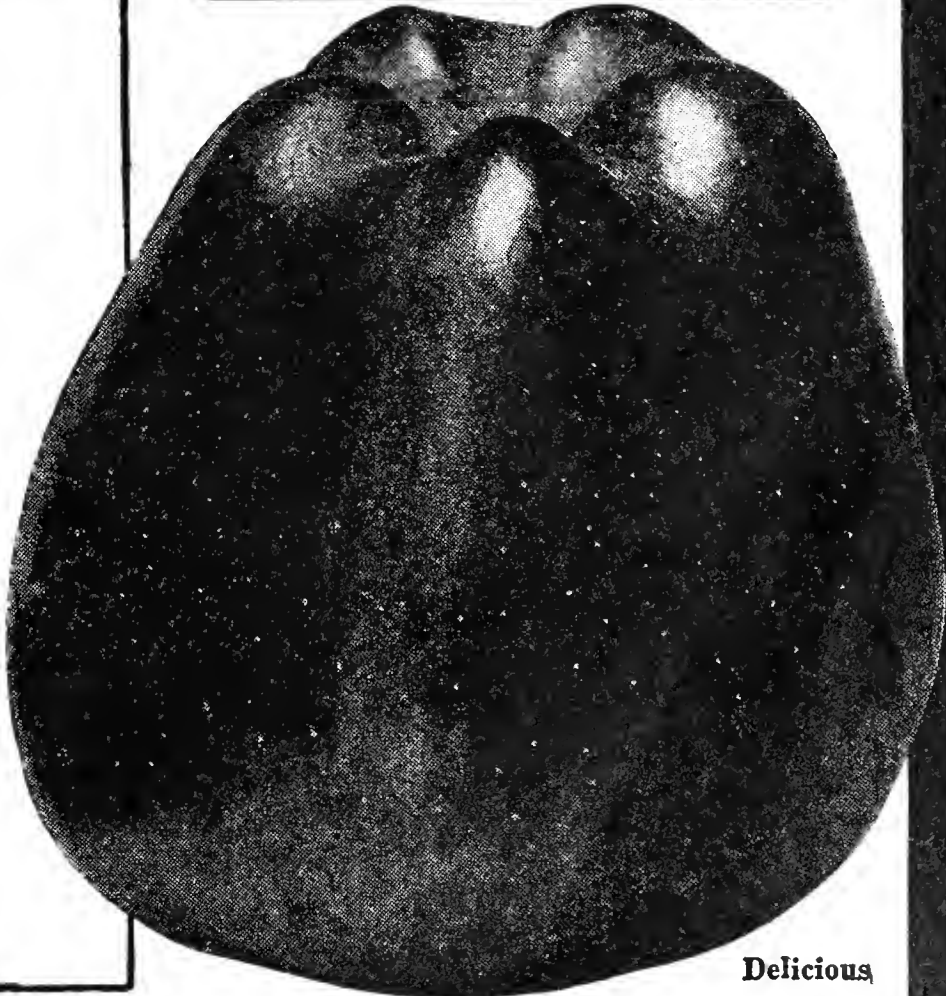

DOUBLE-RED DELICIOUS The new, superior Delicious that is creating a sensation. Fruit is red all over as early as August when other Delicious are still green. Extra fine flavor. Brings highest prices on the market. Supply is limited, so order early.

TURLEY (Red Winesap). Extra fine commercial Apple. Colors red on the tree much earlier than other Winesaps, filling a long-felt need. Originated in Indiana, and now one of the leading Apples there. Large very red fruit. Excellent flavor and quality. Vigorous tree, bears young. Ripens just before Stayman's Winesap. You can't afford to overlook this superior Apple.

YELLOW DELICIOUS Best yellow Apple. Waxy golden color. Luscious flavor, finest in the world. Bears very early, in 2nd and 3rd year. Keeps until late spring without becoming mealy. Very hardy. You'll make more money with our Yellow Delicious.

Fertile-HALE (La Duke). This new introduction, as the name implies, is a Hale which is self-fertile, thereby doesn't require cross pollination. Fruit growers everywhere have been asking for a Hale Peach that would produce profitable crops. The Fertile-Hale will produce full crops of beautiful large Peaches, entirely free from all so-called "buttons" so prevalent in crops of J. H. Hale. Trees are far more vigorous and hardier in bud than J. H. Hale. Ripens a week later than Elberta, coming on the market when the bulk of the Peaches are gone, therefore bring a premium price. Color yellow, with deep carmine blush. Good shipper. Splendid market variety. Be sure to include some of these trees in your orchard planting.

This wonderful variety came through the extremely cold winter of 1936 with flying colors, producing over 75% of a crop in most sections and practically 100% in Michigan. Further, the extreme drought of the past summer did not have any severe effect on its size, maturing their normal large-size fruit. It commanded almost a dollar more per bushel than some of the better kinds offered on the market. We know that it is a money maker, and you will be the loser, if you do not get started with this exceptional variety. This variety is protected under U. S. Plant Patent.

Note what one of the largest and most prominent fruit growers in this section, Mr. J. Ginter, Sodus, Michigan, says about Fertile-Hale:

"I purchased 200 trees of this variety in 1933, harvesting the first crop this year, and found that the Fertile-Hale is the most outstanding and best Peach in my entire orchard, which consists of 20 acres; I sold my entire crop of this variety on the Benton Harbor market and received 90c per bushel more than I did on all other kinds.

"Enclosed find my check, and book my order for spring delivery, for 130 Fertile-Hale trees. Surely would like to plant more if I had the room."

HALE-HAVEN Introduced by Michigan State Experiment Station. A cross between South Haven and J. H. Hale. Freestone. Strong grower, very hardy, heavy bearer; excellent fine flavor. Ripens ten days earlier than Elberta. The best New Yellow Freestone we have seen in years.

RIO-OSO GEM This variety is protected under U. S. Patent No. 84. Ripens about ten days after J. H. Hale, during that period when there are few good Peaches on the market. This new Peach has the extreme large size of J. H. Hale, is more highly colored, of finer grained texture, firmer, and of better general quality. Yellow freestone Peach. The Whitten-Ackerman Nurseries are specially licensed by the patent owner, to grow and distribute this fine new yellow freestone peach; but to eight states only, viz.: Ohio, Indiana, Illinois, Missouri, Michigan, Wisconsin, Minnesota and Iowa. 1-year, 7/16 in., 3- to 3½-ft. trees, 60c each; 10 for \$5.00, net—not subject to any cash discount.

GOLDEN JUBILEE Extra Early Yellow Freestone. Introduced by New Jersey Experiment Station. Wouldn't you like to grow a yellow, freestone Peach, with all the good points of Elberta, plus much improved flavor, but ripening a month earlier than Elberta? Here's the Peach you've been looking for! Extra early, fine flavor, self-fertile, grows well wherever Peaches can be raised. Very hardy, regular bearer and a good grower. Has no superior among Early Yellow Freestones.

See back cover for new "Hardee Peach."

1937 PRICES — PEACH TREES

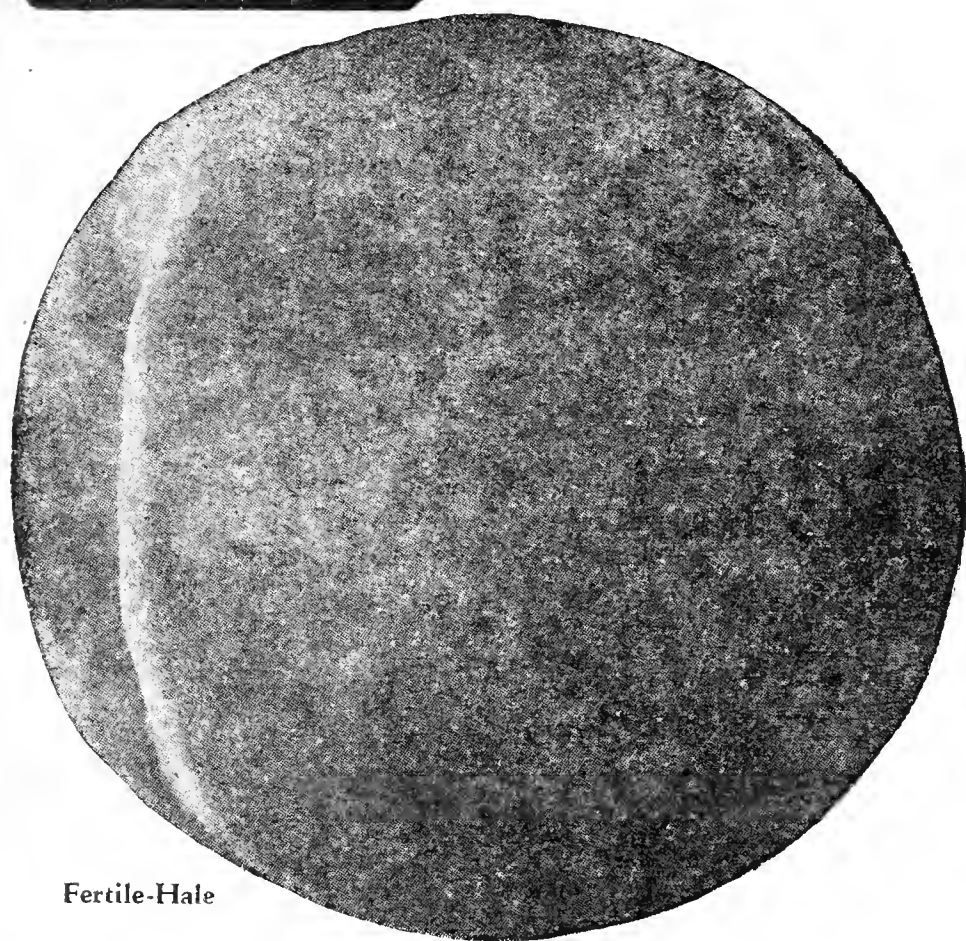

SPECIAL DISCOUNTS from prices below allowed for all cash with orders received any time during 1937. See page 3. Five or more trees of one grade and variety only at the 10 rate; 50 or more of a single grade and variety at 100 rate.

FERTILE-HALE:		Each	10	100
1-yr., 7/16 in., 3½- to 4-ft.	\$0.55	\$4.75	\$42.00	
1-yr., 9/16 in., 4- to 5-ft.65	5.75	52.00

WHITTEN ACKERMAN PEACHES

Standard
COMMERCIAL
VARIETIES

Absolutely true-to-name, vigorous, well grown, perfectly healthy, with well ripened wood and splendid roots Guaranteed to reach you in good growing condition.

SOUTH HAVEN Extra large, extra fancy, extra early yellow. Combines all the good features of Elberta—large size, excellent quality, delicious flavor, beautiful appearance and immense productiveness, but it ripens 12 to 16 days earlier, enabling one to get it on the market at a time when good Peaches are scarce and when they bring the highest price. It is of the finest quality as an eating Peach and is also a great shipper. Rapid growing, young bearing. You can't go wrong in planting South Haven.

You will not find any spindly whips and poorly branched stock offered for sale in our nursery. We cannot afford to sell them and you cannot afford to plant them.

NOTE BARGAIN AT RIGHT.

J. H. HALE This well-known variety needs no description. Ripens 5 days earlier than Elberta, larger, and is superior in flavor; beautiful golden yellow with carmine blush, smooth, fuzzless.

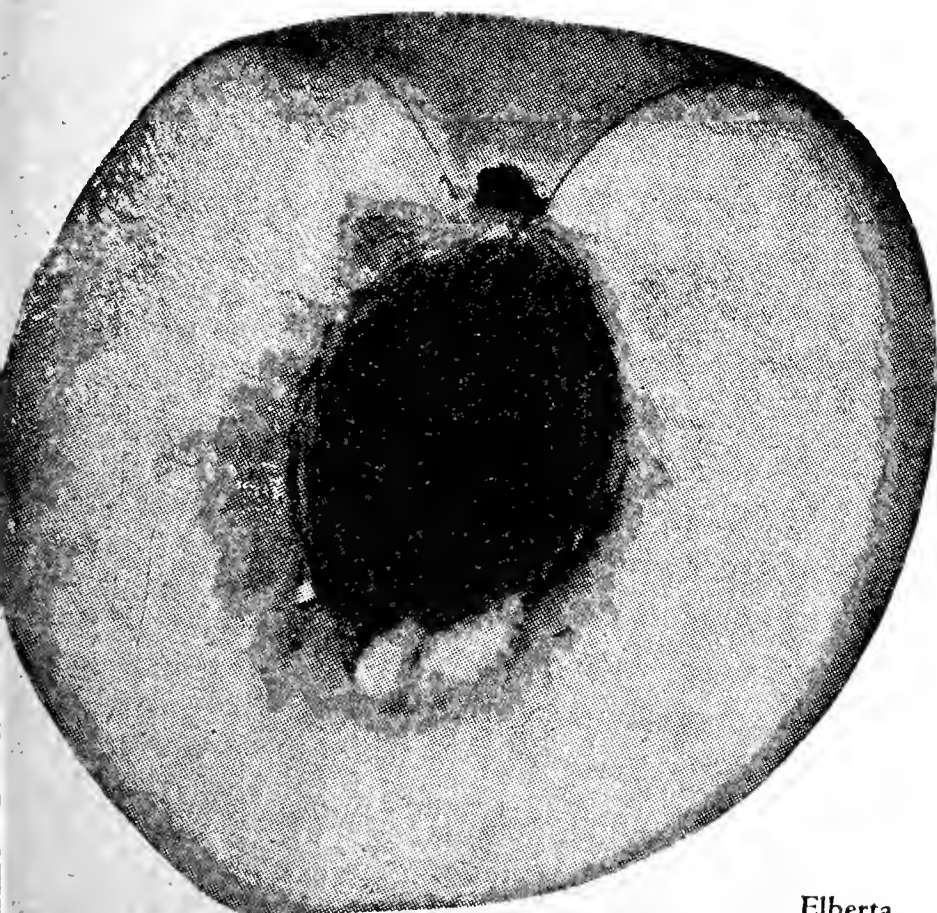

ROCHESTER Good early, yellow freestone for home and market. Fruit large, yellow, sweet, juicy and of delicious flavor. Keeps and ships well. Ripens about August 10th. Commands good price. Tree strong grower and hardy. An annual and prolific cropper.

ELBERTA Standard market Peach of the entire country. Very large; yellow with red blush; flesh is yellow, tender and juicy; very highly flavored, rank, vigorous grower. Does well in all Peach growing sections. Ripens middle of September. Freestone.

SALBERTA If you are interested in a late Peach, try this new variety; two weeks later than Elberta. Rich yellow freestone. Inherits the size, quality and productiveness of Elberta and lateness of season of the Salwey. One of the best late Peaches.

South Haven

Elberta

Salberta

PEARS

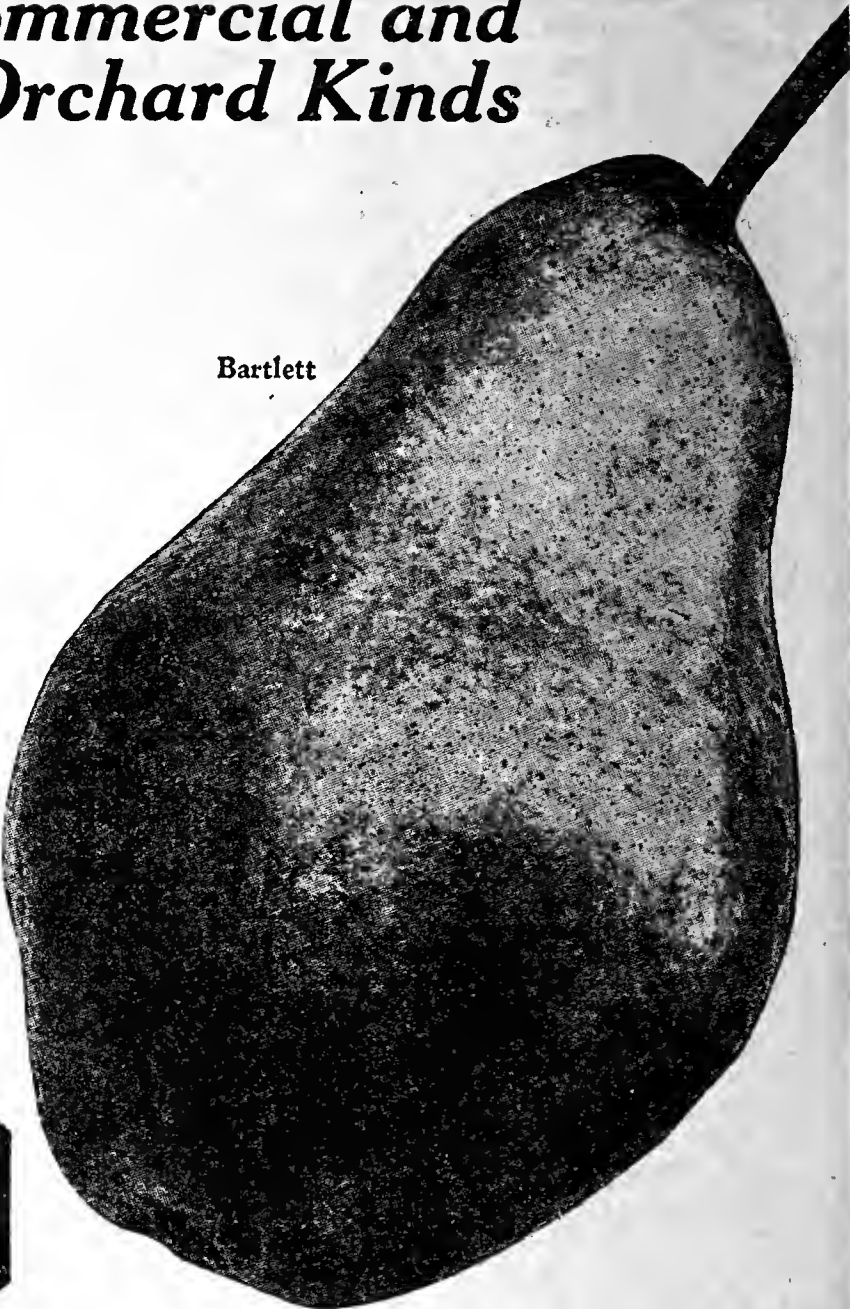

Best Commercial and Home Orchard Kinds

Bartlett Large; coloring when fully ripe, to waxen yellow with red blush; juicy, melting, highly flavored. Tree bears early and abundantly. Fruit ripens in September at a time when there is little or no competition on the market. Some nurserymen claim there have been more Bartlett planted than all other kinds of Pears combined, and you make no mistake in planting Bartlett yourself.

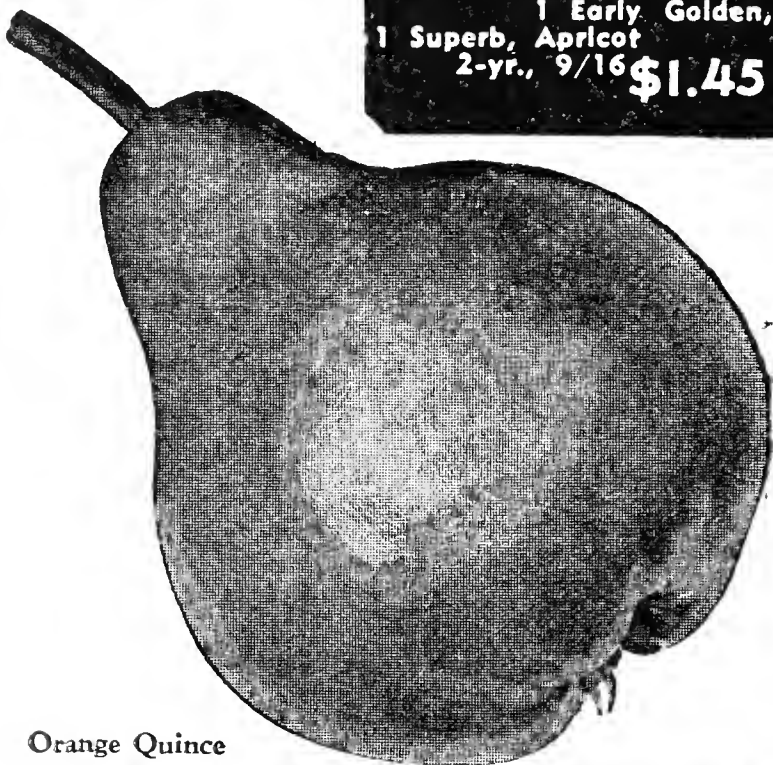

Gorham Growers have long looked for a variety to follow Bartlett which lacks some of the conspicuous faults of the several kinds that are grown for that season. Gorham ripens its fruit 2 weeks later than Bartlett. A good keeper. The fruit resembles that of Bartlett in size, color and shape. The flavor is sweet and vinous, with a pleasing aroma. The flesh is white, juicy and of a remarkably fine grain. It is more blight-resistant than Bartlett. After 4 consecutive years of fruiting under observation in the variety orchard at the Ohio Experiment Station, Wooster, the Gorham pear is now recommended for commercial planting. Tree vigorous and productive.

Seckel (Sugar Pear). Small size; yellowish russet, with red cheek. Flesh white, buttery, very juicy and melting. Ripens in September and October.

Kieffer Best Pear for large commercial planting. Ripens in October and November. Fruit large, and of good quality.

Five or more trees of a single variety at the 10 rate; 50 or more at the 100 rate. **SPECIAL DISCOUNTS** for all cash with order. See page 3.

QUINCES

Orange Sometimes called Apple Quince. Fruit large, round, with a short neck; color bright yellow; flesh tender, juicy and excellent flavor. Highly regarded for jellies and preserves. Trees bear young. A good tree to plant on hillsides or where land is hard to work, as it requires very little care.

PRICES OF QUINCE TREES

	Each	10	100
2-year, 4- to 5-ft. trees	\$0.75	\$7.00	\$65.00
2-year, SUPER-SIZE	.85	8.00	75.00

APRICOTS

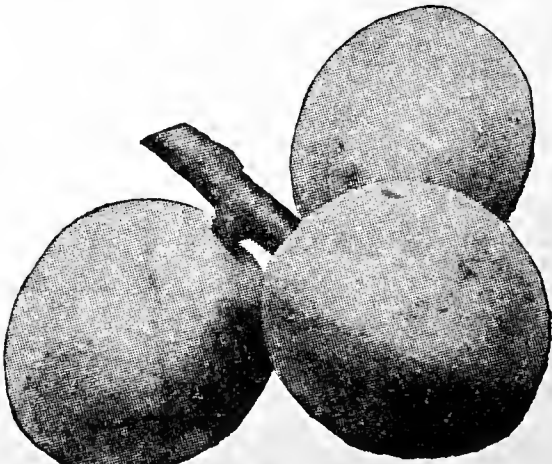

Superb A hardy tree and a sure cropper. The best flavored, most productive hardy Russian Apricot yet produced. Medium size, light salmon.

Early Golden Early, prolific; orange in color. Good flavor. Ripens immediately after sweet Cherries.

PRICES OF APRICOT TREES:

German Prune

Stanley Prune

New! Introduced by the New York State Fruit Testing Association. Highly recommended by the New York Experimental Station. Will take the place of all other Prunes, as it comes into bearing 10 days earlier than Italian or German Prune, thereby brings a fancy price before other Prunes commence to ripen. Is better in tree and fruit than these well-known sorts. Large, deep, bluish purple; flesh greenish yellow; fine grained, tender, firm, very sweet. Good quality; skin sufficiently tough so it will not crack. Very hardy.

German Prune

Large, dark purple, sweet. One of the best for commercial planting. Excellent for drying and canning. Ripens in September.

Italian Prune

The outstanding Plum of the Pacific Coast and Northwest. Can be grown and will produce wonderful crops in any state where Plums are grown. Good-sized purple Plum. Very good for canning and ideal for drying; unexcelled for home use. Flesh juicy and delicious. Ripens in September.

Profitable

PLUMS

Plums are hardy and grow vigorously in nearly all sections, succeeding on any medium fertile soil. The market for Plums is never over-stocked, so that good, profitable returns are assured. Plant 16 to 18 feet apart.

Burbank

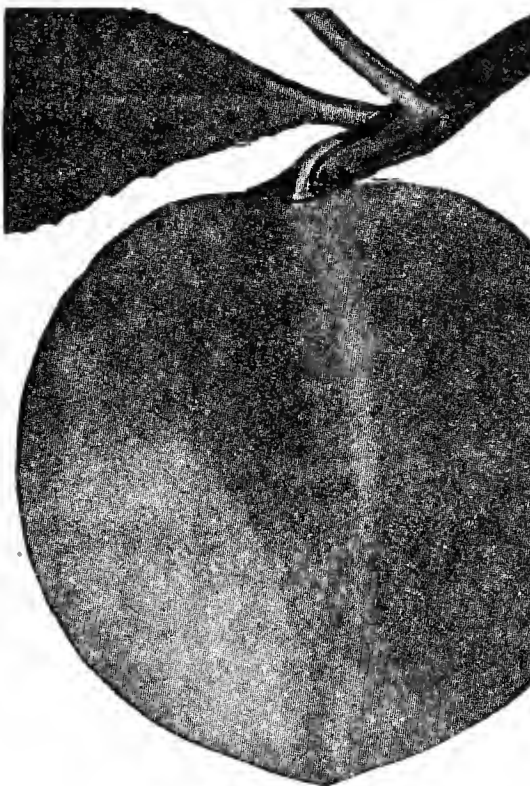

Fruit large and of excellent quality; cherry-red, with lilac bloom. Tree hardy, and heavy yielder. Ripens in August.

Reine Claude

(Green Gage). Large, yellow-green, juicy, melting, sugary and delicious. Because of its rich flavor, one of the best for eating and canning. Ripens quite late. Very hardy and productive.

Yellow Egg

The best yellow Plum. Fruit is very attractive, large, and rich yellow in color. Wonderful for canning. Bears a large crop, even when the trees are quite young.

Underwood

Sapa

Medium to large size purple Plum with purple flesh full of rich juice of fine flavor. Ripens in July. Very fine for canning. Bears next year after planting. Bears heavy regular crops. Does well anywhere—North, South, East, West.

Underwood

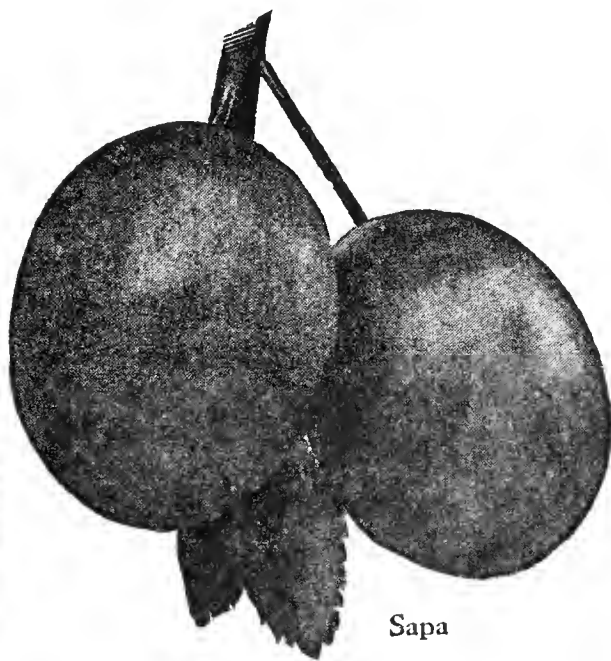

Bears immense crops of large red Plums of fine quality. Ripens in August. Very hardy. Fruit firm, juicy flesh, very small pit, freestone.

Waneta

Our most popular Plum. Generally bears next year after planting. Fruit is very large, reddish purple, good quality. Ripens in August. Planted all over America. Very hardy and rapid grower.

Burbank

Sapa

INSTRUCTIONS FOR ORDERING

INDEX

LOCATION. Bridgman, Berrien County, Michigan. The World's Largest Fruit Plant Center.

ORDER BLANK. Be sure to use Order Blank and Return Envelope provided. It prevents errors and insures prompt attention. If you do not have an Order Blank, you may order by letter.

ORDER EARLY. By ordering early you will find us with a full line of stock, and your order will be shipped when you want it, with no chance of delay. Early cash buyers receive a Liberal Gift Planting. Be one of them. (See page 2 for details.)

TERMS. 10 per cent discount on all orders accompanied by cash in full, except Special Bargain Offers or Special Quotations, which are net. C. O. D. Express or Parcel Post shipment if you prefer. (See page 3 for full details).

CLAIMS. All claims covering condition of arrival, shortage or errors, must be made within 5 days after arrival. If stock arrives in bad condition, be sure to furnish signed statement from express agent or postmaster, showing extent of loss or damage. All claims will be taken care of under the terms of our Guarantee printed on page 4. Claims not made in accordance with the terms and conditions of this paragraph cannot be considered.

EXPRESS AND PARCEL POST SHIPMENTS. On express shipments, be sure there is an express office at destination you give. When ordering by Parcel Post be sure to follow our instructions below at right.

If the size or weight of the bundle is too great to comply with Parcel Post requirements, or contains nursery stock difficult to handle by parcel post, we reserve the right to change the routing to express; but in all such cases, any money advanced for the payment of postage will be immediately refunded to customer. Do not ask us to send 5 to 6 ft. or 6 to 7 ft. fruit trees by parcel post, as in order to meet parcel post requirements these trees must be cut back so far that they are very likely to be injured. If you insist on parcel post delivery of these large sizes, we cannot be held responsible for damage to trees.

Express shipments of nursery stock now travel at 2nd class rates, making charges on all packages and bundles about 25% cheaper than formerly.

HOW TO REMIT FOR YOUR ORDER: 1.—By postal money order. This can be purchased at your postoffice, or if you live on a rural delivery route, carrier will attend to sending it for you and bring you the receipt. 2.—By registered mail. In this way you enclose the money itself with the order, taking the Government's receipt, which is your protection. 3.—By express money order. Can be bought at any express office. 4.—By personal or cashier's check. Make it payable to The Whitten-Ackerman Nurseries. Money Orders Preferred.

Do not send cash unless you register your letter. Cash or stamps when sent by ordinary mail are likely to be lost, in which case we are not responsible. We do not pay duty to foreign countries. Please Do Not Send Postage Stamps.

BARGAIN COLLECTIONS—Cannot be Altered, Divided or Changed in Any Manner; Neither Can They be Shipped C. O. D. for Purchase Price, as They are for Cash With Order Only, and are Priced Net, Subject to no discount or Free Plant Offer.

SUBSTITUTION. In ordering be sure to state whether or not we shall substitute some other variety in case the kind ordered is exhausted. If not forbidden, we reserve the right to substitute some similar variety of equal or greater value, but will always label substitutes true to name.

FALL SHIPMENTS. Our stock is fully matured by October 15th, and to southern customers or others wishing to plant in the fall, we can make shipment during October and November.

ACKNOWLEDGMENTS. Orders acknowledged same day received, and shipped in season or as per instructions you give.

NOTE: Should the United States, or any state, increase by taxes, legislative acts, inflation, or in any other way beyond our control, the cost or selling price of nursery stock shown in this catalog, we reserve the right to add to our quoted prices to cover such increases.

Parcel Post Rates

HOW MUCH TO INCLUDE FOR POSTAGE WHEN YOU SEND CASH WITH ORDER

Use for orders over \$3.00, and for shipments into states where we do not advance postage. See note at right.

First locate the group of states in which you live, and it will then be easy for you to determine from schedule below the proper amount to allow for postage on your order.

BRIDGMAN, MICHIGAN

Don Byers HARDEE

U.S. PLANT PATENT No. 120

TRADE MARK REG. U. S. PAT. OFF.

New Peach Resists Zero Weather

A new Peach developed to resist excessive cold. **END WINTER KILLING WITH HARDEE.** Has been tested by the Ohio Experimental Station for the past several years, and this is what they found:

In 1930, when a memorable drought was experienced, it came through undamaged; in 1932, when the trees were only five years old, state records show each yielded 2½ bushels; in 1933-1934, when temperatures in Ohio dropped to 18 below zero, Hardee was the outstanding variety of the year, bearing a full crop; after the winter of 1935-1936, with the Peach crop a complete failure, except along the lake shore, on account of the extreme cold weather, this variety bore a good crop of Peaches.

These experiments have convinced us that Hardee is the coming Peach for all northern climates.

The fruit is large to above large, Elberta type, ripening a little later, yellow freestone, highly colored, is distinct and delicious. Firm flesh, of the best quality, thick-skinned, making it an excellent shipper.

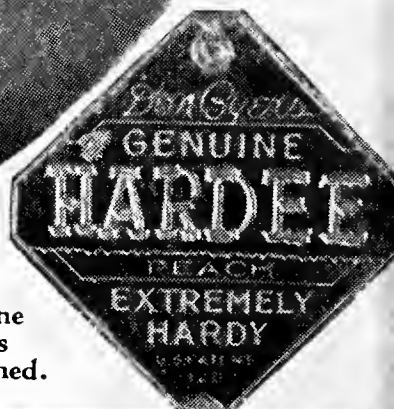

Vigorous grower and will produce a nice crop the third year on most any kind of soil or climate. Be the first in your locality to get started with this new Peach and be assured of a crop when your neighbors fail.

3 New Varieties Raspberries

DEVELOPED BY U. S. DEPARTMENT OF AGRICULTURE

Indian Summer

Indian Summer *Everbearing Red Raspberry*

Bears in summer as other Raspberries and also in fall, beginning in September and continuing till frost. Fine, large, medium red berries. Bound to be profitable because of the strong demand for berries in the fall. Plants are hardy and vigorous. Certainly worth a good trial planting.

Price: 1-yr., No. 1, 20c each; 6 for \$1.00; 12 for \$1.75; 25 for \$3.00.

Taylor

Taylor *New Red Raspberry*

Promises to be our best late red Raspberry. Fruit large and holds size well through season. Bright, medium red, long, conical shape, firm, will not crumble in shipping. Plants proved hardy in severe winters of 1933 and 1934. Ripens with Latham.

Price: 1-yr., No. 1, 20c each; 6 for \$1.00; 12 for \$1.75; 25 for \$3.00.

Sodus

Sodus - *New Purple Raspberry*

More promising than any other purple kind. Large, firm, red-purple berries. Do not crumble in shipping. Has a unique, very pleasing flavor. Plants vigorous, hardy and very productive with no signs of being subject to disease. You will like it. Try it.

Price: 1-yr., No. 1, 12 for 90c; 25 for \$1.50; 50 for \$2.80; 75 for \$3.70; 100 for \$4.50; 500 for \$20.00.
